BEMI-WEEKLY INTELLIGENCER Published Tuesdays and Fridays

L. M. GLENN.... Editor and Manager Entered as second-class matter April 28, 1914, at the post office at Anderson, South Carolina, under the Act of March 3, 1879.

ABSOCIATED PRESS DISPATCHES

SUBSCRIPTION RATES

DAILY

Six Months

SEMI-WEEKLY

The Intelligencer is delivered by

The intenigencer is delivered by earriers in the city. Look at the printed label on your saper. The date thereon shows when the subscription expires. Notice date on label carefully, and if not correct slease notify us at once. Subscribers desiring the address of their paper changed, will please state in their communication both the old and new addresses.

and new addresses.

To insure prompt delivery, com-plaints of non-delivery in the city of Anderson should be made to the Circulation Department before 9 a. m. and a copy will be sent at once. All checks and drafts should be frawn to The Anderson Intelligencer.

ADVERTISING

Rates will be furnished on applica-

No tf advertising discontinued exsapt on written order.

The Intelligencer will publish brief and rational letters on subjects of general interest when they are ac-sompanied by the names and ad-freeses of the authors and are not of defamatory nature. Anonymous minunications will not be noticed. Rejected manuscripts will not be re-

In order to avoid delays on account of personal absence, letters to The intelligencer intended for publication should not be addressed to any individual connected with the paper, but simply to The Intelligencer.

FRIDAY, OCTOBER 8, 1915.

Wilson's diplomacy is not of the grape juice variety.

Shall we infor from the Colonel's

silence that he is preparing for a general offensive.

The mayor of Columbia would doubtless like to recall the recall provision of the city's commission charter.

The extreme pacifist has his doubt about the Salvatian Army because h fears it will encourage the martia spirit.

-0-Germany having surrendered the last trenct, Woodrow is now turning the diplomatic batteries on Merrie England.

Tennessee is fond of her Rya a Mississippi sticks bravely to her Brower; and yet these are prohibi

As a commercial product cotton seed occupies a position of rapidly increasing value. It has not been so many years since it was regarded as

an outcast by planters, a by-produc of the cotton fields to be throw: away because it served no useful purpose. Cotton seed oil is extensively ver

THE RISE OF AN OUTCAST

n the manufacture of food product It makes an excellent substitute for lard, and in various other forms has invaded the pantry as an indispensable mainstay of the housekeeper. It is sold widely as olive oil. Indeed,

it is hard to distinguish it from the genuine Italian article. Millions gallons are shipped abroad each year

only to come back masquerading un der a more pretentious label. There is no waste in the seed. The

oil, employed by manufacturing product. The meal is a compone

part of commercia! fertilizers, and, together with the hulls, serves at as a nutritious feed for cattle. A

generation ago the total value of the cotton seed crop was somewhere around ten million dollars. Today it is about twenty times this amount. This may sound too much like an academic discussion of something we know all about, but, at any rate, it is interesting to pass common things in mental review occasionally for the

sake of appreciating their value a little more. The history of its rapid rise is as interesting as a romance. It is amusing to read the judgment reached by an old historian soon after the in-

vention of the cotton gin by Eli Whitney. This sage chronicler declared the seed to be a nuisance. He cells of an instance where the seed werthrown out on the ground as so much waste. Hogs ate of it and died. Fin ally, after several attempts to place it where the greedy pigs could no. be harmed, it was dumped into a creek. "There at low water," says the historian, "it soon generated i miasmatic odor, which when the

wind was favorable was so offensive as to create a strong feeling of prejudice against the future culture of the crop."

KICKERS

The kicker has no friends in public, though privately a goodly number of people may side with oim and prod him to further attack. A Canadian judge, however, has placed a wreath on the brow of this much condemned gentleman, and he does it in pretty hefty English, too.

"Much of our law has been made by those insistent upon their rights in trivial matters," says the judge. "and much of the improve.t in public conveniences of all kinds, in cluding railways, steamboats and hotels is due to those who will no. submit to be fobbed off with less than they are entitled to. Such perform a public service of no little value, and

are no less entitled to the thanks of the general public because they are usually called by a somewhat les

dignified appollation than that of Sir William Jones, or because it is seldom that a distinguishing characteris. tic of their names is 'sweetness a light.' I confess to a secret admira-

tion for such, and would wish the there were a more common uprisin against bad air, bad water, poor food

the circuit and a resulting opportunity for more frequent sessions. Before the change was made, ap-

peals from magistrate's courts frequently continued from term to term on the docket without being heard. Such appeals fell to the level of common jokes, and it was very hard t prevail upon a worried judge to hear them. And yet an appeal from an inferior court, say, in Corner township, might be of more local importance

than all the rest of the grist ground out by the court. For instance, with they eventually must, Germany mus the machinery of the court moving at face a rather humiliating situation biockader might be convicted, and at home crippled, her colonial pos these circumstances, the lawbreaker all sorts of distressing conditions. considers himself at freedom to continnue his criminal course, faling that the long arm of the law will be too busy to reach in his direction.

