**Opening Exercises Held Yesterday**

**ANDERSON COLLEGE HAS BEGUN ITS FOURTH SESSION ENROLLMENT HAS A BIG INCREASE**

Several Speeches Were Made and Opening Exercises Were Well Attended.

Anderson college began its fourth year yesterday morning at 10 o'clock with appropriate exercises held in the college auditorium. There was a large number of visitors present at the opening.

The exercises were begun with the singing of the hymn, "Holy, Holy, Holy," which was followed by prayer, offered by Dr. W. H. Frazer. Miss Stranahan then rendered a piano solo.

Dr. James P. Kinard arose and before introducing the first speaker called attention to the fact that owing to the death of Dr. Howard Lee Jones, both Dr. John E. White and Dr. Z. T. Goddy of Greenville had been called to Hartsville to assist in the funeral exercises, and, therefore, could not be present at the college as was intended.

Mayor Godfrey was then introduced and in behalf of the city at large welcomed the former students, return and the new students to Anderson, as well as the members of the college faculty. The mayor's speech was followed by a selection on the piano beautifully rendered by Miss DeVarne. Speeches of welcome, congratulations and encouragement were then made by Capt. H. H. Watkins, chairman of the board of trustees; Mr. R. S. Ligon, chairman of the executive committee of the board and Mr. C. S. Sullivan, trustee.

Congressman Wyatt Aiken was in the audience and was called to the rostrum. Mr. Aiken stated that he considered Anderson college one of Anderson's most valuable assets. He stated that you could place a value on the manufacturing enterprises in the city, the railroads, etc., but the value and the worth of the college was inestimable. He stated that the college had at its head in the person of Dr. Kinard one of the greatest educators of the south and complimented the president on his able corps of teachers.

Dr. Kinard then arose and before making his usual announcements referred to the death of Dr. Howard Lee Jones, a former member of the board of trustees. Dr. Kinard stated that Dr. Jones had been a true and loyal friend to the college and had always shown the deepest personal interest in it. He stated that he had sent the following telegram to Mrs. Jones upon hearing of her husband's death:

"The faculty and student body of Anderson College sympathize with you in your great bereavement and with Coker college in the loss of its distinguished president."  
 After the reading of this telegram Mr. R. S. Ligon suggested that Dr. Kinard, Capt. Watkins and Mr. M. M. Mattison be selected as a committee to draft resolutions of sympathy for the loss of Dr. Jones.

Before making this announcement in regard to the work to be begun by the pupils this year Dr. Kinard stated that the college was opening its fourth year with the largest attendance yet, 53 or 54 already having arrived. He stated also that he expected 10 or 15 more within the next few days. He stated that the college expected to enroll about 50 or 60

from the city or nearby points which would bring the present attendance up to about 115. "We realize," stated Dr. Kinard, "that in order to have a healthy growth, the college must grow slowly. It would not be the best thing for the college to spring up in a hurry but by growing slowly it will develop prominence."  
 Dr. Kinard then called attention to gifts received by the college during the past year:

During the early fall the ladies of the College association secured through the efforts of Mrs. A. L. Smethers a new and complete copy of the International encyclopedia which was presented to the college.

A beautiful stage curtain was presented last spring just before commencement by Mr. C. S. Sullivan. The Winthrop chapter of Anderson had presented four large illustrated volumes dealing with English literature.

Dr. Kinard stated that the college needed an endowment fund now more than anything else since these were necessary to cope with the state institutions in giving scholarships. He stated that the people expected a college to give scholarships and that Anderson college ought to be able to give some. He also stated that a few of the girls had been able to borrow \$100 through friends and the college to help them defray their expenses. He stated that there were several more now who would like to be assisted in this way and that if anyone wanted to help by loaning these girls money it would be appreciated.

Dr. Kinard stated that the cooperative system of government which worked out so well last year would be used again this term. He called attention to the need of the college of an Edison or Victrola machine, which would enable the girls to spend some of their recreation hours pleasantly.

This year chapel exercises will be conducted at 9 o'clock instead of 11 as was done last year. He stated that all students along the interurban could reach the college by 9:20 in time for the first classes and that this was the reason the change was being made. All students living in town will be required to attend the exercises on the mornings that they have classes immediately after chapel.

The president called attention to the music department of the college stating that they were prepared to give lessons in this department to anyone desiring to take; it makes no difference whether they have other work at the college or not. The department is prepared to take beginners and will have their hours arranged so that it will not interfere with their school work in the graded schools. The domestic science department has also been developed to a great extent and a two hours class will be held once a week for the ladies in the city who wish to take.

Dr. Kinard called attention to the lyceum course which the ladies of the college association were at work on. He stated that nearly enough tickets had been sold to warrant the course.

Dr. Kinard's announcements were followed by a recitation by Miss Guerry, the new expression teacher. Mr. Webb von Hasselt then rendered a selection on the violin which was enclosed so much that he had to respond with another. He was accompanied on the piano by Miss De Varne.

