SUCCESSFUL YEAR FOR THE COUNTY HOSPITAL

ANNUAL REPORT SUBMITTED BY R. S. LIGON, PRESIDENT

ELECT OFFICERS

For Ensuing Year and All Were Re-elected—Report is Extremely Gratifying.

The annual meeting of the Anderson County Hospital association was held yesterday afternoon in the county court house and the attendance was good. The reports of the president, Mr. R. S. Ligon, were very gratifying and all members of the association were much pleased.

Officers were re-elected as follows: R. S. Ligon, president and treasurer; W. F. Cox, vice president; Miss Katharine Stelling, secretary.

Trustees re-elected for term of five years as follows: J. B. Townsend, C. D. Sullivan and Mrs. S. N. Gilmer.

Members of the medical staff re-elected for term of three years as follows: W. W. Watkins, H. A. Henry, W. D. Haynie, J. R. Young and J. B. Townsend.

The following report was submitted by Mr. R. S. Ligon: To the Subscribers and Friends of Anderson County Hospital, Anderson, S. C.

Ladies and Gentlemen: I beg leave to submit my eighth annual report as follows: By the mercies of God our institution has had a very successful year in caring for the sick. While we have not been successful in turning all of them out with sound bodies and happy souls, it has been through no lack on our part, but it was because God willed otherwise.

By careful study of our work you will find that we have administered to the necessities of the poor with an eye single to the curing of the body, and as far as possible pointing them to the great healer of all our infirmities. Our work, as usual, has been hard, but in its hardships those that have been faithful servants, I cannot say too much in praise of the consciousness of duty well done. I cannot say too much in praise of the Anderson county hospital for the faithfulness of its employees. The employees have been faithful in the discharging of their duties, always looking forward to the welfare of the unfortunate whom they had to serve. Many things could be said in appreciation of the sweet tempered girls that make this institution a haven of rest to the afflicted, but their reward will come from the well done of him who knows and sees all things.

Our institution stands equal in equipment and service of any hospital in our state, and day by day we are using every effort, thought and action towards accomplishing the great end of this institution. We report this year as follows:

White patients admitted.....306
Males 179—Females 67—Females 112

Ward 157—Males 68—Females 89

Colored patients admitted.....73
Ward 73—Males 36—Females 37

Total number of patients admitted.....409
Free patients admitted:
White—Males 20—Females 40—Total 60
Colored—Male 13—Females 13—Total 26
Deaths 22
Births 18

You will notice in the above report we have cared for 86 free patients which means free medicine, free service, free bed, and through the kindness of our big hearted doctors, free treatment. Often times the doctor has to give this service to the poor of the city and county at a great expense to himself, and never in a single instance was one of the profession, in any way whatsoever, indicated that it was not a pleasure for them to do so. So that an institution that is founded and fortified by a Christian people, Christian doctors, and Christian administration, in all its parts, is a great asset to the churches of our country. God grant that they may look upon it as such, and never let it fall short of being the institution that God has intended it to be.

Now, fellow citizens, it gives me pleasure to command it to you for your aid, prayers, and something for you to be joyful over. It has been a great blessing in the past year, and careful study by any one of who it has done will satisfy them. No—the management does not claim perfection, as this is impossible in mortals, but by the help of God in the future we will promise you to try improve on the past.

We are adding up to date conveniences as fast as we can see our way clear to pay for them. This year we have put in a cold storage plant, and a new laboratory. Of course there are a great many things that we actually need, but our needs will never cease. Our expenditures are great, and we do not think we are extravagant, but are afraid the some times we are a little too economical. Now my friend, or enemy, who has anything good, or bad, please speak out in this meeting, as we are open to any

AT THE HOUR EVERY THURSDAY

MILL STOCKHOLDERS IN ANNUAL MEETING

BROGON MEN ENDORSE COMPANY'S ACTION RECENTLY

DIRECTORS MET

Afterwards and Re-elected Officers for Next Year—The Anderson Mills.

The stockholders of the Brogon mills held their annual meeting yesterday in the office of the company at 12 o'clock noon.

Careful reports as to the conditions now existing at the mill were read after which the stockholders unanimously endorsed the following resolution:

Resolved, That this meeting heartily and unanimously endorses and approves the course of the management in shutting down the mill for curtailment, and that we express our confidence in the wisdom of the management in whatever course it may be found to be wisest to take in the future.

