**WILL BE NO SURPLUS WHEAT IN THIS COUNTRY**

NO USE TO WORRY ABOUT FINDING OUTSIDE MARKET ANYWHERE

**CAN ABSORB CROP**

Chamber of Commerce Disagrees With Opinion of Commissioner Watson.

A movement to secure an all water rate from Columbia to Baltimore to handle the surplus wheat crop in South Carolina was discussed Monday in the offices of the state department of agriculture in Columbia. Those attending the conference were of the opinion that as little wheat as possible should be shipped from the state. It was also brought out that, if there is a surplus, then some means must be speedily found to dispose of it outside the state on a cash basis.

At this meeting Mr. Watson stated that the people must be able to meet reshipping competition and western shipments in Baltimore, the place which has been decided to be the best market for the grain, especially for export.

The opinion that Baltimore is the best market is not conceded by the Anderson Chamber of Commerce and when asked about the matter yesterday it was stated that the best grain markets are to the south and that markets will therefore be found in Georgia, Alabama, Mississippi, Louisiana and Florida, since if South Carolina were to send her surplus grain to Baltimore it would be in direct competition with the great railroads from the west with the rates in many instances in favor of the west, so far as short distances are concerned. However if the wheat should be marketed to the Southeastern states, where distance is in favor of South Carolina, rates would not be so high. Florida alone, it was stated can use the surplus grain in South Carolina this year and in many years to come.

However it is not believed that there will be any surplus grain in South Carolina, since the state has always been a heavy importer of grain and even with the estimated 1915 crop of wheat at 2,500,000 bushels, which is the estimate of the commissioner of agriculture, it is believed this will readily be absorbed by the flour mills in South Carolina, of which there are now some thirty, seventeen new ones having been recently constructed. The result is, as a matter of fact, there will be no surplus grain crop in South Carolina this year nor in many years to come and no one need worry about an outside grain market.

This may well be illustrated by the fact that Anderson county has a larger acreage planted in grain than any other county in the State, and notwithstanding this fact, Anderson county will be able to absorb its home crop which is estimated at something over 1,000,000 bushels.

**CORDIAL INVITATION TO SEE BREADMAKING**

MISS GARLINGTON URGES WOMEN TO ATTEND ON FRIDAY

**MONEY SUBSCRIBED**

City Council Gives \$25.00 to Help Defray Expenses—Others Help Also.

Friday is to be woman's day at the three days school which is to be conducted by Miss Janie Garlington, supervisor canning clubs in Anderson county. On that day Miss Garlington, domestic science teacher at Winthrop College will give lessons on breadmaking in the kitchen at Anderson college and every woman in Anderson county has a cordial welcome to attend.

The schedule for that day of school is as follows:

9:30—Demonstration fireless cooking.

10:30—Demonstration in breadmaking.

12:30—Dinner.

2:00—Home nursing.

Any woman who wishes to see the canning would do best to attend on Thursday as on that day the canning will be done by the teachers.

Miss Garlington has made a canvass of the merchants and business men of the city of Anderson for the purpose of raising funds or getting groceries subscribed to help defray the expenses of the meeting and met with fairly good success. City council was very liberal and gave the sum of \$25.

Money subscriptions to date are as follows:

City council.....\$25.00

Golsberg Bros..... 50

Rufus Fant..... 1.00

B. O. Evans..... 1.00

M. M. Mattison..... 1.00

Furman Smith..... 1.00

Ligon and Ledbetter..... 1.00

Kress's..... 1.00

Mr. Oulla..... 1.00

Making total.....\$32.50

Those who subscribed groceries and other things are: Dr. George Evans, Minor Ten Cent store, W. A. Powers and Peoples' Grocery company.

**COMMENCEMENT AT FURMAN UNIVERSITY**

Declaration Contest Held—Rev. B. H. DeMent Preaches Baccalaureate Sermon.

Greenville, June 1.—The commencement exercises at Furman university last night at 8:30 o'clock with the annual contests for the Wharton and the MacMillan medals.

The Wharton medal is awarded annually to the best declaimer in the Freshman class. The contestants were J. D. Peag, W. B. Simpson, A. C. Hoiler, T. T. Smith.

The MacMillan medal is open to declaimers from the three upper classes, was contested for by W. L. Bates, Senior; W. D. Nixon, Junior; W. E. Bowen and C. F. Pittman both of the Sophomore class.

The winners will be announced and the medal awarded in each contest on Wednesday night.

