OPERATIVES ON STRIKE AT THE BROGON MILLS

FOLLOWING NOTICE POSTED BY MANAGEMENT ON MONDAY

NO STATEMENT

For the Press From the Management and Operatives Have Not Much to Say.

Yesterday morning the operatives at the Brogon mill failed to go to work at the usual hour and all of the machinery in the mill was idle all day yesterday.

Monday afternoon the management of the mill posted a notice reading as follows on the premises.

"Notice is hereby given that the Brogon mills will shut down for an indefinite period for the purpose of curtailment beginning on Monday, September 27, 1915.

Signed, "Jas. P. Gossett, President and Treasurer."

"C. W. Causey, Superintendent."

Yesterday afternoon the management of the mill stated to a reporter of The Intelligencer that for the present they had no statement to give to the press except that the above notice had been posted.

Sometime during Monday night it is supposed that the operatives held a meeting and discussed the advisability of going on a strike.

Yesterday morning the operatives failed to go to work and when the superintendent of the mill appeared he found every door leading to the mill guarded. At first the guards tried to prevent his entrance but after talking with them for awhile his argument prevailed and he entered the mill. Later one of the employees in the mill office came to go to work but he was refused entrance. He went around to all of the doors but failed to be admitted to the interior. He then went on up to the company's store where he remained until Sheriff Ashley appeared. He asked them not to attempt any violence and that they allow the superintendent to go into the mill alone. This was done and everything was quiet yesterday.

Some of the help state the trouble has grown out of the discharge of some of the employees. About three weeks ago, it is stated, an employee was discharged because he advocated another employee joining the labor union. Later a committee of three waited on one of the overseers and asked that this man be reinstated.

Later, it is stated, the members of this committee were discharged for interfering with the management of the mill.

Later a committee called on the superintendent and asked that the men be re-instated. Yesterday the help stated that a lady representative of the American Federation of Labor had come from New York to investigate the discharge of the men. The help also declared that by striking they were doing what they considered right and were only trying to get what they thought just and reasonable.

The Brogon mill carries approximately 575 on their pay rolls and about 2,200 are affected by the strike.

It is supposed that the Brogon mill, like many other mills in the United States which manufacture colored goods, is short of dyestuffs and intended a close down for awhile in order to make the dye last over a longer period. Many other mills in this country are doing this although they have a limited supply of dyestuffs on hand.

MR. SOL LESSER HAS RETURNED FROM NORTH

PREDICTS BIG BUSINESS FOR MERCHANTS OF SOUTH

Mr. Sol Lesser returned yesterday afternoon from New York, Boston, Philadelphia, Baltimore and other eastern points where he and his wife have been buying fall and winter goods for their big store.

Mr. Lesser reports a very successful trip and like all the other buyers who have returned, he states that every jobber and manufacturer that he met and talked with anticipates a great big business for the South this fall and winter. "You would be surprised how well they are informed on conditions in the South."

"The market on woollens, shoes and high grade cotton goods, which have been affected by the high price, or the want of dye-stuffs are very stiff indeed; prices on these three very important items of wearing apparel are higher than they have been for several years and they promise to go higher. We were lucky enough to get our fall stock bought without any increase in prices. In fact, we have some awful good values bought in heavy clothing and shoes particularly, values that could not be duplicated even now."

Mr. Lesser contracted a very severe cold on the steamer between New York and Boston and was detained a few days up there on account of it, but he is home now, and himself again.

Mr. Lesser says that he looks for a big and prosperous fall's business this year for the merchants of Anderson.

Big Majority for Drys In Anderson County

29 OUT OF 47 PRECINCTS GIVES 1,423 FOR, AND 652 AGAINST

LITTLE INTEREST WAS MANIFESTED

Estimated That Only About 25 Percent of Voters in County Cast Their Ballots.

Returns from 29 out of 47 boxes in Anderson county last night gave state-wide prohibition 1,423 votes as compared with 653 for local option.

This makes a total of 2,075 votes cast at 29 boxes and since these boxes poll the greater number of votes, there will be no material change in the ratio of the vote in this county.

As will be seen from the above figures, the vote in Anderson county yesterday was exceedingly light. It is estimated that only about 25 per cent of the voters cast their ballot, since in the election last summer this county polled approximately 9,000 votes.

Little interest was shown at all of the precincts heard from and everything passed off quietly. Last night frequent calls to The Intelligencer showed that a great many people, however, were interested in the outcome of the election.

The ballot box for the city of Anderson was located in the court house and at times everything was very dull with the managers. Only 334 votes were cast, 299 for, and 35 against state-wide prohibition.

The tabulated vote from the 29 precincts returned in the county is as follows:

Precincts	Pro.	Anti-Pro
Williamston	55	22
Williamston mill	18	32
Belton mill	48	55
Orr Mill	6	16
