THRIFT

If thrift does not come natural to you, cultivate it. Realize the fact that every man who has a dollar put aside is a capitalist.

We earnestly urge you to open an account with this bank for any sum. Either a Checking or a Savings account, in addition to being convenient encourages you not to use your money except in a wise way.

The prosperity you enjoy today does not guarantee you prosperity tomorrow. Changes in the business and industrial world may later on deprive you of your present measure of prosperity.

We Pay Interest On Deposits.

FAREWELL SERVICE TO DR. AND MRS. VINES HELD LAST EVENING

MANY EXPRESSIONS OF DEEPEST REGRET WERE HEARD

HANDSOME CHEST SILVER PRESENTED

Containing a Total of Eighty-Four Elegant Pieces of Several Varieties.

The service at the First Baptist church last evening might be called a triple service, song and praise service, ordination service and a farewell service to Dr. and Mrs. Vines, who are soon to leave for Roanoke, Va., where Dr. Vines will enter upon his new field of work.

Just before the close of the services Dr. A. L. Smethers took the chair and said that before the congregation was dismissed a few farewell words would be said to Dr. and Mrs. Vines.

Accordingly, Mrs. William Laughlin arose and read the following paper in behalf of the members of the congregation:

"Dear Dr. and Mrs. Vines:

The members of your church have conferred upon me a gracious favor, and that is I present to you this chest of silver as a token of the love and esteem in which you both are held by us. This silver bears the hall mark of its intrinsic value but that is as nothing in comparison to the good wishes it bears with it for your happiness and success in the new field of work to which you go. You have done a great work here, and you have left the imprint of your personality, your courage and your zeal upon this community. We hope you will always think of Anderson as your home, where friends will always welcome you, and we want that when you both look at this token of our affection, that it shall bring to your minds days and scenes and friends in Anderson, and that you shall not forget us."

Immediately afterwards Mrs. J. P. Duckett arose and spoke a few farewell words in behalf of the congregation which were well chosen and in a measure expressed the high esteem in which Dr. and Mrs. Vines are held.

Dr. and Mrs. Vines then arose and expressed their sincere appreciation for the beautiful token which had been presented to them, saying that it was not necessary for them to have something to remind them of Anderson and the members of the First Baptist church for both would always be thought of with the sweetest and fondest recollections.

The chest of silver which was presented to Dr. and Mrs. Vines is one of the most beautiful ever shown in this city. The chest is of solid mahogany and a sterling silver plate on top bears this engraved inscription:

"1908 VINES Anderson, S. C."

The chest contains seven dozen pieces of sterling silver or a total of eighty-four pieces on which is engraved the letter "V." These eighty-four pieces are made up of twelve orange spoons, six ice tea spoons, six table spoons, twelve knives and forks and twelve salad forks. Each piece is a little masterpiece of art and is of the Mary Chilton pattern.

After the services came to a close last night, the entire congregation marched to the front of the church to shake hands with the pastor and his wife who have for the past seven years and three months so ably filled their place. It was a sad, yet sweet occasion for all those present.

Dr. and Mrs. Vines will leave within a few days for their new home and it is impossible to express the deep regret with which the members of the congregation of the First Baptist church the people of the city and county at large see them go.

GRADUATING GIRLS WEAR COTTON GOWNS

Lander Graduates Set Good Example in This Matter.

Twenty-six girls received their diplomas at Lander college last Monday night and one remarkable feature about the exercises was the fact that all of them were gowned in dresses made of white cotton cloth. Some time ago when there was so much talk about wearing cotton goods in preference to those made of other materials, it was agreed by these girls that they would wear cotton graduating dresses.

Upon this agreement it was further agreed that the cloth from which these dresses were to be made should be bought from the mills in Greenwood. However, it was discovered that this was impracticable and the cloth was bought from mills in Anderson. All of this follows from the "wear cotton" movement and that of using home products as much as possible.

GOING AFTER A NEW SCHOOL BUILDING

TOWNVILLE PEOPLE AROUSED BY PLAIN TALK FROM SWEARINGEN

NO MORE AID

Will be Allowed School Until Conditions Have Been Remedied.

