## ALLIES MAKE PROGRESS ON ALL FRONTS

### FRENCH TAKE MORE GERMAN GUNS AND PRISONERS IN CHAMPAGNE

### ALLIES HOLD ALL GROUND GAINED

### Russians Straighten Line By Counter Attack Against Von Hindenburg.

London, Oct. 1.—Progress for the allied troops in Giverny wood, the capture of additional German guns and prisoners in Champagne, the stopping of the German bombardment in Argonne by French counter offensive and gains in the regions of Neuville and Artois, according to French announcements, mark developments in the situation on the western front tonight.

Field Marshal French announced no change on the British front. Virtually all ground gained by the allies is held. The French declare the Germans used shells in Champagne which emitted gas causing the eyes to water.

Except in front of Drinsk and in Volhynia where the Germans claim progress, Berlin admits the Russians are on the offensive. The Russians, in counter attacking von Hindenburg launched at Minsk from the north-west, succeeded in nearly straightening out their line from north to south.

The growing belief that Bulgaria has joined the Teutonic powers and that the Anglo-French and Russian troops will assist their Balkan friends is engaging diplomats.

The Austro-German offensive against Serbia is still undeveloped. Italy has begun an offensive along the Isonzo river against the important Austrian position at Tolmino.

London, Oct. 1.—The French are bearing the brunt of the fighting on the western front. They are hammering at the second German line in Champagne in the direction of the Grand Pre railway and at the same time are dropping bombs on the line and stations to prevent the Germans from bringing up reinforcements.

Absence of news from the British front apparently indicates that these forces are occupied with consolidating their positions in the strip of territory recently won.

The British forces now in France are estimated at a round million, which will be increased by a half million. The daily lengthening obituary columns in London newspapers is beginning to measure the price the British paid for the recent offensive. There is no notable change on the eastern battle front.

Vienna announces that a third Austrian war loan will bear 5 1/2 per cent interest.

Bulgaria has not replied to the suggestion of Greece that she demobilize.

### Further French Attacks.

Paris, Oct. 1.—The French made further progress in a great battle in the Artois region by means of hand grenades through the German trenches, the war office announces. In Champagne a German counter-attack near Meuse was checked. The Germans violently bombarded the French trenches near Soupir, north of Aisne, but made no infantry attack.

### To Protect Two Nations.

Paris, Oct. 1.—The Temps announces that France and Great Britain have already taken military measures to defend Serbia and Greece against Bulgarian aggression.

London, Oct. 1.—General Alexei Kopylov has been appointed chief of the Russian Grenadier corps, according to a Reuters dispatch from Petrograd.

If the Kuropatkin report is true it shows a remarkable reversal in public opinion in Russia regarding the military leader who was disgraced because of the failure of Russian arms in the Japanese war.

## VON PAPEN DRAWN DEEPER IN ARCHIBALD-DUMBA CASE

## CHAMP CLARK PRAISES RECORD OF DEMOCRATS

### SPEAKER HAS CONFIDENCE IN VERDICT OF VOTERS AT NEXT ELECTION

### THINKS WILSON TO BE REELECTED

### Says People Have Absolute Confidence in Pilot of Ship of State.

St. Joseph, Mo., Oct. 1.—Speaker Champ Clark, in a speech at the Democratic state banquet tonight, reviewed the legislative record of the Democratic party and expressed confidence in the voters' verdict at the election in nineteen sixteen.

He said that in the first two years the Democrats passed more constructive legislation than the Republicans enacted in two decades and that the legislation is so good nearly all progressives in congress and many Republicans supported it.

He praised the tariff law and said the income tax feature would never be repealed. He praised the reserve bank act and the anti-trust law. In closing he said the Democrats deserved well of the Republic.

In speaking of President Wilson he declared: "The people seem to have absolute confidence in the pilot of the ship of state and are not likely to drop him overboard in midocean while the storm whips the water into fury."

