and an incorruptable soul; he is the man to lead the councils of the South through the storming deliberations of our National Legislature.

By Robert W. Burgess, *Esq. of Sumter*—As he stood gallantly at the head of his Regiment, and foremost in the fight on the blood-stained fields of Churubusco and Chapultepec; may we soon see him Governor of the Palmetto State.

By T. Touchberry, *Hon. F. W. Pickens*—His soul-stiring eloquence in the late Nashville Convention has well sustained the reputation he has already acquired, as one of South Carolina's most able Statesmen and gifted Orators.

By A citizen of Clarendon, *Col. Maxcy Gregg*—In his hands we feel that the interest of the South are safe. Let him lead on, and we follow; and, if strife must come, to him we prophetically look, as the young Washington of the Southern Confederacy.

ARRIVAL OF THE PHILADELPHIA.

LATER FROM CALIFORNIA.

The U. S. mail steamer Philadelphia, Capt. Pearson, arrived at this port last evening at 9 o'clock. She left Chagres on the 30th June, and Kingston, Jamaica, on the 1st of July.

The Philadelphia brings nearly $1,900,000 of gold entered on her manifest, in addition to which it is estimated that there are five hundred thousand dollars in the hands of passengers.

FROM CALIFORNIA.

We have received incomplete files of San Francisco papers to the 1st of June, seventeen days later than our previous advices.

The news is of considerable interest. The law imposing a tax upon foreigners working in the mines has had the natural effect of provoking an opposition by the parties whose interests it affects, and some hostile demonstrations have been the result. A letter in the Alta Californian, dated May 19, says:

"As I anticipated, the advent of the tax collector was the signal of alarm. Little, if any excitement was displayed in the town until this morning, when reports reached us that large bodies of Mexicans, Chilians and Frenchmen were assembled outside the town, holding meetings and consulting on means to evade the payment of the imposition of $20 per month. No notice was taken of these demonstrations, for the citizens of this place have so uniformly treated foreigners well, that we dou'd hardly entertain any fear for the peace of the town.

"About noon, two deputations came in from the assemblies to see the authorities, and ascertain if any action of the Governor could arrest the consummation of the contemplated taxation; or at least, to have it explained to them, and the justice of it shown to them. They asserted that it was impossible that such an amount could be paid; that they would willingly pay four or five dollars per month, that it would be out of the power of more than half of the miners to pay the sum contemplated; a great many diggers hardly getting more gold than sufficient for a mere livelihood.

"During the discussion, an American, who wished to get out of the crowd, began elbowing his way from the place when a Mexican or Chilian in front of him drew a pistol. In a moment a dozen revolvers were out, and a precipitate retreat was made by the foreigners. No shot was fired, but the Mexicans were alarmed, and the town was cleared in five minutes. Our peace now seemed threatened by about 4000 men outside, and no inconsiderable alarm was created in town. The citizens armed themselves, and expresses were sent to Mormon Creek and Sullivan's Diggings, from which places about five hundred well armed Americans arrived, and marched through the streets with guns and rifles on their shoulders. The demonstration was sufficient; the crowds in the vicinity soon dispersed, and quiet was restored."

A postscript of the same letter dated 20, says:

"Our foreign mining population in this country is estimated at ten thousand, and the estimate is, I assure you, from what experience I have, not exaggerated. Supposing twenty dollars per month to be collected from each of these, we have an income from public lands placed at the private disposal of a little territory, of $200,000 per month, or nearly two millions and a half per annum from one country alone. It is not to be wondered if Uncle Sam should deem this a little too large a bite for our state to indulge in. Again, the collector, I understand, has a commission of $3 on each license.

"This is a monthly income of $200,000, or an annual income of $2,400,000. Uncle Sam might object to the public money being disposed of so summarily. This simple statement of facts is conclusive proof of the [illegible]klessness of our legislators, and is another [of] the many reasons why we should press [im]mediately with the parent [illegible]

HIGHLY IMPORTANT FROM CONEY ISLAND.—*Organization of a State Government—Preparations for Defence, &c.*—At a late hour last night we received the following very important intelligence from Coney Island, and we hasten to place it before our readers and the public in general:

CONEY ISLAND, March 28, 1850.

This has been a great day for Coney Island. The inhabitants of this territory have at last, awakened to a sense of their rights, and are determined to be no longer a suburb, a stopping-place, for New Yorkers, but to assume the position to which they are entitled, as one of the States of this mighty confederacy, and the most important of the whole batch. They have lost all patience in awaiting the action of Congress in regard to California, and are determined to demand admission into the Union at once. If the demand be not complied with immediately and unconditionally, without respect to the Wilmot Proviso, they will set up a separate republic, organize fleets and armies, and set the United States at defiance. They are determined to defend the boundaries of their State according to their notions, and don't care a fig whether Congress says, think they have too extensive a line of sea coast or not. Their dander is up, and they are "on dreadful intents intent," if their wishes are not complied with. As it is, the whole Island is in motion. Flags are flying, drums beating, and our people are marching and countermarching, ready and anxious to meet all who may oppose them, especially the people of the States of Long Island and New York. I never saw so much enthusiasm before. The oysters and clams are jumping out of their skins, or out of their shells, with delight; and well they may, those who dare to say Coney Island is not a State. Gil Davis and John Smith have been duly elected to represent the new State in the Senate of the United States at Washington, with instructions to demand "in the most peremptory language, that official courtesy will allow" their seats in that august body. More anon.—*N. Y. Herald.*

☞ Drowned, on the 5th July, while bathing in the Piscataqua Lake, in New-Hampshire, AUGUSTUS WILL'M HOWLAND, eldest son of our respected fellow-citizen, WM. HOWLAND, Esq. He was a youth of liberal education, and of noble, generous impulses, and his melancholy death will be mourned by all who knew him.—So says the Charleston *Mercury*.

