### Old Ben Franklin Said

"A penny saved is a penny earned." Ben must have had the saving possibilities of such a store as this in mind when he spoke.

We carry the very best of everything in the grocery and fresh meat lines and only try to make a fair margin of profit.

On all ten cent package goods, we save you two cents. And so on, all through the line, we save you from ten per cent and up, just for the cash instead of credit. Isn't it worth ten per cent to you to pay cash? Of course it is!

For today we have an excellent assortment of green vegetables, fancy and staple groceries, and fresh meats. Phone us your wants.

### The Spot Cash Grocery

Phone 151. J. P. NOBLITT, Manager. 121 N. Main.

### FOR RENT

The store building on N. Main Street, recently vacated by the Anderson Intelligencer Job Department. This store room can be rented very cheaply for the next few months. If interested, phone 321 AT ONCE

### A REAL KIDNEY MEDICINE— ALWAYS RELIABLE

I feel that I ought to tell what I know about Swamp-Root and what it has done for me. I was down and out and had to quit work in 1906; I only weight 135 pounds. The doctor said I had Kidney trouble in the worst form, and my liver was out of order; and I had Rheumatism so badly I could not get around. One day I picked up an Almanac and saw your advertisement, and it fit my case exactly. I got a one-dollar bottle and took it and when it was gone I felt so much better that I bought five more bottles of Dr. Kilmer's Swamp-Root and I was a well man; my weight increased until I weigh 210 pounds. I am 65 years old and I am feeling fine and work every day. I have three men who knew me when I had to quit work in the mill in 1906, and who will make affidavit to my present health. If you want to use the above statements as my testimonials, you have my consent.

Yours very truly,  
W. T. GRAVES,  
Anderson, Indiana.

Personally appeared before me, this 4th day of February, 1914, W. T. Graves, who subscribed the above statement and made oath that the same is true in substance and in fact.

ROBERT E. BRAGDON,  
Notary Public.

My commission expires Jan. 8, 1917.

Letter to  
Dr. Kilmer & Co.,  
Binghamton, N. Y.

### Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Anderson Daily Intelligencer. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

### Electric Sewing Machine Controlled By Brake

One of the latest developments in electric sewing machines is one in which the motor is built into the machine and its speed is controlled entirely by a brake working on a drum mounted on the motor shaft. This brake is operated by the pedal. So long as there is no pressure on the pedal the brake prevents the motor from working, even with the current turned on. A slight pressure starts the machine slowly, and when the pedal is pushed down as far as it will go, the machine is run at full speed.—From the June Popular Mechanics magazine.

### Grandma Never Let Her Hair Get Gray

Kept Her Locks Dark, Thick, Glossy, With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.

### This May Bride Traveled 5,000 Miles to Wed.

The wedding day had been set a year ago, and the groom had promised to return all the way from China, where he was at work on the construction of a railroad. She had looked forward to that day with the same yearning that is in the heart of every woman. To her, as to most brides, it was to be the biggest day of her life.

Then came a cable that he could not possibly get closer than Honolulu on the day set for the wedding. But that didn't daunt an American girl, and she was not going to have her dream shattered.

"We will meet him there," she said to her mother, and before that staid and untraveled old lady could be made to understand, the bridal gown had been packed in a trunk and the tickets purchased.

But the steamer which neared Honolulu, on the day of days, was late. The dusk had come down over the harbor when the vessel slowly felt her way in.

"Will he be here to meet us?" the mother inquired over and over again anxiously.

And the daughter caught this doubt. She was outwardly calm, but a storm broke within. Her nervousness developed into desperation. Suddenly she made up her mind. She put on the gown, and then came forth on the deck in the soft Hawaiian evening

to watch the sights as the ship moved along into her pier. Passengers crowded about wonderingly, but she showed no sign. She just stood there looking into the distance at the pier. No prim Puritanic frock did the passengers see on this dauntless American girl who had gone 5,000 miles for her wedding. It bespoke the bride's own daring and kept correctly to the 1915 requirements of such costumes.

For her pretty neck and arms she followed a departure from past high-necked, long-sleeved modes in a décolletage, modestly bridged, and sleeves just below the elbow.

The daring and individuality of the bride showed in this rich panne satin and brilliant studding of rhinestones over the skirt panel and bodice front. The side panels are of lisse face.

A Juliette cap of pearls, set with orange buds and hung with veil of lisse lace, was her original idea.

"He's there, mother," cried the bride with her eyes on the crowd at the pier. And at that moment he saw her, a vision in white. The passengers made way for her, and she was the first off the vessel. She fell into his arms, bridal gown and all. There were tears in her eyes, and she was almost to the breaking point under the strain. He knew why.

"I guess," said he, the first thing we need is a parson."

### SWISS SEND NOTE ON LUSITANIA

Berne, May 21.—The Swiss federal authorities have decided to make representations to Germany on the sinking of the liner Lusitania by a German submarine, as a result of which three Swiss citizens lost their lives.

The government is awaiting knowledge of the German reply to the United States note on the subject, so as to better be able to choose a wise course of procedure.

S. C. HAYNIE and R. B. TUCKER, Props.

457 W. Market

Phone 887.

Cotton should be side dressed just as soon after it is thinned out and clear of grass as can be done, so that the plant will get the full benefit of all this extra fertilization and of all the early rains. It does a great deal more good when applied early.

Fertilizer was used lightly this spring, and side dressing will pay handsomely this year if put on early. We are making a 6 5 2 and a 4 7 2 especially for side dressing. You will find it profitable to use it. It should be applied last of May if possible, if not then early in June.

If cotton is cheap the more you make to the acre the better you are off. If cotton is high the more you make to the acre the better you are off. For every dollar you pay out for side dressing you get back from three to five dollars. But apply it early. These goods are ammoniated with soda, blood tankage and fish.

Mr. J. S. Fowler says that one advantage you get in side dressing your cotton is that if you sow your cotton lands in oats next fall, you will have enough fertilizer left in the soil to give the oats a good "send off," and he says that will be all in the world your oats will need to start them off in fine shape. So you see you can fertilize two crops with one application—killing two birds with one stone.
