# COULD SCARCELY WALK ABOUT

### And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Plaquemine, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst. I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework. I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off. I was certainly in a dreadful state of health, when I finally decided to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I finally believe I could have had it if I hadn't taken it. After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely. I fattened up, and grew so much stronger in three months, I felt like another person altogether." Cardui is purely vegetable and gentleness. Its ingredients have a mild, tonic effect, on the womanly constitution. Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, yellow cheeks, fresh and rosy. Cardui has helped more than a million weak women, during the last 50 years. It will surely do for you, what it has done for them. Try Cardui today.

There will possibly be many other affairs in her honor before she leaves.

For Miss Lillie Brown.

# Von Bernstorff's Witness Is Held For Perjury.

When Ambassador von Bernstorff, representative of Germany in the United States, called on President Wilson the other day, much was made of the visit. It turned out later that he hadn't much more to do than to present some affidavits to prove that the Lusitania, which was sunk by a German submarine, carried guns.

At once an investigation of the affidavits makers was ordered. Secret service men had a hard time to find Gustav Stahl, who had sworn that he had visited the Lusitania and seen guns on her.

When the chase became too hot, the head of the secret service of the Hamburg-American line disclosed his hiding place in Albany. He was taken before the United States grand jury in New York. There he was asked about his affidavits, and he loudly announced he had seen guns on the Lusitania. Just as he was leaving the grand jury room he was arrested on a complaint sworn to by an assistant United States attorney. He was locked up in the historic Tombs.

While Stahl was waiting in the marshal's office in the Federal building, in New York after his arrest for the arrival of Edward Sanford, a lawyer, who had been assigned to act as his counsel, he was asked, through an interpreter: "Would you be willing to spend twenty years in jail for your fatherland?" "Make it a hundred!" he replied, in German, and then broke into a hearty laugh.

# BRYAN ISSUES FIRST SECTION

Prophecies U. S. Will Have Greatest Peace Making Opportunity in History.

Washington, June 16.—Former Secretary Bryan, in the first section of his statement on the European war, today prophesied "that the greatest peace-making opportunity in all history was certain to come to the United States, and declared it would be a demand for an international conference with return of peace to change the rules of international law which "seem to have been made for nations at war rather than for nations at peace."

Bryan refers to the interruptions to neutral commerce, derangement of business and consequent readjustments, and speaks of the scarcity of American ships as one of the greatest embarrassments to the United States.

### Delightful Party.

Miss Lula Hammelt was the charming young hostess for about fifty of her friends on Tuesday evening at her home on West Whitner street. Miss Lucile Crosby and Miss Sallie Sine returned to their home in Chester yesterday after a visit to Mrs. Frank Hall and Miss Rosaman Burdine.

### CARD OF THANKS

We wish to thank our many friends who assisted us in the saddest hour of life, by many acts of kindness and beautiful floral offerings during the illness and death of our aunt, Miss L. C. Hardy. May God be as mindful of them in their hour of trial.

# DOING FINAL WORK AT BURRIS FLOUR MILL

WILL BE READY FOR PUBLIC EARLY PART OF NEXT WEEK.

# IS A MODERN MILL

Machinery in Plant Is So Arranged to Obtain Very Best Flour From Wheat.

The final work of installing the flour mill for the Burris Milling company is going on this week and Mr. Burris stated yesterday that he thought he would be ready to make flour by the first of next week.

His mill is a Midget-Marvel, made by the Anglo-American Mills company and is of an English patent. It is one of the very best mills made and is in every way equipped to make the best flour.

In arranging the machinery and mill, Mr. Burris has done everything possible to have it so that as little dust will reach the flour or the mill. The machinery and motor have been placed in the basement and the milling machinery proper has been placed on the first floor. On the second floor the cleaning and scouring machines have been placed, so that they are as far away as possible from the bins.

One of the features of the mill is the automatic packer which will pack either 24 or 48 pound sacks. Mr. Burris stated yesterday that the sacks would bear the picture of a girl and would bear the title of "Anderson Belle."

Mr. Burris states that he is making as fine chicken food as can be purchased anywhere and that it is selling right along. He has already purchased 100 bushels of wheat and says that he will grind a great deal of this into flour in order to get the mill running right before he starts to grinding for the public.

Rigorous exercise which fatigues the muscular system and oxidizes its fatty infiltrations without subsequently causing physical exhaustion is produced, it is claimed by an electric apparatus which has recently been introduced in this country as a cure for obesity. Pictures of the apparatus appear in the July Popular Mechanics Magazine.
