President McKinley and his cabinet will take a junketing trip across the continent. The railroads will provide the distinguished party with palatial coaches, and they will also be entertained all along the line. Teddy will occupy the back platform where he can get a shot at varmints.

The indications get stronger every day that Aguinaldo's capture was the result of treachery to the Fillipinos by Aguinaldo selling out to our government. He is now reported to be purchasing diamonds and other expensive jewelry, and that he will occupy a magnificent residence in the fashionable quarter of Manila. If this be true, then Funston's much heralded feat does not deserve the glory that has been accorded him.

Minister Wu Ting Fang, Chinese minister to America, will deliver an address to the heathen members of the Manufacturer's club at Charlotte on the 18th, inst. This is the same Chinaman who delivered an address in New York some time ago which created a furor among the clergy of all civilized creeds and denominations. The weazle-eyed Chinaman may be peculiar, and his ways may be dark, but Wu Ting Fang keeps our clergy, college professors, and diplomats guessing alle-samee.

The war in the Transvaal does not seem to be hastening to an end as rapidly as does our war in the Philippines. England has no Funston, which may account for it. The latest reports from the hostile camp indicate that the Boers intend to fight it out, and notwithstanding the successes of the British recently, it is becoming more and more evident that England will have to completely crush the Boers before a general surrender is probable. The little Dutchmen in South Africa have surprised the world, by their dogged determination to make Kruger's prophesy come true—"if England conquers us, the cost to her, in blood and treasure will amaze the world."

Representative Burrows threatens to play havoc with the Southern suffrage laws when Congress re-convenes, on account of the enactment of a law in Maryland which insures that State for the Democracy in the future, but when our Republican extremists examine into the Maryland election law they find that it resembles those in five or six Northern States, and they cannot uproot the laws of Maryland, and other Southern States without tearing up Massachusetts and the others. The condition the Republicans find themselves in, is keeping back a lot of editorial thunder at least, because the papers representing that party are very quiet on the subject. It may be however, that Mr. Burrows knows of the existance of masked batteries, which he will bring into play when Congress convenes.

Senator McLaurin has taken another tack to aid Charleston. He has succeeded in getting the government to consent for its exhibit which is to be made at the Pan-American at Buffalo, to be sent to Charleston, and it now remains for Charleston to provide a suitable building for this magnificent show. Notwithstanding the fact that it is very desirable to have the government's exhibit, and strenuous efforts were made by Senator Tillman and Congressman Latimer to secure it, and they failed: because McLaurin his succeeded, some newspapers are ungrateful enough to impugn his motives. They are so blinded by ignorant prejudice that they will not give due credit, if that credit is deserved of by one they oppose. Had Tillman done just what McLaurin has succeeded in doing, this element would have thrown up their hats and made the welkin ring with their joyous approval, but McLaurin did it, and that makes it different.

Commissioners to Grand Jury.

In looking up the work of the recent court we find among the papers filed by the grand jury a paper addressed to that body from the County Commissioners relating to the county printing. It reads as follows:

To the Foreman and Members of the Grand Jury:

Gentleman:—We, the Board of County Commissioners, desire to make a statement to your honorable body.

Doubtless during the past two months you have read in one of the county papers, namely, The Farmer, articles and statements which were intended to cast aspersions upon our private characters and bring our official administration in the office of County Supervisor and County Commissioners into public disrepute. You have doubtless read where we have been charged with entering into political conspiracies for the purpose of misappropriating public funds, and of extravagance in office, especially in the matter of awarding the public printing. Now it is unpleasant for us, in the discharge of our duty in the office above mentioned, endeavoring to do so faithfully and for the best interests of the people of the county, to have such gross and unfounded charges published against us, and our official management of our office thus impugned. In all of our actions as commissioners we have endeavored to work for the public welfare, and realize that we are always amenable to the people, through you as their public guardians, whenever we violate the law. It is therefore to you that we desire to make some explanations concerning the awarding of the public printing.

