## SUGGESTS HAVING A SMALL COUNTY FAIR

BUSINESS MAN OF CITY GIVES HIS IDEA ABOUT IT

## IS A GOOD ONE

Each Merchant Build Small Booth in Front of His Store for Display of Country Produce.

One of the leading business men of the city has suggested that Anderson have a regular old time county fair this fall and the idea is not a bad one either. The plan for the arrangement of the booths for displays is worthy of mention and one that the merchants of the city ought to take a great deal of interest in and lend their help as well.

It was suggested that every merchant in the city build a small booth on the sidewalk in front of his store and offer it for the display of some specified country produce. These booths could be built with very little cost and would at the same time be a good investment for the merchant. One store could have a booth for corn, or one variety of corn, another for cotton, another for chickens, etc. There would have to be several for the different kinds of country produce and in this way each merchant would be given an opportunity to have one in front of his store.

Seats could be placed around the county court house where the people could go and see and talk. If horse racing was desired, probably that could be held in North Anderson.

It was also suggested that vacant lots in the rear of the stores could be used for places for cattle to be shown.

The idea is to get all the people together and let them have a good time, yet at the same time an opportunity would be given the farmers to display their produce.

This idea is certainly worthy of mention and one that the business men in the city should take hold of and materialize.

**Open Air Services.**  
There will be open air services at Sunset Forest, Mr. Freiwel's home west of the city, this afternoon at 4 o'clock. Dr. E. M. Potest, who will fill the pulpit at hotel services at the Baptist church today, will preach. It is a regular custom to have open air services at Sunset Forest every summer and everybody is cordially invited.

## INQUEST MAY BE HELD OVER DEAD BODY TODAY

NO ONE WAS ABLE TO IDENTIFY NEGRO'S REMAINS YESTERDAY

## STILL IN MORGUE

Injured Negro at Hospital is Doing Nicely—Still Knows Nothing of Affair.

The body of the unknown negro who was killed by the Piedmont & Northern car near Williamston on Friday night is still in Tolly's morgue. Yesterday it was viewed by several but none were able to identify it. It was not known last night whether an inquest would be held or not, but the motormen and the conductor who were on the car are coming to Anderson this morning and probably one will be held. If not, his body will be turned over to the county for burial.

Henry Jones, the injured negro who was taken to the county hospital, was reported as getting along all right yesterday and it is thought that he will be out in a few days. He acts that he does not live anywhere in particular but that for the past few months he has been traveling with a band, which recently has been in Greenville. Dr. J. L. Gray, who attended to his injuries, stated yesterday that he thought from what the negro told him Jones must have been a member of a gypsy train. Jones denies knowing the dead negro and does not know why the two of them were sitting on the track.

## WILL TEACH VIOLIN ANDERSON COLLEGE

MR. WEBB VON HASSELN OF THIS CITY HAS BEEN ELECTED

## TO HAVE STUDIO

At College and Will Also Teach Pupils Who Are Not Students at the College.

Mr. James P. Kinard, president of Anderson college, yesterday announced that Mr. Webb von Hasseln had been elected and had accepted to teach violin at the college this year. Dr. Kinard's announcement follows:

"Anderson College is fortunate in securing Mr. Webb von Hasseln to teach violin at the college this year. Mr. von Hasseln is an Anderson boy, who has spent several years abroad, perfecting himself in what is probably the most perfect of all musical instruments. One year Mr. von Hasseln spent at Prague, under the distinguished violinist and teacher, Professor Suchy, of the Royal Conservatory. A part of the time he was under Professor William Doenges, formerly of the University of Breslau, now first violinist of the New York Philharmonic orchestra. Mr. V. Hasseln has himself been connected with some of the best orchestras in Europe and America. He will have a studio at Anderson college. In addition to the college students he will be glad to have students from town.

Mr. von Hasseln's many friends will be delighted to know that he has decided to locate in his native city, and to lend his talent to helping to build the department of Anderson College.