## GOVERNMENT WINS AGAINST MOVIE TRUST

### U. S. District Court Decides Motion Picture Patent Co. is Monopoly.

Philadelphia, Oct. 1.—The government won its suit against the Motion Picture Patents company. The United States district court today decided the combination was a monopoly in restraint of trade.

The government charges that the Motion Picture Patents company and other defendants were engaged in inter-state and foreign commerce in motion pictures, films, cameras, exhibiting machines, and other articles and apparatus used in motion picture art, in violation of the anti-trust law. A number of producing companies and individuals were named in the charges.

The court in the decision states that all contracts enumerated in the government's petition, and the combination therein described, were a conspiracy in restraint of trade and therefore illegal.

## ATLANTIC FLEET BEGINS ANNUAL MANEUVERS

Washington, Oct. 1.—A heavy line of dreadnoughts and an auxiliary fleet of transport ships at sunrise today attacked the Atlantic coast from Norfolk to Cape Cod.

However, it was nothing to get excited about—just the beginning of the annual naval war game for the Atlantic fleet under the direction of Admiral Frank P. Fletcher.

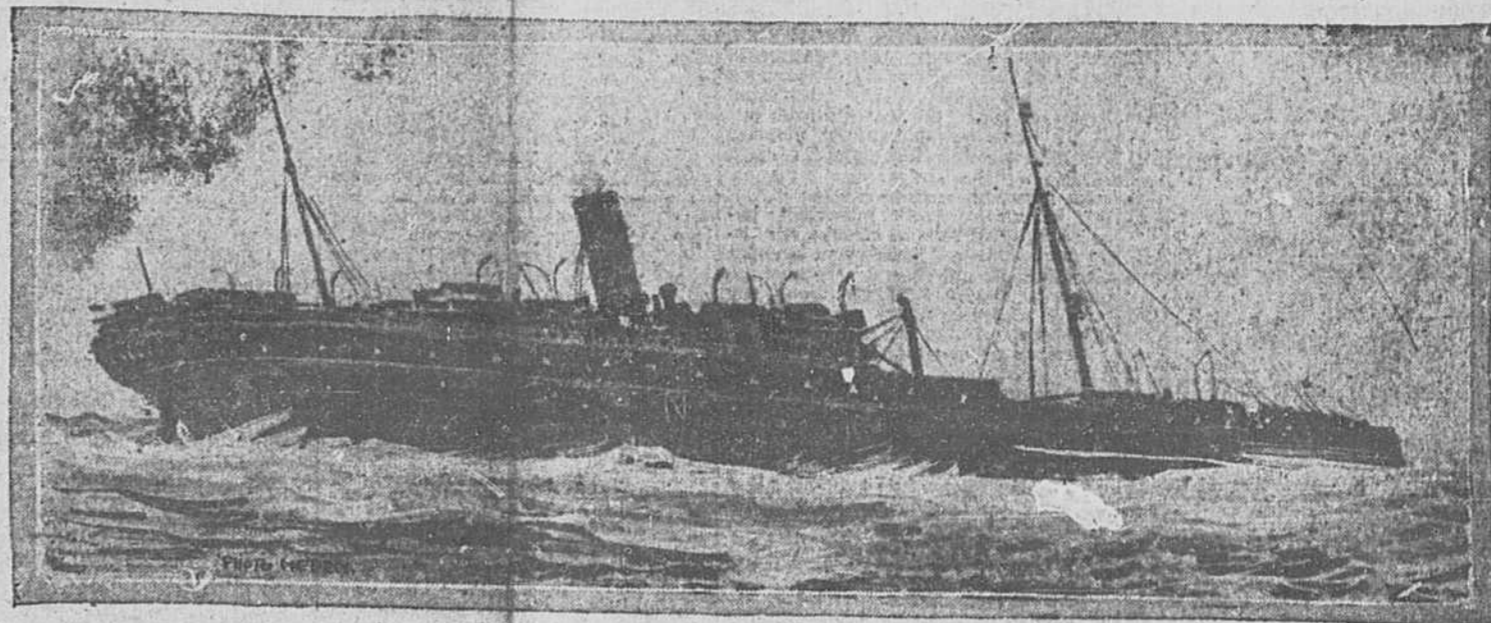

In the coast attack last spring the U. S. navy was badly licked owing to a shortage of swift battle cruisers. The enemy landed on the Virginia coast under cover of a heavy fog and captured Washington with little difficulty.

