The Markets.

Yorkville Markets.

REPORTED BY S. N. STOWE & CO., GROCERS AND PRODUCE MERCHANTS.

APRIL 26.

Cotton.—The demand for cotton has continued lively during the past week, though, in consequence of the busy season, the sales have been somewhat limited. The latest advives from Liverpool are favorable, and prices have risen in all the markets and still have an upward tendency. The rates now range from 6¼ @ 8½—a very choice article would command a shade higher.

Flour.—The prices of flour has advanced in the larger markets. Our stock is quite light, though the demand is good. Sales are made at $8.50 @ $8.75, in barrels; and $4, @ $4.25, in sacks.

Corn.—The stock on hand is light—prices have advanced. We quote 90 @ 95. *Meal* is in demand, and would command 95 cents.

Bacon.—Sales have been made at from 8 @ 11 c.

Peas.—Stock light—prices 85 @ 90.

Groceries.—Coffee has advanced. We quote Rio, 15; Cuba 14; Mocha 20; Java 17. Sugar, 6¼ @ 10. Molasses have advanced; we quote from 45 to 50. Salt $2.50; Rice $5 per bushel.

Columbia Market.

APRIL 21.

Cotton.—When we closed our last weekly report of the market, ending on the 14th instant, a very brisk and active demand prevailed for the article, at prices varying from 7 for very inferior to 9 cents for fair, consequent upon the advices brought over by the America to the 31st ult. The week now under review opened with the same good feeling and active demand, and notwithstanding the amount of cotton offering was unusually large, and although we are still without later advices from Europe, which are now thirty due and most anxiously looked for, still the demand from day to day was steady and uniform and every bale that was offered was freely taken, at full and unchanged prices. The sales of the week have run up to the large amount of 8,729 bales, and we now quote: Inferior 7¼ @ 7½; Ordinary 7¾ @ 8¼; Middling 8⅜ @ 8½; Good Middling 8⅝ @ 8¾; and Fair 9 cents.

APRIL 24

Cotton.—The news from Liverpool by the Nashville, which came to hand yesterday morning, had a favorable effect on prices in our market, and although the quantity on sale was too small to be a true test of the effect of the advices, still enough was sold to show that the tendency of prices were decidedly in favor of sellers.

THE PRINCETON PRESS.

THE design of the inventor was to get up a Press which would answer *every requirement* of the offer made by GEORGE BRUCE, of New York, in 1851, viz: *cheap, light, easily managed*, and capable of throwing off at least 500 sheets per hour.

This Press will throw off from 500 to 800 sheets per hour, doing the work equal to any Cylinder Press. The bed stands about 30 inches from the floor, and is the most convenient of all Presses to make ready the form on. It is adapted to jobbing, or book work, as well as newspaper, and will register as well as any other Cylinder Press. It requires, to work it, a man to turn the fly wheel, and a boy to feed the sheets.

The Inking Apparatus is very complete, and differs from the apparatus used in Cylinder Presses generally, being more like that used in the Power Platen Presses. Two rollers pass over the form twice to each impression, taking ink for each sheet.

A Press of this description for newspaper and jobbing, bed 44 by 28½ inches, with roller mould, roller stocks, blanket, flying and registering apparatus, &c., complete, will be furnished for $500. If intended for book work chiefly, an extra ink fountain will be furnished for $20. The press, fly wheel, &c., will weigh about 2000 pounds. The sides, &c., are iron. Length of frame, seven feet—height, to front edge of feed board, three feet six inches. Any size made to order.

The following is the list of Sizes and Prices as far as established:

Bed 28 by	20,	$400.	Bed 48 by	34,	$780.
" 36	24,	450.	" 50	32,	600.
" 44	28½,	500.	" 52	32,	625.
" 46	30,	540.			

The beds will take chases their full breadth, and within two inches of the length.

TERMS.—One-half, cash; one half, note, at 4 months, with approved security, or 2½ per cent discount for cash.

Boxing and Cartage, $13.

For more than three years the inventor of the above Press has been improving it, working it all the while, and ascertaining, with great care and expense, the best mode of carrying out all the details—and he flatters himself he has succeeded in perfecting it; and is now manufacturing the Press himself. No Press will leave his premises without being thoroughly tested, and without it performs to the entire satisfaction of the purchaser.

CHESTERVILLE, S. C.

MISS ELLEN McAFEE [illegible] the well known HOTEL in CHESTERVILLE [illegible] the accommodation of the public generally [illegible]

Boarders and Travellers.

The reputation which the House now enjoys renders it unnecessary that she should make any special promises to the future management. With a full complement of

Well-Trained Servants,

and all the appointments requisite to a first-rate Hotel, she feels sure that nothing will be wanting on her part to ensure the comfort of her guests. Thankful for the liberal patronage heretofore offered, she solicits a call from them whenever they may visit Chesterville.

Mr. John McAfee,

will continue, as heretofore, to give his attention to the business.

☞ Passengers by the Railroad will find Mr. SMITH'S OMNIBUS at the Depot, ready for their conveyance.

Chesterville, Jan. 18, 1855. 2 tf

☞ The Tri-weekly Carolinian will copy 4 times and forward the account to this office.

Chester Carriage Factory.

THE undersigned is now prepared to manufacture, at his New Establishment, in Chesterville, all kinds of CARRIAGES, adapted to our rough and hilly country, and of the best Materials. He would suggest, as almost every man in the upcountry is more or less a judge of timber, that if any buy a buggy or a Carriage, no matter where, look around and see what sort of Timber the builder has and in what condition it is kept. The Carriage-Maker may *Lay Brush, or Brush* as much as he pleases, but the *Good Sense* of the purchaser will tell him the *Leather-Piece*.

To buy a cheap Negro, Horse or Carriage, is to verify the old adage *Penny wise and Pound foolish*. Give me a fair price for my work, and then if it is not made right, hold me responsible.

If it were not for Paint, Putty and Glue,
What would we poor Carriage-Makers do?