Frequent sittings of all trial courts are necessary to the protection of the rights guaranteed to them by their laws. Speedy justice inspires confidence in the courts and gives to

the people a feeling of security and a thorough respect for the law. A CHANGE OF FRONT

Charleston is to be congratulated on the conviction of a blind tiger for the storing of intoxicating liquors. and it is to be hoped that the City by

the Sea is breaking away from the shameful indifference her juries have felt toward the enforcement of the law in illegal sales of whiskey. The credit for this apparent change of front should, of course, be given

first to the people of Charleston themselves, who perhaps have seen the light at last and are trying to improve the moral atmosphere of their city, but we cannot help but think that Governor Manning's strong and earnest effort to have the laws en-

forced is beginning to bear fruit. Governor Manning has had a hard and trying problem in the enforcement of the law in Charleston against the illegal traffic in whiskey, but he has applied himself to the task in a manly and firm way, and he has the satisfaction of having performed h duty fairly and justly. Perhaps the problem of law enforcement will become more acute, for a while at least.

after the prohibition act goes into force, but Charleston will, we believe, soon wake up to the fact that to command the respect and confidence of the people of the State shy must obey the State's laws as other counties are doing.

The conviction of one blind tiger is a healthy sign of awakening, and we trust that it means the first series break in the line of defense of th violators of the law.

OUTPOSTS OF EMPIRE

The shifting fortunes of the armies in continental Europe have absorbed the attention of the world almost to continent by any means. In Africa: in Asia and through the wide sweep of the South Seas rich rolonies have passed from one dominion to another scarcely not'ced by the world. The storm of war has stripped Ger-

many of her overseas possessions, and

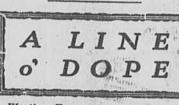

It has been charged by bie allies

has been relieved by a contraction of expansion overseas began after the Franco-Prussian war, but even then the choicest portions of the globe had been occupied by England and France. Germany succeeded in getting a foothold in Africa, in the South Seas and in other portions of the world. The few colonies that she has owned have contributed vast stores of raw material to her manu facturing industries and have swell

mendously. If the Teutonic powers less, as a snail's pace, a blind tiger or a Her ambition stifled, her industries the appeal taken immediately after- sessions striped from her and given wards ties up his case in the higher to her bitterest enemies the problem court almost indefinitely. Under of building anew will be attended by England and France will dominate more completely than they have ever done these outposts of empire, and they will be the nations to reap the rich harvests of immense producing areas in Africa and in other portions of the globe.

ed the volume of her commerce tre-

The British Empire owes much of her greatness to the wealth she has drained in a constant stream from her colonial possessions, and it looks as if the war will leave her in a position of commanding importance as a world power in policics and in trade. The sun will never cease to set on Britls: soil, and the diambeat of British progress will sound louder than even as it leads the captains and cohorts of empire to the uttermost parts of the earth.

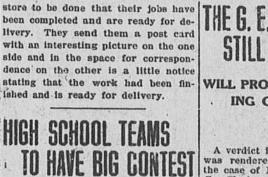

Weather Forecast-Fair Friday and Saturday; continued cooler.

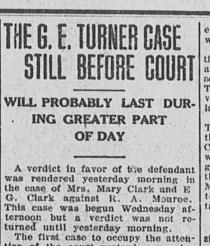

Mr. A. N. Campbell of Belton, R. F. D. No. 2, was in the city yesterday and as chairman of the premium committee of the Anderson County Poultry association was getting up a list of premiums for the poultry exhibit which will be heid November 23-24. Mr. Campbell states that he thought there would be about 500 birds on exhibit and that this show wou'd be much better than the one last fall. He intends to have the exhibit on /South Main street in one of the vacant store rooms. He is planning for Miss Jayne Garlington to give a canning demonstration at the same time.

"You can tell the people that I will be paying \$36 per ton for cotton seed tomorrow morning," stated Mr. A. G. livery. They send them a post card Epting who is in the local market yesterday afternoon.

"That little advertisement I put in The Intelligencer a few days ago about the new adalink, ring has certhe exclusion of every other aspect Mr. Walter H. Keese, jeweler yesterof the war. But the changing lines Mr. Walter H. Reese, John and Brought out-of-town orders besides these that have come in from Anderson. Today in one mail I received five orders for that number of rings and 18 links to go with them from Due West, three orders for that number of rings and nine links from Starr, two orders for what she has lost in the way of trad two rings and eight links from Iva.
