NUMBER 138.

RUSSIANS READY FOR LAST BATTLE TO SAVE LEMBERG

HAVE MADE STAND ON THE HEIGHTS WEST OF CAPITAL

BATTLE LINE OF EIGHTEEN MILES

Petrograd Thinks Positions Strong Enough to Insure Success of Defense.

London, June 19.—The Galician campaign has reached a crisis. The Russian forces, driven from one position after another, by Austro-German advance across the province, have made stands on the heights west of Lemberg, along an eighteen mile line should Lemberg be retaken, Austria would have reclaimed virtually entire province of Galicia, almost all which was in Russian hands during the earlier stages of the war.

Petrograd expresses the opinion that the Russian positions west of Lemberg, which are of great strength on account of the character of the country, can be defended successfully against a frontal attack, and contends that subsequently the efforts of the Austrians and Germans will be concentrated on their advance further north from the San, which is thirty-five miles southeast of Lemberg.

According to the German war office, the French and British attacks on the western front resulted disastrously. The attempted advances in the Arras region have been repulsed by the Germans.

The Italian ministry of marine announced that Austrian warships attacked the northern Italian coast near Austria's border Friday and Saturday but were driven back by Italian warships.

London, June 19.—Russian forces are at bay along the Godek line in Galicia, where with their flank well protected by marshes and the Dniester river and will defend Lemberg, the capital of Galicia.

Neither side reports much progress during the last twenty-four hours, notwithstanding the claim of Petrograd's assertion that the Austro-Germans have been hurled back on Austrian territory between the Dniester and Pruth rivers.

The French, according to latest news, hold the Germans north of Arras on the western front in continental war. They now occupy positions on three sides of Souchez. British observers believe they soon may make German positions on that front untenable.

Italian invasion of Austria is said by some newspapers to have resulted thus far in the occupation more than twice as much territory as offered by Austria as the price of Italy's neutrality.

Along the Isonzo front a battle on which hinges the fate of the Austrian city of Trieste is assuming great proportions. Austria has sent reinforcements of her finest troops. Raid by Italian airplanes and dirigibles inflicted considerable damage on Austria fortifications, according to Rome reports today.

Rumors emanating from the Balkans say that the allies have offered Bulgaria generous territorial terms, which specialists disapprove. Nevertheless, it is evident that no actual alliance has been signed to insure Bulgaria's participation in war on the side of the triple entente. Also it is plain that none will be signed until Bulgaria's neighbors make the concessions she has been consistently demanding.

ENGLAND DECLARES BATTLESHIP SUNK GERMAN SUBMARINE

London, June 19.—The British admiralty has announced officially that the German submarine U-29 which was sunk in March, fell victim to a British warship, the name of which is not disclosed. The presumable reason for the late announcement became apparent only when the flood of Berlin officials in which it was stated the U-29 was sunk by a merchant

U. S. S. ARIZONA RIDES WAVES AT NEW YORK

LAUNCH SECOND WORLD'S LARGEST BATTLESHIP ON SATURDAY.

SISTER SHIP OF PENNSYLVANIA

When Completed Monster War-Craft Will Have Cost U. S. Fifteen Million.

New York, June 19.—The new battleship Arizona was successfully launched at the New York navy yard today. The Arizona shares with her sister ship the Pennsylvania, recently launched at Newport News, the honor of being the world's largest battleship. The Arizona slipped into the water at 1:12 o'clock.

New York, June 19.—Gay with flags and bunting the huge hull of the superdreadnaught Arizona, sister ship of the Pennsylvania, and one of the two largest vessels in the United States navy, lay in the ways in New York navy yard today awaiting the signal for her launching at high tide this afternoon.

The state whose name the gigantic fighter will receive was represented by a distinguished delegation headed by Governor Hunt and Miss Esther Ross the sponsor, they brought a carboy of water from the first that slipped under the Roosevelt dam to be used in an unusual double christening.

This was said to be the first vessel in the United States navy to be named with both wine and water. The direction to use champagne and water was made by Gov. Hunt in the face of protests from the Women's Christian Temperance Union leaders. Secretary DeLoach was here for the launching as well as Admiral Fletcher, the commander of the Atlantic fleet, with Major General Wood and many other Army and navy officials and members of congress.

