

BETTER COOKING—NO MORE DRUDGERY

NEW PERFECTION Oil Cookstoves have made cooking easier and kitchens cleaner for 2,000,000 housewives. No more drudgery—no more wood-boxes, coal-scuttles, and ash-pans.

The **NEW PERFECTION** lights instantly like gas, and regulates high or low by merely raising or lowering the wick. You can do all your cooking on the **NEW PERFECTION**—just as cheaply and twice as conveniently as on your coal range.

Ask your dealer to show you the **NEW PERFECTION** No. 7 with the new oven that becomes a fireless cooker merely by pulling a damper. Also the **PERFECTION WATER HEATER**. It makes you independent of your coal range—gives you plenty of hot running water.

Use **Aladdin Security Oil** or **Diamond White Oil** to obtain the best results in oil Stoves, Heaters and Lamps.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Use it like a cold cream and dry Eczema eruptions right up.

The moment you apply bold-sulphur to an itching or broken out skin, the itching stops and healing begins, says a renowned dermatologist. This remarkable sulphur made into a thick cream effects such prompt relief, even in aggravated Eczema, that it is a never-ending source of amazement to physicians. For many years bold-sulphur has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasitic-destroying properties and nothing has ever been found to take its place in relieving irritable and inflammatory affections of the skin. While not always establishing a permanent cure, yet in every instance, it immediately subdues the itching irritation and heals the Eczema right up and it is often years later before any eruption again manifests itself. Any good druggist will supply an ounce of bold-sulphur, which should be applied to the affected parts like the ordinary cold cream. It isn't unpleasant and the prompt relief afforded is very welcome, particularly when the Eczema is accompanied with tortuous itching.

AN ANDERSON MAN INVENTS RAT TRAP

Is Very Unique Device and Never Fails to Obtain Results—On Exhibit.

Mr. W. C. Moore of this city has several patents pending on a mouse, rat and rabbit trap which he has recently invented. It was on exhibition at Power's meat market yesterday and was greatly admired.

The invention is really a double trap. The first one consists of a long box made of plank openings of about five inches square, and a length of about four feet. This box is open at both ends and is arranged so that when a rat, mouse and rabbit reaches the center, flap doors are closed at both ends.

At the same time that these doors are closed another one from the side is opened into a wire cage. The trapped animal thus seeing the light will rush into this cage and in so doing releases this door and at the same time causes the two doors at the end of the wooden box to open again. Thus the trap is ready for the next rat.

Mr. Moore says that he has tried his invention and that it proves very successful. Owing to the fact that such a great war is now being waged on mice and rats in the United States, much interest will be taken in this new means of extermination.

Traveling Man's Experience.

"In the summer of 1888 I had a very severe attack of cholera morbus. Two physicians worked over me from four a. m. to 6 p. m. without giving me any relief and then told me they did not expect me to live; that I had best telegraph for my family. Instead of doing so, I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and take no substitute. I took a double dose according to directions and went to sleep after the second dose. At five o'clock the next morning I was called by my order and took a trip for my next stopping point, a well man, but feeling rather shaky from the severity of the attack," writes H. W. Ireland, Louisville, Ky. Obtainable everywhere.

TO THE LADIES:

Do you realize the difference in the appearance of your table that nicely laundered table linen will make?

Do you know that the clear, pearly white color, the smooth, even silky finish that we give your table linen cannot even be approached by hand work? If you do not know it—investigate.

Put a table clover in your next week's laundry bundle. Let us show you just what we can do. You'll never regret it.

Just the Kind of Oil Cook You Have Always Wanted

The Oil Stove With the Patented KEROGAS Burner

Any way you look at it this oil cook stove is the highest development in modern kitchen stoves. It burns air and oil perfectly. Lights as easily as gas. No trouble to operate. Its heat producing power is the marvel of housekeepers. Two-inch strip of reinforced steel at center of top with two gasen on each side permits use of any of our large size ovens over two burners without interfering with the use of the other two burners for cooking purposes. Maximum cooking capacity is thereby provided. This oil stove comes up to every test—it satisfies every "want" in convenience, is easily cleaned, wonderfully economical and in the most profitable use in that it causes a saving of time and money.