At the first meeting of the Board after the appointment of the new members every two years, usually held in January, several matters come up to be acted upon, among them the awarding of the county printing. At the first regular meeting in January of this year the old printing contract had expired, and the matter had to be acted upon anew. Under the law providing for the payment of public printing according to the newspaper space occupied, the printing required by law to be done by the various offices in the county, except the Sheriffs' and Probate Judges' printing, which is usually paid for by individuals, would amount to anywhere from three hundred and fifty to four hundred and fifty dollars in each year. Two years ago the then existing Board of County Commissioners, in order to obviate trouble of continually counting words and measuring space every time a notice of any kind was published by one of the county officers, made a contract with Mr. Louis Appelt, proprietor of THE MANNING TIMES, to do all of the county printing for the sum of two hundred and twenty five dollars per year. The law did not then require that the quarterly report of the Supervisor's office be published, as is now the case. THE MANNING TIMES agreed to publish everything required by law to be printed. This was done two years ago, when the county was in debt, and it was necessary to exercise the most rigid economy, the said price being fixed by the then existing County Board. This was the contract which the Board has had with Mr. Appelt for the past two years, and that was the price which has been paid, notwithstanding the contract was made at a time when there was only one newspaper in the county and its proprietor could have refused to do the work except for the figures which the law would have allowed him to demand. These were the reasons which prompted the Board to make that lumping contract two years ago.

At the first regular meeting of the new Board, held in January of this year, the same matter of awarding public printing came up. The Board had not called for bids. They are not required to do so. A bid was presented, however, by E. J. Browne, on behalf of The Farmer, a paper published at Manning, suggesting to the Board that they divide the printing between the two papers for $112.50 each, and in case the Commissioners did not adopt this suggestion, they award the printing to The Farmer for the sum of $150.00, it promising to do the work alone. Our Board has never had a proposition by anybody to do the work whereby it would only cost the county $112.50, as has been published in The Farmer, and that statement is absolutely incorrect. In regard to the first proposition by The Farmer we could not adopt it because we had no power to make THE MANNING TIMES accept the work at those figures, and we were aware that it had been doing the work for the past two years, under a special contract, for less than the Board could have been required to pay had they not made the contract with its proprietor. In regard to the second proposition, we did not accept it for several reasons.

First we felt that the Board had already been getting the work done at a low rate. Next we considered THE MANNING TIMES, an established paper, which has been doing about all of the county printing for a number of years: that it was well equipped to do the work, and that whenever the people are looking for an official advertisement of any kind they are and have been, accustomed to finding it in the columns of that paper. We also thought that the paper had been doing the printing satisfactorily, and as long as we were getting it at a reasonable price we could see no reason for making a change unless we thought we would improve the service, and this we did not believe. In regard to The Manning Farmer we had no satisfactory assurance that it was a well established paper, circulating among a large majority of the reading public, as it is a well known fact that it has been a hard matter for two newspapers to subsist here, and The Farmer itself has changed hands several times since it began publication something more than a year ago. Should the printing have been awarded to that paper and it perchance should go the way that other papers here have gone, the County Commissioners would then have been at the mercy of THE MANNING TIMES to charge every cent that the law allowed, and that paper would be excusable for so doing. We therefore regarded the severe criticisms upon us by The Farmer as being nothing uncommon, but the same cry that is usually heard by the people in every county from those newspapers which are striving for notoriety and endeavoring to magnify everything they can which might be used in creating dissatisfaction among the public, or fighting an opposing newspaper. We have had no desire to encourage local fights among newspapers, but upon what we considered good business principles we have endeavored to act for the best interest of the public, and we feel that this is what we have done.

These, gentlemen of the Grand Jury, are some of the reasons for awarding the public printing as we have. There is nothing hidden in our office, or any of our transactions, and our office is open for the public inspection. We hope that you, as members of the Grand Jury, and thereby the public guardians, will not hesitate to make a thorough investigation of all such matters pertaining to our office or our public acts as you may see proper. We have no fear in having the light of public scrutiny turned on to our official actions. We do not care to be constantly making explanations to all annonymous and other writers who feel it their privilege to be casting charges and insinuations, but we are always ready to make a public explanation of our official acts, through the proper source, when our reputation as citizens or the public good would seem to demand it.

Signed— T. C. OWENS,
County Supervisor,

W. J. TURBEVILLE,
County Commissioners.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.

The Best Remedy for Rheumatism.

QUICK RELIEF FROM PAIN.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until I was recommended by Messrs. Geo. F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by The R. B. Loryea Drug Store. Isaac M. Caught a Dreadful Cold.

Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1658 Milwaukee Avenue, Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by The R. B. Loryea Drug Store. Isaac M. Loryea, Prop.

Nerve Food

If you have neuralgia, Scott's Emulsion of Cod Liver Oil will feed the nerve that is crying for food—it is hungry—and set your whole body going again, in a way to satisfy nerve and brain from your usual food.

That is cure.

If you are nervous and irritable you may only need more fat to cushion your nerves—you are probably thin—and Scott's Emulsion of Cod Liver Oil will give you the fat, to begin with.

Cure, so far as it goes. Full cure is getting the fat, you need from usual food, and Scott's Emulsion will help you to that.

If you have not tried it, send for free sample, its agreeable taste will surprise you.
