

Friendship Link Bracelet

The Latest Fad

Start with a single link like the above, which you can wear on a velvet ribbon around the wrist.

Members of your family and your friends will each be glad to give you a link, with their initials engraved upon it.

It only takes a few links (nine to twelve) to make you a complete FRIENDSHIP LINK BRACELET—a life long reminder of your friends.

Each link is sterling silver. Price per single link 25c each.

Be the first in your set to secure a complete bracelet.

Anderson's Progressive Jewelry Store

\$2,000,000 worth of confidence—

Mr. C. Markham, President of the Illinois Central Railroad Company, is preaching the "Buy-It-Now" gospel—and practicing what he preaches.

He writes: "As an illustration of my co-operation, we have closed contracts for 50 locomotives, representing nearly \$1,000,000, and are considering additional equipment aggregating about as much more."

What are you doing to help?

BUY-IT-NOW

This is the time of all times for the U. S. A. to make vast strides. Let's all get busy.

TAKE SALTS FOR THE KIDNEYS IF YOUR BACK HURTS

We Should Drink Lots of Water and Eat Less Meat, Says Noted Authority on Kidney Disorders

Recommends a Spoonful of Jad Salts In Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid

Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush the body's urinous waste or you'll be a real person shortly. At first you feel a dull ache in the kidney region, you suffer from sick headache, dizziness, stomach gets snug coated and you feel rheumatic when the weather is bad.

Just most, drink lots of water, also get pharmacist four ounces of Jad Salts; spoonful in a glass of water before

breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

U. S. S. ARIZONA RIDES WAVES AT NEW YORK

(CONTINUED FROM PAGE ONE.)

to cope with the Arizona, ship to ship. The range of the Arizona's guns is from 12 to 13 miles as they will be set in her turrets, or as far as her gun pointers and observers can see in highest test weather. As previous ships carrying the 14-inch guns the Arizona's main battery will have a maximum elevation of nearly 20 degrees. It would be possible, it is said, to almost double that elevation and add miles to the range of the guns; but already they can shoot and hit farther, it is probable, than they would ever be called upon to do.

The Arizona will carry the three gun turrets which have been developed by American navy constructors, her 12 big rifles being housed in four turrets, two forward and two after. In addition she will have a secondary battery of twenty-two 5-inch, long range rifles for defenses against destroyer torpedo boats and submarines. The big guns can be fired over either broadside and around the entire circle with the exception of an arc of less than 30 degrees directly forward for the after turrets and directly astern for the forward turrets. Four of the secondary battery guns, two on each side, are so placed that they can fire three degrees across the ships bows, taking the place of bow chasers of the old wooden ship days.

Compared to the Arizona the old battleships of the Oregon class are almost like toys. The new ship could engage a fleet of three of them at the same time truing upon each as many guns as it could bring to bear and her guns would be bigger and of longer range. In addition she could steam away from them or overtake them at pleasure, developing 21 knots as against their 16 to 17. The remarkable thing about the great increase in size and gun power, however, is that each of the smaller ships would need as many or more than the Arizona, which will carry a complement of 915 in her crew.

The new sea fortress as she took the water today cost more than seven million dollars. That was for hull and machinery alone. The guns and armor will cost as much more and other equipment necessary to fit her for duty will add another million to her total cost. She is longer and wider than any but the newest trans-Atlantic liners. If it is desired to put her through the Panama canal the locks and bends in the channel will be taxed almost to the limit to give her passage way.

The Arizona is the fourth battleship to be built in a government yard and her place on the ways will be taken at once by the California, a larger and faster but similarly armed ship.

FIRST COTTON BLOOM OF SEASON SHOWN

Brought in By Colored Farmer From Below the City.

The first cotton blooms reported this season in the county were brought to The Intelligencer office yesterday by a colored farmer, Sam Sibert, who works a crop on the farm of Mr. C. Manly Watson, just south of the city. Sam exhibited two healthy looking blooms, one red in color and the other white. He stated that he counted six other blooms in his patch at the time he plucked these. He states that he plucked this cotton on Good Friday. The patch is comprised of about eight acres. Sibert made 14 bales of cotton last year, and states that he will make only about 10 this year, as he cut down his acreage.

