Winners of the $30.00 In Gold Given Away February 18 For Largest Number of Months

Several Missed Winning by Small Margin—Winners of Prizes Have Only a Few More Months Than Several Others—Complete Conundrum Who Will Win The Final Prizes.

HUNDREDS OF PEOPLE VISITED CONTEST OFFICE YESTERDAY

DISTRICT NO. 1.
Miss Mattie Gilliard ... $10
Mrs. Clarence Osborne ... $5

DISTRICT NO. 2.
Mrs. W. C. Black ... $10
Mrs S. H. McAdams ... $5

Four of our ladies profited as the result of the race for special prizes the last two weeks. The race was very close an daroused much interest. So great was the rivalry that of the candidates ran practically neck and neck. A number in both districts just missed reaching the coveted goal and the result was in doubt up to the last minute.

Everyone has an equal chance in this contest. It is a fair field and no favors. It will depend entirely upon how much interest you show in your own campaign whether you win or not. If you are not interested and go at it in a half-hearted way, how can you expect your friends and neighbors to be interested. If you are already hustling for subscriptions and coupons, if you continue to hustle right up to the last moment, you are very likely to be pleasantly surprised at the result of your labors.

WM. J. BURNS WILL INVESIGATE CASE

Has Been Employed by Friends of Frank to Make Thorough Study of Case

Atlanta, Feb. 20.—William J. Burns, the greatest detective in the world, has been employed by friends of Leo M. Frank to come to Atlanta next week and personally take up the Mary Phagan murder case, in the hope that Burns may discover some new evidence that will be of help to the condemned man.

After a conference with prominent Atlanta Jews at the Georgian Terrace late yesterday, Detective Burns authorized the statement that he had been employed to investigate the Phagan case, and that he would return to Atlanta Monday or Tuesday of next week, accompanied by Dan Lehon of New Orleans, head of the southern branch of the Burns people.

Burns would not state by whom he had been employed, but declared positively that it was not by the attorneys for Frank or through them, and that he had been employed to conduct a thoroughly impartial investigation, and that he had simply given his word to the people who employed him that he would endeavor to get to the bottom of the case.

The bringing of a detective like Burns by private employment into a murder case in which trial jury and supreme court have declared an accused prisoner guilty, is a thing that has not occurred very often in police history.

Friends of Frank see in it a further proof of the sincere belief of Frank's intimates in declaring him still to be innocent, while the Atlanta police department and the prosecuting officials see in it simply the act of a drowning man grasping at any last straw.

The employment of Burns has naturally created a profound sensation.

Railroads of the Pittsburgh district report very encouraging returns from the war against tippling recently recently started among its employees. The Pittsburg & Lake Erie has discharged over forty men for breaking the anti-drinking rule and the Buffalo & Pittsburg road has laid off almost half as many.

According to bridge engineers who have witnessed the preliminary work of the structure, the new St. Paul bridge over the Des Moines river near Madrid, Ia., will be the largest and highest on the American continent. The floor of the bridge will be rock ballasted, the same as the roadbed of the great trunk lines.

Former Mayor James D. Phelan of San Francisco has thrown his hat into the senatorial ring. He wants the democrats of his state to consider his election to the upper house of congress and promises to work for several reforms, if he is successful.

The Most Profitable

... Fertilizer To Be Used Is ...

for red lands, 8-3-3—9-3-3—10-3-3; for gray lands, 8-4-4—10-4-4.

You get more for your money in these analyses than in the lower grades.

The freight incoming and outgoing, labor account and general expenses, is just as much on a ton of 10-2-2 as it is on a ton of 10-4-4. The difference in the cost of the goods is the difference in the cost of the extra material in the 10-4-4 and then you get Fish in these high grade goods and fish lasts longer in the soil than any other ammoniate going into Fertilizer.

The longer your fertilizer lasts the longer your crops will keep growing.

The longer you keep your crop green and growing the better crops you will make.

The difference in cost per acre is very little, say One Dollar an Acre, the difference in the yield of cotton is much more than that.

The high grade goods are the economical goods to buy. The Anderson Phosphate & Oil Company goods are the goods to buy. They use the very best of material and use plenty of it.

Buy goods made by

THE ANDERSON PHOSPHATE & OIL CO.

The Price is the same and the goods are better.

Coming Every Day

New Vehicles of every description keep coming in every day.

Our stock of Harness, Whips and Robes is the finest ever. We also have some Extra Good Mules and Horses on hand, come and see them.

J. S. FOWLER

ANDERSON, : SOUTH CAROLINA

Glasses Worn too Long

are an injury instead of a benefit to the sight. As a rule two years is about the limit of usefulness. If you have had yours longer better come here and be fitted with a new pair. Your eyes are two years older and two years weaker. To ignore this fact is a crime against your eyes. Don't commit it. Prices $3.60 to $5.00 and upward. Repairs on frames and parts 10 cents ad upward.