The exercises came to a close by the singing of the hymn, "God the Father," and the benediction pronounced by Rev. J. M. Garrison, D. D., pastor of the Associate Reformed Presbyterian church of this city.

**HELD A CONFERENCE IN CITY YESTERDAY**

**PASTORS OF ANDERSON DISTRICT MET AT ST. JOHN'S**

**WELL ATTENDED**

By Ministers and Laymen of Various Churches—Getting Ready For Their Annual Report.

An important meeting of the pastors and laymen of the different churches in the Anderson District of the Upper South Carolina Methodist conference was held yesterday morning at 11 o'clock in St. John's Methodist church, for the purpose of talking over affairs pertaining to the winding up of the church affairs of this year.

The meeting was presided over by the Rev. T. C. Odell, presiding elder of the district. The attendance was rather large and nearly all of the churches were represented.

It is now only ten weeks until conference and the ministers in this district are very anxious to straighten out some affairs in the churches so that the reports may be made out as soon as possible.

The meeting was in session until 1:30 when it adjourned.

**Discovered New Comet.**  
 Chicago, Sept. 16.—John E. Mellish, who already has discovered and given his name to three comets at the Yerkes observatory, has found another brand new sky wanderer with a bright nucleus and a crooked tail. Mellish is a Wisconsin farmer boy who taught himself astronomy, made his own lenses and telescopes, and now makes lenses for the great observatories everywhere.

**ANDERSON CONCERN PLACES BIG ORDER**

**LOCAL COCA-COLA COMPANY ORDERS 72,000 BOTTLES**

**GERMS ARE KILLED**

**The Plant in This City is Very Sanitary—Is Doing Big Business in This Section.**

Talking about bottles, what do you know about one concern placing an order for 500 gross—72,000—bottles at one clip. That's exactly what Capt. R. J. Famer of the local Coca-Cola Bottling company did yesterday. And this is not anything like all the bottles that is required for this enormous soft drink business in the course of a year. As a matter of fact, it takes three or four carloads of bottles to meet the demands of the business during a twelve month.

Representing the Graham Glass company, with general sales and executive offices in Evansville, Ind., Mr. Charles J. Hoffman yesterday closed a deal with the Coca-Cola Bottling company for this big order of bottles. The concern has factories at Evansville, Ind., Logansport, Ind., and Okmulgee, Oklahoma. The concern turns out an exceptionally handsome piece of goods and one of splendid quality.

Speaking of the soft drink business generally, it is surprising to the average layman to view the scale on which this industry is carried on in this city. The local coca cola company serves all of Anderson county with

**Came to Her Rescue**

From her home in Mountain Park, Oklahoma, Mrs. O. A. Strange writes to the Pinau laboratories:

"I am taking Fruitoia and Traxo for gall-stones with good results. If it had not been that it came to my rescue, I would have been dead I am sure. I cannot say too much for Fruitoia and Traxo.

Fruitoia possesses properties that act directly upon the intestinal parts. It is a great system cleanser, softening the congested waste and disintegrating the hardened particles that cause so much suffering, and quickly expels the accumulation to the intense relief of the patient. Traxo is a tonic alternative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion and removes bile from the general circulation. It serves to build up and strengthen the weakened, run-down system.

For the convenience of the public, arrangements have been made to supply Fruitoia and Traxo through leading druggists. In Anderson they can be obtained at Evans' Pharmacy, three stores.

the exception of a small strip adjacent to Greenville county and all of Oconee county with the exceptions of the towns along the main line of the Southern Railway running through that county.

An inspection of the local plant is a thoroughly interesting experience and well worth the time one might devote to viewing the workings of the business. Absolute cleanliness and quality seem to be the watchwords the local company makes use of in its business, and one is certainly convinced of the cleanliness of conditions under which the industry is carried on after an inspection of the plant. As to the quality of the goods bottled here, it is universally conceded that there is none better in the country. A detailed explanation of the manner in which soft drinks are bottled at the local coca-cola plant would be too lengthy for a newspaper article, and besides, a personal inspection of the plant in operation would be better, for then facts will be impressed upon

one in more forcible way. One can rest assured, however, that if there is a germ or a microbe in a bottle after it passes through the cleansing process, there is no hope of ever perfecting a sterilizing process. If the cleansing process in use at Capt. Ramer's place doesn't kill all the "bugs," then a German siege gun, turned square upon one and rammed with a full charge, wouldn't kill said "bug."

**To the Public.**  
 "I feel that I owe the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy a word of gratitude," writes Mrs. T. N. Witherall, Gowanda, N. Y. "When I began taking this medicine I was in great pain and feeling terribly sick, due to an attack of summer complaint. After taking a dose of it I had not long to wait for relief as it benefited me almost immediately." For sale by all dealers.

**Monday, As Usual, Will Be a Big Day Here**  
**Read These Values, and You'll Certainly Be Here, Too**

**THE NEW FALL SUITS**  
 This will be a "suit season" as foretold by fashion experts and already proved by the extraordinary demands for suits noted here.
