WEDDING BELLS WILL RING

Investigation Made by Prospective Bride Evidently in No Way Discouraged Her.

A girl in town had a proposal of marriage one Sunday night, and asked a week to consider it before filing her answer, testifies T. A. Sawhill. She then organized herself into an investigating committee and commenced taking testimony from the married ladies of her acquaintance. The first one she visited used to be a belle and the most admired girl in the town before she was married six years before.

The cross-examination brought out the fact that she had three children, did all her own work, including her washing and ironing, and hadn't been down town for four weeks, and that her husband had given her but two dollars since she was married, and that he borrowed and forgot to pay back ten dollars which her brother once gave her for a Christmas present. He bought a new overcoat with the money, while she wore the same plush coat that she wore when he was courting her.

Another woman whom she visited quit teaching school three years before to marry "the handsomest and best-dressed man in town," and she is now supporting him.

A third didn't dare say her soul was her own when her husband was around, though she used to write some lovely essays when she was at school on the "emancipation of women," and the fourth woman she visited was divorced.

After visiting them and summing up the evidence, she went home and wrote to the young man. She will be married to him next month.—Kansas City Journal.

KEEP UP ANCIENT INDUSTRY

Tanners of Hebron, in Palestine, Still Turn Out Water Bottles Made of Goatskins.

Hebron, one of the oldest cities in Palestine, has always been famous for its oriental water bottles, made of goatskins. Here are to be found large tanneries, where these receptacles are turned out by thousands. Lying on the ground in rows may be seen hundreds of goatskins awaiting purchasers. Each skin is inflated, either with water or with air, so that the buyer may know it is water-tight. The majority of the skins used come from Arabia, while a large number are also received from the Lebanon. They are brought to Hebron by the camel caravans, and are bought by the tanners and turned into bottles. They pass through many processes, and a tanner will spend a week on a single skin before it is rendered water-tight and serviceable. From Hebron these odd "bottles" are sent to all parts of the East, thousands going down into Egypt and the Sudan every year. They are also used as rafts. A number of inflated skins are attached to a light wooden frame, which then not only readily floats, but is capable of carrying quite a heavy load. Such rafts are to be seen on the rivers of Syria and also on the Euphrates and Tigris.

A High Calling.
Tommy was eighteen, and only the recording angel knew what was the age of Aunt Katy, but the little old darky and the college freshman were each getting their first taste of New York life that winter. One effect on Tommy was to make him want a silk hat.

"Now, what do you think of Tommy's wanting a silk hat, Aunt Katy?" exclaimed Tommy's mother, who was having a hard time adjusting herself to having for a son a young man instead of just a boy.
"What he want wid a silk hat? He ain't no preacher."
"But, Aunt Katy, other people besides preachers wear silk hats. Haven't you noticed the men in silk hats on the streets? Every other man you meet has one on on Sunday."

"Yessum, an' I jes' been tryin' to figger out where all them preachers preached."

How Much Accidents Cost.
The actual number of workmen killed and injured annually in the United States is not known definitely. The best authorities, however, have estimated fatalities to the number of 40,000 to 45,000 annually, and non-fatal accidents producing an annual loss of 200,000,000 working days. Estimating the value to society of each man killed at \$5,000, and \$3 as an average daily wage of the non-fatally injured, the economic annual loss sustained by the nation amounts to approximately \$600,000,000. This is the amount which, in some way or other, must be charged to the production cost in the various industries where the accidents occurred.

Household Hints.
Take a piece of common white chalk, scrape it to a powder, add as much water as will produce a paste and apply the paste to the surface of stained ivory. If stains are very bad two, three or even more applications may be required.
If you wish to preserve articles and have them look as good as new wash them with soft soap, rubbing with water and wipe the surface with a dry cloth.
To keep linoleum from becoming soiled with wax or oil, rub it with a mixture of equal parts of turpentine and kerosene.

SIX AND TWENTY

Williamston, May 25.—Farm work is progressing nicely in this section, many farmers being done thinning cotton.

We hear some complaint about cut-worms cutting down cotton and corn. The damage so far seems to be slight. The remains of Mr. W. G. Burgess, who died Sunday afternoon were laid to rest in the Twenty cemetery on the day following his death. Four sons are left to cherish his memory, his wife, having preceded him to the grave only nine days.

Several people from this section took in the singing convention at Pelzer last Saturday and Sunday. They all report a good time and good singing.

There will be a song service at this place next Sunday afternoon beginning at 2 o'clock. Messrs. Guyton, Martin, Lewis, and the Profs. Higgins of Liberty have been invited.
Mr. A. Z. Bryson announces an all day singing at Friendship on the second Sunday in June. The church wishes to make it a home coming event.

All leaders have a special invitation.

Kidney Trouble Often Causes Nervousness and Heart Trouble

Two years ago I was badly run down, not able to do any work, suffered from nervousness, heart trouble, kidneys and bladder in bad shape; no appetite, unable to do any work; and since using six bottles of Dr. Kilmer's Swamp-Root, I feel fine; am in excellent health and can do most any kind of light work. Since using the Swamp-Root I have been relieved of all the above troubles. I cheerfully give the above testimony and hope others may be benefited.
