Free Rural Route Inspector Brown came to Manning last Monday to inspect the proposed route between Manning and Paxville. The route goes up the Fulton to about a mile and a half from Paxville, cuts across to the Sumter road by Home Branch church, and comes down that road to the Manning postoffice, which is to be the distributive point. Inspector Brown regards the route an excellent one and believes it will soon be in operation. There are a number of applicants for the position of carrier. A civil service examination is required to secure the position which pays $500 a year, the carrier to furnish his horse and wagon.

Notwithstanding the great misfortune that has befallen S. I. Till, he is up and going again; he is now doing business in the small place next door to S. A. Rigby's. He has some good things that he offers in this week's issue under the heading, "Only a Word." He has been to New York and Baltimore and how he buys goods so cheap is a puzzle to his competitors, but he knows the markets and when he leaves Manning for New York and Baltimore it is all business and no pleasure. He is in a small place and has his little store jammed from floor to ceiling, and everything he offers is at least 25 per cent cheaper than any of his competitors. If you want to see a busy store for spring, then go to Till's, next door to Rigby's.

"First the blade, then the Ear, after that the full Corn in the Ear." Gentry's early market Corn on the Cob. The R. B. Loryea Drug Store.

The time for selecting a new town council is drawing near, and every voter should see to it that he procures his registration certificate, because, without such a certificate they cannot vote. As we have remarked before it is highly important that an interest should be taken in the selection of our town officials, as under the law the council will have increased powers and it behooves the taxpayers to see to it that men of good judgment are selected. We have no other interest in the town election than to get the best material to conduct the affairs of the town, and this should be the feeling of every voter. Under the general law taxes can be raised as high as ten mills and the income this would bring, together with the other sources of revenue, it leaves room for extravagance, if not carefully managed. There should be a citizens meeting at an early date to adopt a platform and nominate a ticket, and every voter can have a voice in the selection if he will take the requisite interest in the town's welfare.

Via the Suez Canal. English Breakfast and Gunpowder Teas. Connoisseurs pronounce it a superb blend. The R. B. Loryea Drug Store.

Last Satureay evening the store of W. E. Jenkinson was aglow with sun light brilliancy. Ever on the lookout to attract attention to his well equipped establishment, he was not baffled by the cost, and he made a contract with the agent, and had installed into his store the famous Kitson light, which for mellownes, and brilliancy is far superior to the electric light. The lights in the vicinity of Jenkinson's had a dull red appearance, and as one fellow expressed it when his attention was called to the splendor of Jenkinson's light said "yes, it is a fine light, but don't it play hell with the others?" Whether Jenkinson in this exhibition of enterprise has gone premeditately to do with the other merchants what the fellows say his lights are doing, we do not know, but we do know that any merchant who shows so much pride in his business as to provide the most searching light on his goods is bound to impress the trading public, and if he does not exactly play the game his lights are said to have played, he will most, unless they get a hump on themselves also. People like to see improvements and whenever they are made their attention is drawn.

"We do remember an apothecary and hereabouts he dwells," at the Sign of the Golden Mortar. Read advertisement in another column. The R. B. Loryea Drug Store.

On the evening of March 7th, which is next Friday, there will be an entertainment at the Pinewood Academy for the benefit of purchasing patent desks for the school. State Superintendant of Education J. J. McMahan has accepted an invitation to deliver an address on the occasion, and the good people of the community will provide such an evening's entertainment as will give great pleasure to all who attend. The people of the Pinewood section are taking a lively interest in the cause of education, and we hope the attendance on next Friday evening will be in keeping with the zeal exhibited by the promoters of the entertainment. The editor of THE TIMES has received most cordial invitations to be present which he highly appreciates and will attend if he is in the county at the time. Everybody that can, ought to go and hear the address of Hon. J. J. McMahan, because he will speak on a subject that is interesting to every good citizen, and especially to those people who see the necessity of more progressiveness in our schools. The entertainment at Pinewood is for a worthy cause and deserves to be will patronized.

"The grand old gardener and his 'sons' Smile at the claims of long descent."

