S. J. PEARSON,

Horses Do Get Sick.

When a horses and mules are poor it is not always and iudication that they do not get enough to eat. Many animals, just like human beings, have indigestion or the system is all run down and a tonic is needed. It is not the amount of food eaten that makes muscle and fat. More depends upon the proper digestion or assimilation of the food than is commonly supposed. Nothing has yet been discovered that will build up a horse or mule better than Ashcraft's Condition Powders, the only remedy in its class sold under a guarantee. Ask Mr. Smith Newton, Bennettsville, for it—the kiud put up in doses. And McColl Drug Co., McColl, S. C.