Among the plants brought home by the Exploring Expedition, is a most beautiful specimen of the celebrated Pitcher Plant, now grown to a considerable height. This plant our readers will recollect, abounds in the stony and sterile parts of the Island of Java, from which, were it not for this vegetable wonder, small birds and quadrupeds would be forced to migrate in quest of water. At the foot stalk of each is a bag, shaped exactly like a pitcher furnished with a lid and having a kind of hinge that passes over the handle of the pitcher, and connects it with the leaf. The hinge is a strong fibre which contracts in showery weather and when the dew falls. Numerous little goblets filled with fresh water are thus held forth, then the heated fibre begins to expand and closes the goblet so firmly as to prevent evaporation, precluding a further supply till called for by the wants of another day.—*Evening News.*

IT CONCERNS EVERY ONE!

CHOLERA CURED!

Dr. Keeler's Cordial and Carminitive,

For the speedy and positive cure of DIARRHŒA, DYSENTERY, CHOLERA MORBUS, CHOLERA INFANTUM, COLIC, FLATULENCY, GRIPING PAINS, and for all Derangements of the Stomach and Bowels, caused by Teething, Improper Drink, etc., etc.

☞ ASIATIC CHOLERA is as easily cured and prevented as any other disease of the stomach and bowels, provided the proper means are used. It presents the same morbid symptoms as Cholera Morbus, only more violent. There is no difference in their pathology, the treatment being the same. Dr. Keeler's Cordial, so justly celebrated for diseases of the stomach and bowels, will, as certain as it is used, cure this disease. As a Preventive, it should be used in small quantities daily, mixed with water, and on the approach of the disease, it should be taken in moderate doses, at regular and short intervals, until every symptom is removed. Frictions to the abdomen, with external applications to the extremities, in the worst stages of the disease, will cure forty-nine of any fifty cases. There is no need of anything else; and, above all, beware of Calomel, Purgatives, and other Palliatives; they will kill more than they will cure. The most severe cases of Complaint yield to the heroic virtues of this remedy like magic. The proprietor invites investigation, and boldly proclaims that it will speedily cure all diseases of this character. He can point to living witnesses of its beneficial effects, after being pronounced incurable and given up to die by their physicians. In all cases of failure the money will be cheerfully returned.

Read this Testimony.

(Extract of a letter from the Rev Dr. Earle,) Daisville, Bucks County, August 25th, 1847.

Dear Sir—I am now prepared to recommend your Cordial from having used it with success in several instances, and I am now trying your Panacea in a case of protracted debility, attended with cough, apparently produced in the young Lady by her 'outgrowing her strength,' to use a common phrase.

Yours, respectfully.

ALFRED EARLE, M. D.

Extract of a letter from Ebenezer Cook.

New York City, July 20, 1847.

"Dr Keeler, Sir, I have used in my family all of the Cordial which you left with me last summer except two bottles which I persuaded a customer of mine to try, and having proved very beneficial, he has recommended it to some of his friends who wish to have some of it. I therefore wish you would send me some by express. I am satisfied from my own experience that it is the best medicine for children Teething and Summer Complaints that is offered to the public, and all that is necessary for a recommendation is to try it.

Very respectfully,

EBENEZER COOK,
284 Grand st. cor. of Alley.

This is to certify that I have used Dr. Keeler's Cordial, and have found it a valuable medicine in diarrhœa, dysentery, and all derangements of the stomach and bowels, caused by Teething, and is particularly adapted to all diseases of those organs caused by acid fruits or the debilitating effects of season and climate.

D M'ALLISON, M. D. Plum st. Phila.

Dr Keeler's Cordial.—We would call the attention of our readers to this invaluable medicine, which will be found advertised at length in our columns. As a corrective in cases of Diarrhœa, a disease very prevalent at the present time, it is highly spoken of by all who have used it.

Neal's Saturday Gazette of August 28, 1847.

Dr. Keeler's Cordial and Carminative.—This article is advertised in another part of our paper, it is warmly recommended by families who have tried it. It is especially useful among children, and has effected hundreds of cures. The Cordial is not a quack nostrum, but carefully prepared medicine, and perfectly free from any thing injurious.—Pennsylvanian of Sept. 1, 1847.

Dr. Keeler—Dear Sir. As it is my duty to use every honest means to promote the happiness of our fellow creatures, I take great pleasure in stating to you the advantage I received from your valuable Cordial and Carminative. Last autumn I was attacked with Diarrhœa, which debilitated my system very much; for nearly three weeks I tried many remedies, but found little or no benefit, when my daughter informed me of your Cordial. I bought a bottle and had not taken but two doses before I obtained relief. I was entirely recovered before I used the whole of it; and, have remained hearty ever since. Respectfully yours,

S. BUDD, D. D.
