THERE was never a better time to buy goods than now. The longer you put off buying the more you will pay. Take fair warning; all goods are going higher. We can't prevent it; we are powerless, and the only thing we can do is to tell you what we honestly know—they are going higher—and tell you to protect yourself now. Fill all your wants even for months ahead. It means money saved.

Today's price will be very cheap compared to the prices six months hence. It is remarkable how rapidly all goods are advancing, and how hard they are to obtain. We have all heard about goods being scare but now the reality is coming home to us. Whether you buy from us or not, we advise you to buy all the goods you will need for the next six months or even twelve months at once.