A \$15,000,000 Ship.

Washington, June 19.—Another fifteen million dollar battleship was launched for the American navy today when the superdreadnaught Arizona slid into the water at the New York navy yard. She is a sister ship to the Pennsylvania, recently launched at Newport News and in size and armament one of the largest and most powerful craft ever built for any navy.

Ships of the line, like the Arizona, are built to give and receive punishment in sea battles. Their mission has little in common with that of the battle cruisers which have been the largest ships to engage each other during the European war. Speed is sacrificed in the construction of the battleships to weight of armor and against such a ship as the Arizona with her broadside first from twelve 14-inch guns and protection of more than a foot of the toughest steel that can be made around the vessel—vital parts like a wall a battle cruiser would be helpless and must depend on her speed and seek safety in flight. There are few ships in any navy fit

(CONTINUED ON PAGE TWO.)

WILL DECIDE FRANK'S FATE BY TUESDAY

GOV. SLATON ANNOUNCES PRISONER WILL NOT BE RESPITED.

FRANK SHOULD BE PREPARED TO DIE

Has Had Ample Time to Get Ready in Case Clemency Is Refused.

Atlanta, June 19.—Governor Slaton continued his study today of the record in the case of Leo M. Frank, who is asking commutation of his death sentence for the murder of Mary Phagan to life imprisonment. The governor was at his country home near here, and stated that he will not be able to announce his decision until Monday afternoon or Tuesday. Frank is sentenced to be hanged on Tuesday.

The governor stated there would be no respite granted regardless what his decision might be.

"The judgment of the court," said the governor, should cause the prisoner to prepare for death. In the event my decision is adverse, he has had ample time to make preparation."

Friends of the doomed man, jail-keepers and the special turkeys assigned to his only duty, that Frank is more cheerful now than ever and that he constantly assures visitors that he is confident of rescue from the scaffold.

Throughout most of Friday morning he received visitors, friends of long standing, who were familiar comers to his cell. At noon and all during the early part of the afternoon he spent the time with his wife, who came for luncheon, which they ate alone. His mother came later in the afternoon.

Attaches of the hospital ward say that Frank's health has not been visibly impaired by the nearness of the execution day and the suspense that naturally prevails in the interim of Governor Slaton's decision. He takes regular daily exercise, spends much of his time walking, and, at specified times, is granted the privilege of the roadway alongside his cell, where he finds freer walking.

His mail continues heavy. Letters still come from all parts of the country. Some of them come addressed to Mrs. Frank. Others come to his attorney.

What spare time he finds, when not talking to visiting friends, the prisoner devotes to his mail and to the newspapers, by which he keeps well posted on all important topics of the day.

AMERICAN REFUGEES ARRIVE FROM MEXICO

Conditions Described as Deplorable—Think Intervention Is Solution.

Galveston, June 19.—Three hundred and ninety refugees from Mexico were landed here today from the American transport Buford, which sailed from Vera Cruz. A few answered questions concerning Mexican conditions and all described the situation there as "deplorable." Many said American intervention was the only solution of the problem. The passengers said they were afraid to be interviewed for what they said would be cabled to Carranza army officers and frequently in such cases, the property of persons, talking is damaged or relatives and friends there subjected to indignities.

INVESTIGATING RECRUITING FOR ALLIES IN CALIFORNIA

San Francisco, June 19.—It was learned today that department of justice agents are investigating alleged recruiting in California for allies in the European war. On good authority it was stated that some investigators found no trouble in enlistment. The main office of the supposed recruiting agents is here.

White Man Pardoned.

Columbia, June 19.—Governor Manning today pardoned G. G. Bragg, white, of Greens, who was sentenced to one year for forgery. The solicitor joined in the request.

Are Husbands Worth \$500,000

Mrs. William S. Laimbeer.

Mrs. S. Osgood Pell.

