A Civil Service Clerk Bounced.

Oliver P. Burger of Quincy, Illinois, who was appointed to a thousand dollar clerkship in the registry division of the Postoffice Department last September, under the civil service rules, was summarily dismissed from the service by the Postmaster General last week. Soon after coming into his new position Burger prepared a postal circular, which he has been industriously distributing in all sections of the country, principally among school teachers, in which he sets forth that the government offers employment at a remunerative salary to those who are qualified to enter its service. The postal circular concludes as follows: "A pamphlet has been carefully prepared by the undersigned, giving full instructions and useful suggestions to those who desire to stand an examination, and will be sent by return mail to any address on receipt of fifty cents in postage stamps."

The department officials say that the statements contained in the circular are purposely and grossly misleading as to the clerical needs of the government and are made for the sole purpose of obtaining purchasers for his pamphlet.

Atlanta Mouths Open.

Six months ago we had no demand for B. B. B., but now our retail demand is such that we are forced to buy in gross lots. We attribute the rapid and enormous demand to the comparative size and price of B. B. B. (being large bottles for $1), and its positive merit. It sells well and gives our customers entire satisfaction. Our sales have increased 500 per cent. within a few months.

"MOTHERS' FRIEND!"

NO More Terror!

No More Pain!

No More Danger!

TO

Mother or Child.

The Dread of Motherhood Transformed to HOPE and JOY.

Safety and Ease —TO— Suffering Woman

Not only shortens the time of labor and lessens the intensity of pain, but, it greatly diminishes the danger to life of both mother and child, and leaves the mother in a condition highly favorable to speedy recovery, and far less liable to flooding, convulsions, and other alarming symptoms incident to slow or painful labor. Its truly wonderful efficacy in this respect entitles it to be called THE MOTHER'S FRIEND and to be ranked as one of the life-saving remedies of the nineteenth century.

From the nature of the case it will of course be understood that we cannot publish certificates concerning this REMEDY without wounding the delicacy of the writers. Yet we have hundreds of such testimonials on file, and no mother who has once used it will ever again be without it in her time of trouble.

A prominent physician lately remarked to the proprietor, that if it were admissible to make public the letters we receive, the "Mothers' Friend" would outsell anything on the market.

GENTLEMEN:—During my career in the practice of medicine I used your "MOTHER'S FRIEND" in a great number of cases, with the happiest results in every instance. It makes labor easy, hastens delivery and recovery, and INSURES SAFETY TO BOTH MOTHER AND CHILD. No woman can be induced to go through the ordeal without it after once using it.

Yours truly,
