We are led to wonder sometimes how some of our subscribers expect us to get the paper published—or even to get food and clothing, for that matter— they appear to be absolutely deaf to any form of appeal to pay the debt they justly owe us. We are charitable enough to attribute much of this seeming indifference to thoughtlessness, but it pinches us none the less, whatever the cause.

August Gamble, a negro of the Gourdin section, was arrested by Rural Policeman W E Allen and lodged in jail here last week charged with incendiarism. It appears that August had become a worthless burden on the hands of his wife, and when she remonstrated with him in an attempt to make him mend his ways he became violent and vicious, whereupon his wife chased him from under the shelter of her domicile. This seems to have further infuriated August and to get square with his spouse he set fire to her house.

# SCHOOL INFORMATION.

### Help Williamsburg's Schools.

Editor County Record:—

As yet, so few schools have taken advantage of the great opportunity that they have in the offer of a "School Information" column free. We should prove our appreciation to our valuable paper and its editor for such a donation by sending in monthly reports from each school. Let the people know what you are doing. In fact, they doubt anything being done when you are not willing to tell others about it.

Teachers, have one of your advanced pupils to write your school notes at least once a month, stating the progress of your work, giving a description of all improvements. If it is only a flower planted on the campus, tell us about it. This will lead others to follow your example. Had you thought of your campus or school-room deserving a Christmas remembrance? A nice rose bush for the campus, a few bulbs or some other plant or plants will be gratefully received by your campus. A pretty picture or a nice book or something of the kind will, in like manner, praise the giver for many a Christmas to come. This can be done by each pupil giving a few pennies.

The most effective improvements, especially campus and class-room decoration, are being done by the pupils under the wise leadership of the teacher. What a great and glorious opportunity the teacher has. How can you afford to ignore this? I shall from time to time write notes and send clippings to the "School Information" column so that you may see what other States and counties of our State are doing. There is no question about it, we must bestir ourselves more in the future than we have in the past. Nearly every county in the State is making vigor- our efforts to be first in educational affairs. What is Williamsburg's plan?

The following are the officers of the School Improvement association of Williamsburg county:

Miss Florence H Stubbs, Organizer, Rome; Miss Alma Davis, President, Kingstree; Miss Mamie McLees, Vice-President, Cades; Miss Cleva Rhame, Recording Secretary, Vox; Miss Lona Reed, Corresponding Secretary, Rome; Miss Mattie E Harper, Treasurer, Greelyville.

Great pains were taken in electing the officers. We feel that, from the president down, we have made a most wise selection. There can be nothing but success if they receive the proper response from our people.

In order that the work of improvements might be stimulated we have appointed a soliciting committee:

Mr T W Boyle, Greelyville; Mr W E Nesmith, Cades; Mr E R Rowell, Taft; Mr B B Chandler, Rome; Mr W F Tolley, Kingstree.

For the conveniences of this committee and those who will help, we have made out a suggestive list of articles that can be used to a great advantage in and around the school. We have included many very small articles, such as nails, tacks, etc. Our idea is to make little cases and include a number of these small and necessary articies, which will constitute "an emergency set", or some other suitable name may be used. All donations, whether cash or goods, will be used to the best of advantage for this improvement work. Don't wait on the committee, but notify the treasurer, Miss Harper, what you can and will give.

FLORENCE STUBBS.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