Whether or not the lives of the husbands of Mrs. William S. Laimbeer and Mrs. S. Osgood Pell, two New York and Newport society women, whose families from time immemorial have been members of "the 400," are worth \$500,000, is the question to be settled by New York city jurists. Messrs. Pell and Laimbeer, like their widows members of the circle in which travel the various Vanderbilt families, were killed in an automobile at what is known as the Wreck Lead crossing of the Long Island Railroad tracks on Long Island, nearly two years ago, and the suits of their widows have just gone to trial.

Laimbeer and Pell with Mrs. Laim-

beer were in one automobile which the Long Island road train struck. The two men were killed and Mrs. Laimbeer was painfully injured, so painfully that she has been compelled ever since to walk with the use of a cane, and as a result she also has a suit for \$50,000 damages. Mr. Pell was immediately behind in an auto with William K. Vanderbilt, Jr. Her party saw the accident.

An interesting feature of the case is the fact that many of the friends of both women are large stockholders in the Long Island Railroad Company, and money damages must come partly from their pockets.

The photograph shows the two women on their way to court, Mrs. Laimbeer hobbling along on her cane.

ALLIED TROOPS IN GALLIPOLI

HAVE GREAT DIFFICULTY IN HOLDING TERRITORY OCCUPIED.

MOST FIGHTING DONE AT NIGHT

German General Commanding Turks Ridicules Attempt to Force Dardanelles.

Krithia, Dardanelles, (via London.) June 19.—The allied troops who have landed at Soudai Bakr, on the Gallipoli peninsula, hold about ten square miles of the extreme southern part peninsula. Their occupancy is coupled with the greatest difficulties. An Associated Press correspondent, who spent two days in the trenches found the Turks in excellent condition and spirits. Both sides are usually inactive during the day, the Turks preferring night bayonet attacks.

Weber Pasha, the German general commanding the south group, made no comment on the situation beyond saying the failure of the allies to consummate their plan of forcing the Dardanelles is too obvious for discussion.

Tilman at Panama.

Colon, June 19.—Senator R. R. Tilman of South Carolina, accompanied by his family, arrived here today from New York. All the party were well, although they had rough weather for two days on the way down. They will leave Panama for San Francisco about June 22.

NEW EVIDENCE BECKER'S HOPE

FINAL OPPORTUNITY WILL BE GIVEN CONDEMNED MAN.

WHITMAN WILL GIVE HEARING

Believed Simple Appeal For Mercy Would Be Absolutely Useless.

Albany, June 19.—The impression prevails in circles which have kept in close touch with the case of Charles Becker, the former police lieutenant under death sentence of murder, that unless his attorney's can present new evidence pointing to his innocence, Governor Whitman won't commute the sentence. A full hearing will be given his attorneys or Mrs. Becker, but a simple plea for mercy is regarded as useless.

Ossining, N. Y., June 19.—Charles Becker, sentenced to die next month for the murder of Herman Rosenthal, was visited today in his cell at Sing Sing's death house by his counsel, Martin T. Manton of New York.

The attorney remained with Becker for an hour. It was inferred that a plan to appeal to Governor Whitman for clemency was discussed. It is believed this is virtually Becker's only hope to escape the electric chair since the court of appeals yesterday declined to grant a reargument on the appeal from his second conviction.

CABINET RUPTURE MAY MEAN END OF CARRANZA'S RULE

MAYTORENA TO RESIST LANDING OF U. S. MARINES

DECLARES HE WOULD REGARD SUCH ACTION AS HOSTILE INVASION

HAS 1,000 MEN IN YAQUI VALLEY

Troops Sent There to Protect Settlers Would Attack Landing Party.

Nogales, Sonora, June 19.—Governor Maytorena authorized the statement today that the entire Mexican forces in his command be used if necessary to resist landing the American marines on the west coast to protect foreign settlers from the Yaqui valley, who have been threatened by the Indians.

A detachment of nearly 1,000 troops was sent to the Yaqui Valley yesterday, dispatched primarily, Maytorena said, to protect settlers and their crops from the Indians, but had orders to resist any landing of American military forces.