The large crowd of patrons and children which greeted State Superintendent of Education J. E. Swearingen at the Townville school house Tuesday morning at eleven o'clock heard a most enjoyable and instructive address. Mr. Swearingen spoke plainly and earnestly of school conditions at Townville and made it clear that if Townville expected to make progress that such progress would entail sacrifice. In fact, in conversation with Prof. Witt, after the meeting was over, Mr. Swearingen said that it was contrary to the law for one teacher to handle more than fifty pupils, as is the case now in the primary department. He added further that Townville would not get any high school aid next year if the situation were not remedied. Mr. Swearingen spoke earnestly of the conditions at Townville and made valuable suggestions for remedying defects. The patrons are aroused and efforts will be made immediately to secure a new building and other necessary equipment.

Mr. E. C. McCants of the Anderson city schools and Mr. Fred M. Burnett of Anderson college delivered interesting speeches, in addition to those made by Mr. Swearingen and County Superintendent of Education J. B. Felton.

YOU are cordially invited to attend the Tea party at the Anderson Cash Grocery tomorrow afternoon between the hours of 3:00 and 6. ALL of the ladies are expected—this means YOU, too. There will be ten and crackers and cakes served; and your presence is earnestly desired.

Says Women Are Wonderful Executives.

David Grayson, writing "Hemfield" in the May American Magazine, says: "I think sometimes that women are far better natural executives and organizers than men. To keep a great household running smoothly, provisioned, cleaned, made sweet and cheerful always, and to do it incidentally as it were, with a hundred other activities filling her thoughts, is an accomplishment not sufficiently appreciated in this world. The true women of the race have this capacity highly developed. They have a real genius for orderliness, which is the sanity, if not the religion, of everyday life."

ILLINOIS WOMAN MAYOR

Mrs. A. D. Canfield, mayor of Warren, Ill., is the first woman to be elected to that position in any Illinois city. She is a widow, seventy-four years old and conducts a millinery shop. She has promised to put an end to pool rooms, gambling and the liquor traffic in Warren.

MEETING IN INTEREST THE GRAIN ELEVATOR

WILL BE HELD NEXT SATURDAY AT THE CHAMBER OF COMMERCE

PLANT SOON READY

Exterior Work on Building is Completed—Completed in About 10 Days.

A meeting of the board of directors of the Carolina Grain Elevator company has been called for Saturday afternoon, May 29, at the quarters of the chamber of commerce, for the purpose of discussing plans for handling the oncoming grain crop.

The meeting of the directors will be convened at 3:30 o'clock promptly, by President J. E. Clinkscales of the grain elevator company.

Following the meeting of the board of directors an open meeting of all persons interested in the grain elevator proposition will be held. Farmers particularly are invited to attend this meeting.

The object of this open meeting is to discuss plans for handling the grain crop. President Clinkscales yesterday authorized the statement that financial arrangements had been made for purchasing all grain that will be placed on the local market. It is guaranteed that a cash market will be offered for all grain produced in the county and brought to the elevator, standard prices being given.

The grain elevator plant will be ready for business in about 10 days. All exterior work on the building is completed, and the machinery is about placed on the interior.

Are There Private Armies?

It is illegal to have an army of your own, but the law winks at private armies in one or two cases.

The duke of Atholl had—for they have now gone to the great war—a private army of 200 men, and has often provided guards of honor for King George from their ranks. In fact, Queen Victoria once reviewed this private army. The duke of Atholl's private army is for its size the finest body of soldiers in the world, all over six feet in height, sturdy Scotsmen picked from the fittest of the fit.

The duke of Fife also kept a private army which numbered a hundred men, who were armed with huge pikes exactly as the soldiers were armed centuries ago.

The Stuart Archers and the Farquharson Clansmen are two other private armies of which Scotland can boast. The marquises of Donegal, too, have for hundreds of years kept a private army.—Pearson's.

Severe Training.

"What I admire about Bilthers is his quiet self-possession."

"He acquired that in the last few years."

"In what way?"

"By sitting in the audience while his wife made speeches on woman suffrage."

Providing Adequate Light in Modern Buildings.

Heavy glass partitions which are substantial, and fireproof are being introduced as a means of distributing sunlight through large business buildings without lessening the privacy of the various offices. The walls are soundproof and nontransparent, which gives them essentially the advantages of the ordinary wall but not the disadvantages. They are built of clear glass units two inches thick and either six or eight inches square, which are reduced to transparency by impressed designs.—From the June Popular Mechanics magazine.

Less Meat If Back And Kidney Hurt

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts can not injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney diseases.