BELTON DEFEATED ORR

By Score of 6 to 4—Game Played in Belton.
 The Belton mill baseball team defeated the Orr mill team yesterday afternoon at Belton by the score of 6 to 4. The game was featured by heavy hitting.
 Batteries: Belton, Ward and Snipes; Orr, Webb and Evans.

GLUCK MILL WON

Defeated Equinox by Score of 6 to 1 at Gluck.
 The Equinox mill team was defeated by the Gluck mill team yesterday afternoon at Gluck by the score of 6 and 1.
 Batteries: Gluck, Edwards and McDonald; Equinox, Gassaway, McIntyre and Meyers and English.

EQUINOX SECOND WON

The second nine of Equinox and Belton mills played yesterday afternoon at Beuna Vista park, the former winning 4 to 1.
 Batteries: Equinox, Hammond and Smith; Belton, Darby and Chaw.

ANDERSON DEFEATED BROGON

First Nines of These Mills Played Yesterday Afternoon.
 The first nine of the Anderson mill defeated the Brogon mill baseball team Saturday afternoon by the score of 15 to 3.
 Batteries: Brogon, Dixon and Hall; Anderson, Wells and Moore.

BROGON SECOND NINE WON

The second nine baseball team defeated the second nine of the Riverside mill yesterday afternoon by the close score of 3 to 1.
 Batteries: Brogon, Farmer and Hall; Riverside, Tinsley and Hughes.

LOST FIRST GAME

Equinox Second Team Defeats Smith's Team.
 The Anderson mill baseball team, second nine, was defeated by the second nine of the Equinox second team yesterday afternoon, the score being 18 to 11. Manager Smith of the Anderson team stated last night that this was the first game that his team had lost this season and that it was just an accident that this one was dropped.
 Batteries: Anderson, Dillard, Stanley and Medlin; Equinox, Biggs and Murray.

CHANCE OF GETTING GREAT PHOTO PLAY

Manager Pinkston of the Local Theaters Makes an Interesting Announcement.

In a bunch of "men about town," yesterday one was heard to say that he did not like the way the two picture theatres were being run, etc., which brought on an argument, in which the following facts were brought out—That the Bijou was giving two splendid serial pictures every Thursday, and that Manager Pinkston was giving the public the cream of the Mutual, Universal, and General Film Service at both theatres. When this fact was established beyond the possibility of a doubt all agreed that the patrons of the picture theatres of Anderson were being well taken care of. The reporter for the Intelligencer meeting Manager Pinkston later in the afternoon asked him if there was anything new in the picture show business, and was told that there was an excellent chance of Anderson getting a new photoplay of the celebrated "Quo Vadis" at a very early date. Mr. Pinkston stated that this new picture of the celebrated novel would eclipse the other one, even though it thrilled and charmed thousands everywhere.

Mr. Pinkston asked the reporter to say that he was trying in every way possible, to give the people the very best service, and that if any patron at any time saw anything wrong in either of his theatres he would appreciate it if they would let him know. He stated most emphatically that he would welcome criticism if it was his earnest desire and purpose to give the people the best show for their money that they had ever had.

The New Way to Best

In the July Woman's Home Companion Margaretta Tuttle begins a new serial story of romantic adventure, entitled "The Runaway East Cure." In the first installment Nancy Hamilton, a tired-out artist, has a talk with Brian Gardner, her physician, who prescribes a new kind of tonic. He says that the great problem of all workers is to find strength and that the way to find it is by resting or systematically as possible. By resting he does not mean idling. Na this point he says in part: "We no longer send your kind—men or women—to bed to rest. We send them to new places so they'll use new faculties and rest the old ones. Any new place; another town, a boarding house with foreigners in it—I sent a woman worn out with nursing on a shopping trip yesterday."

Miss Annie Thornton has been taken to her home in Hartwell, Ga., after having undergone an operation for appendicitis at the Anderson county hospital.

Portable Talking Machine Convenient For Campers

Because of its unusual compactness and lightness, a new phonograph which has recently been developed is particularly adapted for use in a canoe or motorboat. Its construction is novel, for the horn forms a part of the body and this greatly reduces its size. The instrument weighs only 6 pounds, and fits into a case which may easily be carried on a camping trip or stored in a locker at a canoe house where it is accessible for use whenever wanted at the water. It plays disk records and is very inexpensive. From the July issue of Mechanical Magazine.