Washington, June 19.—Admiral Howard, with an expedition for the relief of American settlers in the Yaqui Valley, is expected to arrive at Tobarí Bay tomorrow. Six hundred marines and blue jackets are on the cruisers Colorado and Chattanooga. Howard has wide discretionary powers as to the use of force.

MAY REORGANIZE NAVAL STORES CO.

Court Decision Favorable to Parties Desiring to Reorganize.

Toledo, June 19.—The reorganization of the Yaryan naval stores company was made possible, according to local officials, by the United States court's denial of the trustees application for a writ seeking to review the court of appeal's decision, which had decided the question of jurisdiction in favor of the Georgia court.

The decision means the United States court for Georgia will complete the administration of the property. The company has general offices here and manufacturing plants at Brunswick, Georgia.

Flood Warning Issued.

Kansas City, June 19.—The weather bureau today warned residents of east and west bottoms of Kansas City to move immediately from the first to second floors of their dwellings and be prepared for a flood. Their districts are in sections adjoining Kansas and Missouri rivers. Both are rising rapidly because of recent rains. The storm area extended all over Kansas and western Missouri last night and today all rivers in Kansas are reported rising.

BRYAN SAYS TAFT AND ROOSEVELT ARE ENEMIES OF PEACE

New York, June 19.—William Jennings Bryan, addressing a labor peace meeting here tonight, attacked former Presidents Roosevelt and Taft as the leading sponsors of an organization which stood for the use of force in international affairs, which Bryan declared were inimicable to the true interests of this country and to the cause of international peace.

RESIGNATION OF MINISTERS THREATENS DOWNFALL OF PARTY.

CARRANZA MOVES HEADQUARTERS

Is Established in Fort in Vera Cruz Harbor—More Trouble Is Expected.

Washington, June 19.—General Carranza, the original leader of the Mexican constitutional movement, is faced to face with a situation which may eliminate him as a factor in Mexican politics unless he yields to the dictation of his commanding general, Obregon, and other high officials, in his army.

Official advice today revealed that four of Carranza's cabinet ministers had resigned and that Obregon was insisting on their retention as well as the dismissal of a number to whom they are opposed.

News has been received that General Maytorena, the Villa commander at Sonora, objects vigorously to the possible landing of American marines to rescue Americans in the Yaqui valley. He indicated he would regard such action as a hostile invasion.

The cabinet crisis created a new angle to the entire Mexican problem overnight. This crisis has halted the movement of General Obregon to Mexico City.

President Wilson is patiently waiting for the situation in Mexico to develop itself more clearly before announcing his next move. He expects to wait a few weeks more for the factions to get together.

Washington, June 19.—General Carranza has abandoned his headquarters in the lighthouse at Vera Cruz and has established himself in the fortress of San Juan de Ulos out in the harbor. This was reported to the state department today by Consul Canada.

Carranza's move, coupled with reports of dissension and resignations in his cabinet, regarded here as of much significance in the Mexican situation.

Washington, June 19.—Differences are reported to have arisen between Carranza and General Obregon. Occupation of Mexico City by Carranza troops under General Pablo Gonzalez have been postponed pending cabinet reorganization.

Latest advices received were that four of eight members of the cabinet have resigned; that Obregon had insisted in a telegram to Carranza that they must be retained and that the fifth member, minister of public instruction, be dismissed. A newspaper article by the later, attacking some of his colleagues in the cabinet led to the break.

President Wilson intends to wait several weeks for the situation to shape itself more clearly before any definite steps are taken in the new policy announced in his recent statement to Mexican factions. He wants to see coalition of the various branches of the original constitutional movement, and no recognition will be accorded until a government is set up which gives promise of stability.

Tentons Capture Godek.

Vienna, June 19.—Godek, seventeen miles west of Lemberg and Komarna, twenty miles southwest of Lemberg, has been captured by the Austro-Germans, according to an Austrian official announcement issued tonight.

Bryan referred to his work as being "in crystallizing sentiment in favor of peace in support of President's efforts to reach an settlement of all differences during the war arise between countries and belligerents." He declared no advantage could have a deeper preservation than the preservation of international peace.