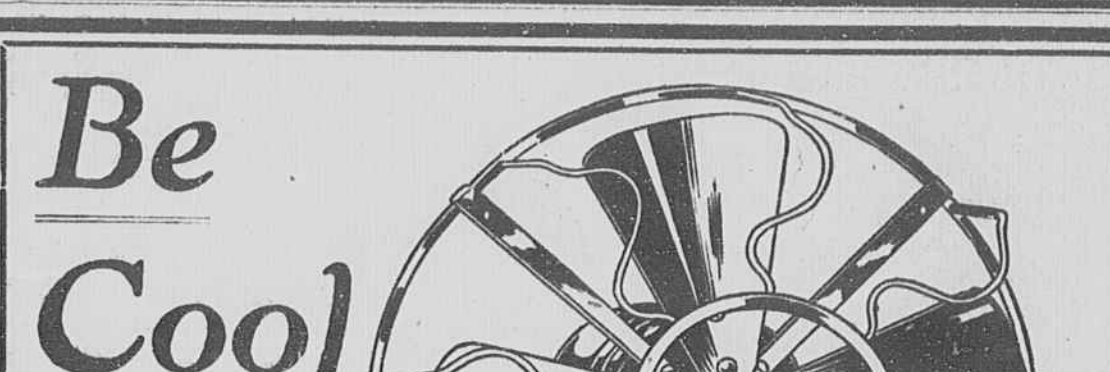

At 10:30 this morning the various classes and a number of alumni in connection with the faculty assembled for the academic procession to the First Baptist church to hear the baccalaureate sermon delivered before the college by Rev. Byron H. DeMent, D. D., of Greenwood.

**Arrowrock Dam Almost Ready for Use.**

Now that the bulk of the concrete work on the Arrowrock dam in Idaho has been done and the structure needs only the addition of a few minor details to make it ready for service, it is possible to get some adequate appreciation of the magnitude of this one of the largest dams in the world. The dam, which is shown in some interesting views in the June Popular Mechanics Magazine, is built of reinforced concrete and is nearly 350 ft. high at the highest point. The length of the crest is 1,060 ft.; the thickness at base, 240 ft., and the thickness at the top, 16 ft. Something like 600,000 cu. yd. of concrete went into the structure and 250,000 cu. yd. of excavation was necessary to get the foundations down to the solid granite, 6 ft. below the bed of the river. It is built in the form of a curve with the convex side upstream so that the structure does not depend on its own weight alone for stability, but acts as a horizontal arch in resisting the tremendous head of water, transmitting the pressure to abutments that consist of the granite walls of the canon itself. The gates and accessories alone weigh 1,000 tons and the spillway, which is capable of discharging 40,000 cu. ft. of water a second, required the excavation of 200,000 cu. yd. of material.

