

Operation Not Needed

Mrs. W. A. Barnes, who lives in Ballard, Calif., has sent to the Pinus laboratories a very strong endorsement of Fruitoia and Traxo. In her letter, Mrs. Barnes says: "Doctors say gall-stones cannot be cured without an operation, costing much money as well as unnecessary suffering. I am cured, I know, and this is proof positive, and my friends know that such is the case."

CALOMEL IS MERCURY! IT SICKENS! ACTS ON LIVER LIKE DYNAMITE

"Dodson's Liver Tone" Starts Your Liver Better Than Calomel and Doesn't Salivate or Make You Sick. Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work!

Cox and Miss Annie Cox have returned from a visit to Mrs. M. C. Monroe in Spartanburg.

Card of Thanks. We wish to ask our good friends and neighbors to accept this as our personal thanks for their kind help and sympathy during the recent illness and death of our little son. We know there are good people in the community and we take this method of expressing our appreciation of their goodness. Mr. and Mrs. C. O. Cothran.

TWO BIG BARNs WERE DESTROYED BY FIRE

W. K. GLENN LOST BUILDING AND CONTENTS LAST NIGHT LOSS NEARLY \$5,000

Burned About 9:30 P. M.—All Farm Implements Destroyed—Origin Unknown.

Fire of unknown origin last night shortly after 9 o'clock completely destroyed the two large barns and contents, consisting of farm implements, wheat, oats, corn, cotton seed hulls, stover and other feedstuffs, belonging to Mr. W. Keith Glenn, five miles west of the city. Four hogs, three shoats and probably two cows were also burned. The loss is estimated to be between \$4,500 and \$5,000. There is insurance to the amount of about \$2,800, which leaves a net loss of approximately \$2,200.

Both barns were filled with feedstuffs, consisting of about 600 bushels of oats, about 100 bushels of corn, 500 bales of straw, 20 tons of stover, 5 tons of hulls, some cotton seed meal, about 150 bushels of wheat and other stuff. Mr. Glenn stated last night that he did not know whether the two cows were burned or not. He left them in the lots and they might have been in the hallway. They could not be found up until 11 o'clock. The hogs and shoats were in the upper barn and it is known that they were burned.

Yesterday evening about 7 o'clock Mr. Glenn went to the barn and milked the cows. While he was there two of his colored laborers came and got two mules out of the barn and Mr. Glenn stated last night that he did not know whether he or the negroes were the last to leave the barn. After going to the house he ate supper and went out on the front porch for about an hour after which he went to bed, which was between 8:30 and 9 o'clock. He stated that in a very short time he went to sleep and had been sleeping for about 20 minutes when he was awakened by his wife who said that she heard a terrible roaring. He rushed to a window looking out toward the barns and saw that the upper one, which is in a blaze. By the time he could get about 100 yards from the house, was back around to the door and out in the yard the lower building was burning also.

The upper barn was 60 by 60 feet and was three stories high; the lower one was 60 by 70 feet and was two stories high. The flames caused a great heat and if the wind had not been from the west, blowing from the house, Mr. Glenn's dwelling would also have been destroyed. The automobile shed was also nearby but this was protected by buckets of water being thrown upon it. Luckily all of Mr. Glenn's mules were in the pasture and also several cows and hogs. During the summer months he turns his live stock in the pasture and it was nothing unusual for them to be there last night.

Mr. Glenn stated that he did not know how the fire started but he did not suspect it being of incendiary origin. He is one of the most modern farmers in this section and all of his farm implements and machinery were of the latest models. Three years ago Mr. Glenn also lost a big barn by fire at which time eight mules and three horses were burned. He was unable last night to estimate his loss very closely but thought the above figures were about correct.

BEGIN REMODELING IN ABOUT TWO WEEKS

Announcement Was Made by G. H. Bailles Yesterday Regarding P. & N. Station.

"The work of remodeling the store room now occupied by the Piedmont & Northern ticket office will start in about two weeks," stated Mr. George H. Bailles, owner of the building yesterday. "The work will be done by the day," he continued, and Mr. De Witt Masters will be in charge. The brick have been on the ground for some time, and we are now waiting on the terra cotta. It will be remembered that some time ago it was announced that this room was to be remodeled and a new front put in. The front will be of red brick trimmed in terra cotta and will be in keeping with the other store rooms in that section of North Main street. In addition to this the floor will be raised and the roof also raised. It is not known just yet what the details of the plans of arranging the interior by the Piedmont & Northern are.

