SIDE DRESSING WILL PAY. YOU

This year of all years as you fertilized lightly this spring and the heavy rains have washed away and leached out lots of what you did use. Your cotton has taken on a rapid growth, is full of water and when the weather turns off dry, as it probably will, your cotton will shed like everything unless you supply it plentifully with plant food. We have the very goods for side dressing, made especially for that purpose. It will do your cotton a world of good. For every dollar you pay out for it you will get back from \$3 to \$5. If cotton is cheep the more you make to the acre the better you are off. If cotton is high the more you make to the acre the better you are off.

But get your side dressing in the ground just as soon as you possibly can. The business of this crop requireth basto.

SLIGHT DECREASE AT ANDERSON POSTOFFICE

AS COMPARED WITH **PREVIOUS YEAR**

and This is Attributed as the Mein Reason.

Figures compiled at the local postoffice show a slight decrease in the business for the fiscal year ending June 1, 1915, but not near so much as is the case in other postoffices. There is a slight decrease of over \$100, but this is not considered as much owing to the war and depress-ed conditions.

ed conditions.

Since the war started there have been few if any foreign money orders and this can be attributed for part of the decrease. Financial conditions in and around Anderson is also responsible since the mail order business has fallen off to a certain extent.

The receipts for the year ending June 30, 1914 in the Anderson post-office were as follows:

Total... \$35,226.61 This shows a total or over \$35,000 business' transacted through the Anderson branch. This year, the receipts are just a little less than last.
