MATTERS UP BEFORE COUNCIL YESTERDAY

USUAL ROUTINE BUSINESS TRANSACTED IN REGULAR ORDER

PETITIONS HEARD

Several Petitions Were Presented—Hydrants are to Be Established on Several Streets.

The regular meeting of city council yesterday afternoon was a busy one, several matters coming up for attention.

Mr. Willie Marsall appeared before the body and asked that the city accept a deed for Brooklyn avenue, a new street leading from West Whitner street near the street car shed. It was stated that this street was about 100 feet long, 25 feet wide, had sewerage and that four houses had been built. A motion was made and passed that the deed be accepted.

A representative of the Studebaker company appeared and explained to the members the street flusher, which the city is contemplating buying in order to keep the paving clean. Owing to the fact that Mr. King, chairman of the sanitary committee was out of town, no action in regard to purchasing the flusher was taken. The price of the machine is \$900 and in cities where they have been used, it is stated that they save a great deal of money.

A petition was read asking that Crayton street be curbed and drained. After discussion a motion was made and passed that this work be taken up in the regular order.

The water and light committee suggested that hydrants be established on following streets: corner Fant and Franklin street, on Hampton street, one on Kennedy street, on Cleveland avenue, Monroe street and Kelly street. A motion passed to effect that these hydrants be established.

Mr. Carter called attention to the way B street was drained which now causes water to flow down it doing much damage after heavy rains. He suggested that a drain on Glenn street across B street be fixed in order to remedy this condition. It was decided to refer this matter to the city engineer.

"THE ROSARY" THURSDAY.

Will be Shown Bijou Theatre For Benefit Catholic Church.

The "Rosary" is as good as any sermon; and as produced in this seven reel Red Seal Selig feature, it is superb. The acting is beyond comparison; it has wonderful scenic equipment, and gorgeous lighting effects. "The Rosary" is a production that is commended by those of every religious faith.

The story is as follows:

Bruce Wilton has amassed a fortune which he lavishes on his wife, Vera. Their household is a happy one but into it creeps a note of menace. No one hears it at first save Father Kelly a priest, the former tutor of Bruce. Quietly he goes to work with his sharpened mental sense to find the person who is causing the adverse influence in the household.

Almost on the verge of discovering the cause, calamity descends on Bruce Wilton. His fortune is swept away and in such a manner that he believes that his wife was the cause of his ruin.

Husband and wife are separated, the home is destroyed, and yet the cause of all this disaster is unknown.

But Father Kelly, with a faith that moves mountains, goes on quietly, secretly, confidently with but one purpose in view, the happiness of those he loves.

He solves the mystery and lets the white light of truth into the minds of those that have been darkened by evil.

More than this, he finds the one who has caused all the misery and restores the home.

Be sure to see this masterpiece in motion picture plays Thursday, especially as it is given for the benefit of the Catholic Church.

T. A. CAMPBELL WAS REELECTED OFFICER

RECOMMENDATIONS BOARD OF HEALTH ACTED UPON

City Engineer Will Investigate and Attend to Other Matters Suggested.

At the regular meeting of city council yesterday afternoon the recommendations submitted by the board of health a few days ago, to the effect that Thomas A. Campbell be re-elected health officer for another year; that the manhole on Tribble street near the substation of the Southern Public Utilities company is offensive and that the city engineer be instructed to look into the matter and correct same and also a petition, signed by J. C. Pressley and James B. Earle, proprietors of the St. James hotel and others, in regard to the stagnant water standing on the vacant lot adjacent to and on the east side of the hotel, were taken up and acted upon.

In regard to the first recommendation a motion was made that it be accepted and that Dr. Campbell be re-elected and passed.

The matter of the vacant lot next to the St. James hotel was also referred to the city engineer, council suggesting that he have dirt from the street grading hauled there in order that water will not stand there after rains.

FIRE AT TEXAS OIL COMPANY'S PLANT

Damage Was Very Small But Might Have Been a Very Disastrous Fire.

The fire department was called to the Texas Oil company's plant to extinguish a blaze that had started in the battery box on the gasoline engine which is used to operate the pump. Damage done amounts to about \$25.

Due credit must be given to the firemen for extinguishing this blaze so quickly. Owing to the fact that the shelter over the engine and pump was saturated with oil, the flames spread quickly and in a short time a ladder which was extended over one of the large reservoir tanks nearby by burning. The burning of the saturated wood caused much smoke to arise and because of this and the fact that it was in such a dangerous place, great crowds rushed to the scene of the fire. All were loud in their praise of the noble work of the firemen.

A Correction.

In the article in yesterday's issue regarding the Anderson Cotton Mills it was stated that the spinners and carders had been on a strike. This was a mistake. It should have been the weavers and the carders for the spinners had nothing whatever to do with the affair.

NEGRO WOMAN MEETS SUSPICIOUS DEATH

Evidence Point to Poison—Stomach Sent to Clemson College for Analysis.

Marla Walker, a negro, died very suddenly on Monday night and circumstances surrounding her death have caused an investigation out of which serious complications may arise.

Dr. Pruitt was summoned on Monday night to give her medical attention and found her in great pain, death resulting soon after his arrival.

It seems that the negro woman had been out and went home about 11 o'clock and soon afterwards was taken seriously ill. She had a bottle of well known patent medicine in the house and her husband went to the well to get some water. It is not known whether she took a dose of the medicine but it is known that she drank some water. She rested easily for a short time and then became convulsed with pain. She rushed to the porch to get some fresh air, where she fell and remained until she died.

Dr. Pruitt stated that death came as if it was caused from poisoning and yesterday morning he got Coroner Hardin to go with him to the home of the dead negro. A jury was impaneled and two physicians made an investigation. No inquest was held but the doctors cut the body open and sent the stomach to Clemson College for analysis. Although there were no certain evidences of poison it was thought best to have the stomach sent off for analysis. Nothing definite will be known in regard to the case until a report is received from the college laboratories.

And for the balance of the afternoon after about an hour's intermission after dinner, will be devoted to singing. Come and bring a well filled basket and don't forget the old song books.

I felt nervous, tired easily and had dizzy headaches. My kidneys acted irregularly, and sometimes black spots came before my eyes, obliging me to catch hold of a chair to keep from falling. I read about Doan's Kidney Pills and got a box at Evans' Pharmacy. They brought very pleasing results."