HAVE MADE 2,500 BARRELS OF FLOUR

Since Mill Started Operations—To Have Name of Breakfast Food Copyrighted Soon.

Since the Burriss Milling company began operations seven weeks ago they have ground enough wheat to make 2,250 barrels of flour, practically all of it coming from Anderson county, small turns coming from Pickens, Abbeville and Greenville counties and some from Hart county, Ga. Estimated at \$6.00 per barrel this means that \$13,500 worth of wheat has been raised by the farmers in this section.

Every since operations began there has been enough wheat ahead at the mill to keep it running for two weeks and this is the case at the present. In all about 355 turns have been brought to the mill. Mr. Burriss stated yesterday that he was going to have one or both of the names, "Wheatlets" or "Wheat Meal," copyrighted for the breakfast food he is now putting on the market, which is whole grains of wheat ground into a meal substance. He says that the demand for this food is increasing daily and that he thinks it is the thing that many people have been desiring for some time as a breakfast food. At present the product is being done up in ten pound paper sacks. Mr. Burriss also stated that the meal made at his mill was selling rapidly and that only recently he had ordered new machinery to wash the corn before it is ground.

In Memoriam

On Friday, August 20, the death angel entered our home and took from us our little boy, aged four years and four months. The bright light from our home was extinguished but our imagination portrays this light shining still brighter through a mist as a beacon to us. He was sick only five days with the fatal disease, diphtheria. He was buried the following day at Friendship Baptist church, Rev. E. S. Reaves conducting the exercises. It has pleased God to take our little Dorris and we try to bow in submission to His will, hoping that above in that heaven of love we will kiss his sweet face as of old. In memory of our only child, C. O. Cothran and Wife.

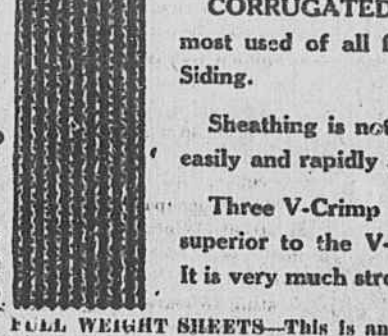

Smith's Good Luck. She—Dancing is fine for people, don't you think? He—Yes; it exhausted Smith's wife so that she's gone into a sanitarium for a year.—Judge.

THROUGH WORK.

How an Anderson Citizen Found Freedom From Kidney Trouble. If you suffer from backache—From urinary disorders—Any curable disease of the kidneys. Use a tested kidney remedy. Doan's Kidney Pills have been tested by thousands. Anderson people testify. Can you ask more convincing proof of merit? Mrs. E. C. Hodges, 1120 S. Main St., Anderson, says: "I had a severe pain in the small of my back with other kidney ailments; it was only with great difficulty that I could do my housework. I had bad dizzy spells. Doan's Kidney Pills, that I got at Orr, Gray & Co.'s Drug Store, relieved me as soon as I took them and two boxes cured me. I am today in fine health." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hodges had. Foster-Milburn Co., Props., Buffalo, N. Y.

Galvanized Metal Roofing and Siding Material

Modern progress demands more and better buildings. As good timber becomes more scarce and masonry more expensive, naturally the investigative mind is looking for a better and more economical building material that not only will give the maximum of protection at a minimum cost, but will also carry with it those additional features desired in such buildings, but lacking in so many of the materials being used at the present time. This has led to the introduction of Metal Roofing and Siding Materials, as high grade building products worthy of the most favorable consideration.

CORRUGATED SHEETS are the strongest and most used of all forms of Sheet Metal Roofing or Siding. Sheathing is not essential; Corrugated Sheets are easily and rapidly applied. Three V-Crimp Roofing Sheets are very much superior to the V-Crimped Roofing generally sold. It is very much stronger and much less liable to leak. FULL WEIGHT SHEETS—This is an important feature and a decided advantage to every user of roofings. Many unscrupulous manufacturers have put on the market products very much lighter than standard weights. The results have been unsatisfactory service, and criticisms of Metal Roofing and Siding. In the purchase of this material QUALITY IS OUR CHIEF AIM.

SULLIVAN HARDWARE CO.

Anderson, S. C., Belton, S. C., Greenville, S. C.