**Asian Coast Blockaded.**

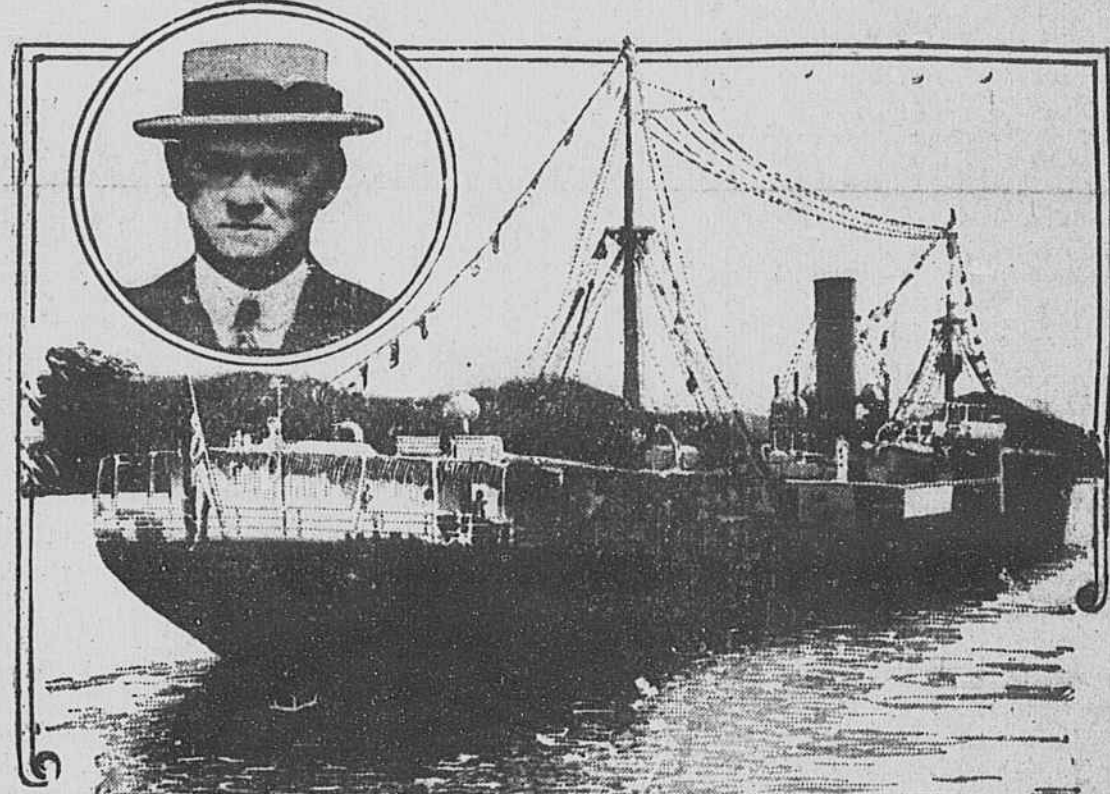

Athens, June 1.—The British government has established a blockade over the coast of Asia Minor from the Dardanelles to the Straits of Samos in what was officially announced today by the British Legation. The blockade will go into effect on Wednesday.

Why be without an Electric Fan any longer? It is a mistake to swelter when the twitch of a switch will fetch cool, refreshing breezes in an instant. An Electric Fan is an inexpensive joy these hot days. You can use it in any room in the house. Why let children fret and older folk suffer when for less than a cent an hour an Electric Fan will make any day tolerable and insure restful, unbroken sleep through the long, hot nights. You really should ORDER your Electric Fan TODAY.

**First American Ship to Pass Panama Canal Torpedoed off Irish Coast.**

Copyright Brown Bros. Captain J. S. Green. The Nebraskan.

The Nebraskan, the first ship to go through the Panama canal was the victim of a torpedo or net off the coast of Ireland, Tuesday, May 18. The photograph here shown of the vessel was taken as she went through the canal in gala array. She was struck while about forty miles southwest of Fastnet, Ireland, and, down at the bow, she started back to Queenstown.

When the vessel left San Francisco in August for her trip through the Panama canal there was much ceremony. The mayor christened her for the trip.

She is an American built, American owned, and American manned vessel. She was launched at Camden, N. J., in 1902, for the American-Hawaiian Line. She is of 4,409 tons gross, 160 feet long, and 46 feet beam.

**GRAIN RATE WAR NOT A COMPLETE VICTORY**

However, Mr. Richards Well Pleased With Success of Meeting.

Mr. Edward H. Richards, manager of the Carolina Grain and elevator company, when interviewed yesterday afternoon by an Intelligencer reporter, said that the real status of the grain rate proposition as decided by the petition of the Anderson Chamber of Commerce, was not an absolute acquiescence in the request contained in the petition. It was a compromise which leaned in favor of the petitioners since a 20 per cent charge is added to the through rate on the stoppage in transit privileges.

them, a full 100 per cent allowance is secured. Mr. Richards states, however, that he is satisfied with the compromise and especially so since the railroads have necessarily had to act without all the information in the premises which good equity would have warranted.

**Noise Eliminated by New Street Car Wheel.**

Elimination of the greater part of the noise that now accompanies the operation of street cars and elevated and subway trains is a prospect of the immediate future as the result of a new noiseless wheel which is described, with illustration, in the June Popular Mechanics Magazine. A street car equipped with wheels of this kind and recently subjected to test runs at Portland, Me., is reported to have run as noiselessly as an automobile. The wheel is made of two sections, and is in effect a wheel within a wheel. The inner section is fixed to the axle while the outer section takes the bearing on the track. Between the two sections is a cushion of rubber of special composition which absorbs the vibrations caused by the grind of the tire on the rail and by irregularities in the track, and it is this that gives the wheel its noiseless qualities.

**VIOLATING FISHING LAW**

Mr. E. H. Holliday Using Net in Saluda River.

Game Warden Thackston arrived in the city on Sunday and with Sheriff Asholey began to make a round of different sections of the county to see if the fish laws were being enforced. One violator was found as the result of the expedition.

**CARD OF THANKS**

We wish to express our thanks to the many friends who visited us and showed us kindness and gave help during the last illness of our father, Capt. J. T. Bushy. We also want to thank friends for the beautiful floral tributes.

**Here's a Tip That Means Money to You**

We were fortunate enough to be able to purchase some Roof Paints of different grades, and in all colors at EXCEPTIONALLY LOW prices.

For the next thirty days we will give our customers the benefit of our good fortune. We can and will save you anywhere from 20 per cent. to 50 per cent. in the painting of your metal roofs.

NOW IS THE time to do this work, and WE are THE people to do it.

**C. M. GUEST PAINT CO.**

"Guest Sells the Best."

**GALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES**

"Dodson's Liver Tonic" is Harmless To Clean Your Stagnant Liver and Bowels.

Ugh! Galomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Galomel is mercury or quicksilver which causes necrosis of the bones. Galomel, when it comes into contact with your bile crumbles into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knuckled out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tonic tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tonic. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tonic is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.
