# SAVES DAUGHTER

Advice of Mother no Doubt Pre vents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months.

I cannot tell you how I suffered with my head, and with nervousness and womanly tro-bles.

Our family doctor told my husband he could not do me any good, and he had to give a up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardel is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

Anderson Gas Co

London, Aug. 12.—(By Mail.)— The finest traveling hospital in the Known as the "Princess Christian Hospital train", it was built from subscriptions solicited by the sister of the late King Edward, who provided a similar equipment, though smaller during the Bose was smaller, during the Hoer war. Every requirement necessary for

the care of 400 desperately wounded soldiers is provided in eight coaches of the 700 feet conveyance. Six additional carriages provide lounging quarters for the sick and slightly wounded on their way to base hos-pitals from the front. Several coach-es are equipped with beds, a kitchen, lockers; hot and cold water and electrie and gas appliances including ilumination.

Another affords sleeping accommo-dations for nurses and doctors while another is a complete operating room. Hundreds of details throughout the moving hospital are supplied from the latest knowledge of hospital and surgical supplies. If neces-sary it can be sidetracked at an isolated waystation near a battle front nd be employed as a stationry hospital.

I foint committee of the leading railways of France and England su-perintended the construction of the train at Birmingham.

Much has been said of the famous American hospital of Paris but lit-tle is known of the "American Hospital of London."

In three Duchess of Connought's Ca-

nadian Red Cross hespital at Cliven-don Wood, on the Thames, scores of nurses and 42 doctors from Canadi-an and American cities care for the Canadian "Indians" as they come wounded and torn from the battlefields across the channel. There are tennis, golf, billiards and quoits for the convalescent and the true Cana-dian idea of food, fresh air and laughter to condition the wounded men again for the ever-raging struggle fro mwhich they came. Patients are fed on fresh eggs, plump chickens and pam and biscuits direct from Canada. They are given the open air treatment as soon as possible, and most any day can be found a fleet of rolling beds flanking a football field nearby, where simon pure Canadian football is the order.

The new hospital, which is being enlarged to care for 500 patients, is regarded as a model of hospitals in England. It is equipped with light, alry operating rooms, medican and surgical stores, labratories and x-ray room,s embracing all the latest in

nedical science. "It makes you homesick for Can-ada" said one Canadian recruit to-day. He got it in the leg in France and with two crutches he war play-ing football, his chief desire being o kick the ball with his injured leg.
