GERMANS CONTINUE GAINS IN GALICIA; CROSS DNIESTER

RUSSIANS RETIRE AFTER FIVE DAYS' DESPERATE REAR GUARD ACTION.

BATTLE LINE NOW RIVER SAN

Experts Expect Next Important Battle on River Gulla Lipa—Little Action in West.

London, June 28.—Berlin reports the fall of the Galician to a Hailix and says the Austro-Germans have crossed the Dniester river. This means the five days desperate rear guard action by the Russians ended in their retirement. The stubborn resistance of this flank, however, undoubtedly enabled the Russians to reform their lines along the rivers Bug and Stry without interference. The river San now takes the place of the Dniester as the scene of the sanguinary battle in the Russian effort to prevent the investment of Warsaw.

Petrograd admits the retirement of the Russians to the river Gulla Lipa, eighty miles from the frontier. Experts don't expect heavy fighting there. They express the opinion that the next serious battle will be along the Gulla Lipa further eastward.

The reorganized Russian cabinet returned to Petrograd after a field conference with the emperor and Grand Duke Nicholas.

The Italians entered Austria south of Riva through passes five thousand feet high. They are now six miles from Riva.

In the west the only important actions, according to the French, consisted of a repulse of the Germans on Calonne trench and Carx Metzeral. Berlin claims the French attacks all points were repulsed.

London, June 25.—The tide of battle is again flowing with the Teutonic allies in Galicia. German-Austrian claims of victory are substantiated by Russian admission of retirement from Lemberg. Simultaneously comes the news from the Russian war council at the front presided over by the emperor, in Petrograd, the recent retirement by the war minister will be followed by other ministerial changes, according to current report.

Following recent indications that the Germans are resuming activity with the possible intention of another attempt on Warsaw from the near East Prussian border come reports a strong offensive movement by Teutonic forces in the southern part of Russian Poland. Latest Russian official report mentions this but does not set up to Saturday the new offensive with no success.

It likewise affirmed that German forces in Shavil and Narew river and across Niemen have been

reports an unsuccessful attempt by Austrians to retake heights of Kolof.

A submarine activity is reported sinking British steamer

aviators flown over Smyrna dropping bombs, causing over seventy fatalities in the Turkish garrison, according to Mytilene report.

An interesting statement in view of recent rumors is the reported declaration of the Serbian minister to Italy that Serbia will decline to make separate peace.

First Anniversary of War. The anniversary today of the assassination of Archduke Francis Ferdinand of Austria, which turned Europe into battlefield, finds the struggle between Teutonicism and Slavism nearing what is considered here as its highwater mark with the Teutons, outwardly dominating the situation.

The Germans captured from Lemberg have forced the Russians from a thirty mile front between Bobek and Zorawna. The Russians admit falling back to the Gulla Lipa river.

Military writers anticipate the Russians will take their next stand on the river Bug.

In the west the French offensive seems less active, pending consolidation of ground won.

In Africa, the British report a fruitless attack on the German fortified port of Bukoba.

Russians Ready to Come Again. Petrograd, June 28.—Officers of the Russian general staff now state they have satisfactorily achieved the regrouping of their forces necessitated by the German Galician campaign and that the Russians are ready to actively oppose further advances of the Austro-Germans in Galicia or southern Russia.

DETERMINED TO BREAK UP HUERTA MOVE

U. S. WILL ALLOW NO MORE ELEMENTS TO ENTER MEXICAN SITUATION.

WILL PROSECUTE ALL VIOLATIONS

Neutrality Laws to Be Enforced—Hundreds Crossing Rio Grande Each Night.

Washington, June 28.—The United States is determined as far as it can prevent, there shall be no more revolutionary movement in Mexico and American territory shall not be used as a base for such expeditions. This, it became known today led to the arrest of Huerta and Orozco at El Paso Sunday and forms ground for the strict surveillance of Felix Diaz, Blanquet and other prominent Mexicans in the United States.

The government's intention to prosecute vigorously violations of the neutrality laws was revealed today after a conference between Secretary Lansing and Assistant Attorney General Warren.

Four different groups apart from Villa and Carranza supporters in United States, are active politically in the Mexican situation, according to information thus far.

El Paso, June 28.—Despite the detention here of General Huerta, events today pointed to the continuance of the new revolutionary movement across to Rio Grande. Well informed persons said an average of one hundred men are crossing the river nightly and predict important developments at Juarez soon.

El Paso, June 28.—Arrests of Generals Huerta and Pascual Orozco here last night charged with violating the neutrality laws of the United States by attempting to start an armed expedition has forced abandonment of government officials belief of any movement to launch a new revolutionary movement in Mexico. With Huerta and Orozco at liberty on bonds, Mexican and American officials are watching developments among their adherents. Apparently the tendency of other factional leaders was to await their opponents next move.

No action is expected on the legal phases of Huerta's arrest until July first, the date set for the Huerta-Orozco hearing.

Washington, June 28.—Details of the arrest of Generals Huerta and Orozco at El Paso last night were received here today by the department of justice. It is not disclosed what evidence has been gathered against the two Mexican generals but it is understood that it relates mostly to alleged reception of Mexicans in the United States.

Both Villa and Carranza agents here interpreted the Huerta detention as meaning the United States is unwilling that Huerta should complicate the Mexican situation by a re-entry into Mexico.

Until President Wilson returns from Cornish, N. H., it is unlikely there will be any new steps in the United States policy toward Mexico. In fact, while there still remains a delicate situation with Germany it is reliably stated that positive action by the United States in the Mexican situation is very likely.

Washington, June 28.—Inside details of the plot to restore the Huerta regime, to Mexico are trickling through the net of official secrecy today. Secretary Lansing conferred today with Assistant Attorney General Warren and it became apparent that the department of justice intends to ascertain who was back of the new revolution. It is thought some American is under surveillance. It is officially known that weeks ago Huerta in seclusion at Long Island, offered his services to General Turbide, one of the exile colony in New York and also sent an emissary to Washington asking if he would be persona grata to the United States if he participated in Mexican affairs.

Turbide declared Huerta's company and Washington sent Huerta word he would be decidedly non grata.

It is known that for four weeks a party of prominent Mexicans styled Huertistas and Cientificos have been maintaining a Junta in El Paso, maintaining among themselves a form of provisional government with a president and members of a cabinet.

PRIZE COURT IS UNNECESSARY

Note Holds Findings of Court Would Not Be Binding On United States.

King Ferdinand. Queen Marie. The dream of a "Greater Rumania" just now being indulged in by the aggressive politicians of that Balkan kingdom is imposing a very difficult problem upon the allies. As the price for her entrance into the war Rumania demands a large part of Bukovina and Transylvania and suggests that Bessarabia would make a very desirable Rumanian province. The territory demanded in Bukovina and Transylvania contains almost

4,000,000 people, the city of Czernowitz, and thousands of square miles of the richest agricultural land in Europe. Russia cannot yet accede to the demands, for the reason that she has already promised some of the desired territory to Serbia. With the recent losses in Galicia, however, in mind, the allies need Rumania's aid more than ever before, and it is not unlikely that Serbia may be persuaded to yield her prior claim.