### Will Be Charged With Disorderly Conduct—Over Thousand at Mass Meeting Held in Court House Last Night.

Columbia, Oct. 1.—More than twelve hundred Columbians gathered in the court house tonight to consider charges against the official record of Mayor Lewis A. Griffith. Hundreds were unable to gain admittance.

An effort to haul down Richard J. Person, who brought the charges, did not go far because a majority was in favor of giving the matter a hearing.

A resolution was adopted by the meeting requesting that the city council take the police department from under the jurisdiction of the mayor.

A resolution was also adopted requesting the chief of police to lodge a charge of disorderly conduct against Mayor Griffith. The disorder is alleged to have occurred in the restricted district of the city. The resolution also asked that the mayor be immediately put on trial.

No mention of a recall election was made at the meeting. It is said that the leaders wish to bring the charges before a court.

## BULGARIA NOW FAVORS RUSSIA?

### King Ferdinand Believed to Have Changed—Crown Prince Recalled as Commander-in-Chief—Mobilization Continues.

Rome, Oct. 1.—Despite a rigorous Bulgarian censorship, The Tribune claims to have dispatches from Sofia stating that the situation has been complicated by an apparent change of front by King Ferdinand. Crown Prince Boris has been recalled as commander-in-chief. A sentiment favoring Russia is reported growing in the rural districts. The Tribune's dispatches assert that mobilization is proceeding under a German staff officer, but will not be completed for another fortnight.

Berlin is reported to have made a promise of 500,000 Austro-German troops to undertake the march through the Balkans to Constantinople. Three hundred thousand Germans are concentrated at Temesvar, Hungary, with 200 cannons, including 50 siege guns, and 50 aeroplanes. They will not be ready to attack for two weeks. It is believed here if the allies send an expedition against Bulgaria it will be landed at Kavala on the Aegean sea. It is said that both the allies and Germanic powers soon will send ultimatums to Bulgaria.

The Carranza agency in Washington announced that three former Villa officers, representing many chiefs of Villa's army, are on their way to Vera Cruz, Incognito, to arrange the surrender of their commands.

Fletcher, cashier, were indicted today on four counts, each charged with perjury in connection with the bank's recent suit against Secretary McAdoo and Comptroller Williams. ## NEW METHOD OF FIGHTING "SUBS"

### British Using Submarine Telephones and Small Boats Equipped With Quick Firing Guns—Many Captured.

Washington, Oct. 1.—A new means of combatting submarines which has been put in operation by England has already resulted in the estimated loss of fifty to seventy German submarines, according to official reports reaching the United States government.

The British admiralty believes it has crushed the German undersea campaign. While the greatest secrecy is thrown around the method employed the United States is informed that a submarine telephone has been developed by which it is possible to detect the approach of a submarine by sound, from observation boats or stations connected with the mainland. Huge nets stretched in sea lanes are also used.

The greatest single factor in the success of their campaign, the British say, is a fleet of small sea going motor boats armed with quick firers, which swarm the British waters.

Aboard the cutter were six men, Frank Reiner, a German, and five Cubans or Mexicans, said to be members of the crew of the schooner Lucy H. charged with the theft of the Ventura.

The Miami overhauled the Ventura off Sand Key where she lay in wait for the Lucy H. bound from Key West for Mexico with a cargo of arms and ammunition.

It is alleged the men intended to transfer the munitions from the Lucy H. to the Ventura. The Lucy H., however, went aground outside the harbor here.

The six will be given a hearing before the United States commissioner tomorrow for the theft of the Ventura on the high seas and leaving port without clearance papers. No action will be taken against the Lucy H., as she cleared.