T. W. Wood & Sons need not go back to the revolution to prove the superiority of their Garden Seed, Onion Sets, Seed Potatoes, Field Corn, Millet Seed, etc. They are absolutely the best seed on the market and the people of Clarendon know it. The Paris Exposition of 1900 awarded them the Gold Medal for general excellence. The R. B. Loryea Drug Store

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

50c. and $1.00, all druggists.

Our Schools At The Exposition.

In urging the proposition to take the school children to the exposition we have found a response from District No. 3, which comprises the schools of Miss Gieger at Panola, Miss Weatherly at Brailsford, and Miss Plowden at Felder, and the Grange Hall school in charge of Miss Tindal which is in another district, desires to join District No. 3 in an excursion to Charleston.

On last Saturday, after a talk with one of the trustess of District No. 3, we decided to undertake the scheme of getting up a "Clarendon public school day" for the exposition, so that as many of our schools as can, will have an opportunity to take advantage of the big excursion. The Wilson & Summerton railroad, Central road and Alderman's road can arrange a schedule so that all of the schools can go into Charleston at 9 o'clock a. m. and leave Charleston at 9 p. m. thus giving a whole day for sight seeing.

To carry out this scheme we would ask that the trustess of the public schools in Clarendon county who feel an interest in the children of their respective schools, meet in the court house in Manning Saturday March 15th at 12 o'clock m. for the purpose of considering the advisibility of the undertaking, also to appoint a committee to ascertain the cost, and other matters that will be necessary. We hope there will be a full attendance at this meeting, and those coming will be prepared to state the financial condition of their respective schools.

This prospective visit to the exposition is no idle thought, but it is in the interest of education. We are sincere in the belief that our children can learn more in one day's visit to the exposition than they can gather from text books in a whole session. Parents take an interest in this matter, and urge your trustees to attend the meeting on the 15th inst.

Silk Culture for South Carolina.

The Silk Culture Committee, whose exhibit in the Woman's Building at the South Carolina Interstate and West Indian Exposition is attracting so much attention, is now planning to have a Silk Culture Day in order to bring together those who are interested in this profitable industry. The date of this meeting will be announced later. In the meantime the chairman of this department desires a correspondence with the men and women of South Carolina who wish to engage in silk growing.

Address, Mrs. Blackburn Hughes, 10 Legare St., Charleston, S. C.

Practically Starving.

"After using a few bottles of Kodol Dyspepsia Cure my wife received perfect and permanent relief from a severe and chronic case of stomach trouble," says J. R. Holly, real estate, insurance and loan agent of Macomb, Ill. "Before using Kodol Dyspepsia Cure she could not eat an ordinary meal without intense suffering. She is now entirely cured. Several physicians and many remedies had failed to give relief." You don't have to diet. Eat any good food you want, but don't overload the stomach. Kodol Dyspepsia Cure will always digest it for you. The R. B. Loryea Drug Store.

Heads Should Never Ache.

Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster of Winnie, Va. She writes "Dr. King's New Life Pills wholly cured me of sick headaches I had suffered from for two years." Cure Headache, Constipation, Biliousness. 25c., at The R. B. Loryea Drug Store.

Electric Centipeds.

Least attractive among the insects which give light are the so called "electric centipeds"—black crawlers with many legs, which have been likened to serpents' skeletons in miniature. They move in a snakelike fashion, forward or backward, leaving behind them a bright track of phosphoric light. However, they are most accustomed to appear in the daytime, when the illumination they afford is not visible.

Balsams from the Northern Wood are in Pyny-Balsam, the certain cure for coughs.

Two Faults.

"You hunt too much," said Louis XV. to the archbishop of Narbonne. "How can you prohibit your curates from hunting if you pass your life in setting them such an example?"

"Sire," said Dillon, "for my curates the chase is a fault; for myself it is the fault of my ancestors."

Buena Vista Land Plaster
FOR ALL CROPS.

Mr. B. K. Buchanan of Washington County, Virginia, so generally known, says: "I have used the Buena Vista Plaster for many years. I rank it for all crops next to barnyard manure."

Mr. Joseph W. Davis of Washington County, Virginia, one of our best farmers, says: "Using your plaster (the Buena Vista) last year, I thought a part of my meadow too good to be benefited by it, so applied it only to what was inferior. To my surprise the inferior part yielded more than the other. I am satisfied it would have paid me well to have put it on all."