This meeting was marked by the largest number of shares of stock ever being represented at any time in years. Mr. J. W. Dorsey of New York and Mr. Garseed of Charlotte, representative of the Crompton & Knowles Loom Works, were the out-of-town stockholders present.

The board of directors was re-elected, the board being composed of the following gentlemen: G. M. Whitin, Whitinsville, Mass.; George A. Draper, Hopedale, Mass.; C. R. Makepeace, Providence, R. I.; J. W. Dorsey, New York; Jas. P. Gossett, Williamston, Jan. D. Hammett, Anderson; H. H. Watkins, Anderson, B. B. Gossett, Anderson and C. S. Sullivan, Anderson.

The old officers were re-elected as a meeting of the board of directors held subsequent to the meeting of the stockholders. The officers are: Jas. P. Gossett, president and treasurer; B. B. Gossett, vice president and assistant treasurer and G. T. McGregor, secretary.

When asked if the re-election of the officers carried with it the re-election of Mr. C. W. Causey as superintendent, Mr. B. B. Gossett stated that the position of superintendent is appointive and not elective, and that the management does not plan any change; that Mr. Causey will remain as superintendent.

Anderson Cotton Mills. The annual meeting of the stockholders of the Anderson Cotton Mills was called to order in the office of the company at 11 o'clock yesterday morning, and was adjourned until the second Tuesday in November. No business was transacted yesterday.

UNCLAIMED MAIL

Following is the list of letters remaining unclaimed for in the postoffice at Anderson, S. C., for the week ending Oct. 13, 1915. Persons calling for these will please say that they were advertised. One cent due on all advertised matter.

RAILWAY OFFICIALS INSPECTING LINES

SPENT A FEW HOURS IN ANDERSON YESTERDAY MORNING

BUSINESS GOOD

Stated They Were Trying to Feel Business Conditions and Were Well Pleased.

A number of railroad officials were in Anderson over the interurban on an inspection trip. They were stopping at the principal points along the lines in order to ascertain business conditions.

In a party here yesterday were: R. I. Cheatham, assistant traffic manager of the Seaboard Air Line, with headquarters in Norfolk; P. B. Thompson traffic manager of the Bay Steamship line between Baltimore and Norfolk, with headquarters in Baltimore; S. P. Stringfellow, assistant general freight agent of the Seaboard, with headquarters in Atlanta; E. W. Long, commercial agent of the Piedmont & Northern lines, with headquarters in Greenville, and C. S. Allen, traffic manager of the same lines.

Mr. Allen stated that the trip was merely one of inspection and that all along the line he found that business conditions were improving.

"So, Doctor, you are still single. Ah, I fear that you are somewhat of a woman hater."

"Nay, madam; it is to avoid becoming one that I remain a bachelor."—New York Post.

LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back its Color and Lustre with Grandma's Sage Tea Recipe.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; removes every bit of dandruff, stops scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

White, wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

PROPER LIGHTS FOR YOUR CHILD'S EYES. THESE ELECTROLIERES CONCENTRATE THE LIGHT WHERE IT SHOULD BE. PRICES \$3.50 AND \$4.50

Agricultural Lime

Results obtained from the use of our agricultural Lime by numbers of our most successful farmers show it to be highly profitable.

In general farming where a system of crop rotation is followed splendid results have been obtained by the use of Agricultural Lime with such crops as Wheat, Oats, Corn, Cotton, Peas and Forage crops—Legumes and small grains are especially benefitted by its use.

Agricultural Lime is not considered a fertilizer but is essential to the soils where the practice of clean cultivation has caused more or less acidity; some lime is essential to all plant life and we know there is a marked deficiency in our soils. Lime liberates potash; sweetens sour soils; supplies calcium; a plant food—causes sticky soils to become porous and mellow and encourages the development of beneficial bacteria in the soil. We have now plenty of potash in the soil of the Piedmont section and by a liberal use of agricultural lime and crop rotation we can liberate and draw upon this natural supply.

Read What Some of Our Best Farmers Say Who Have Used Our Agricultural Lime

George W. Laboon, Anderson, S. C.—"I think my peas following lime had a third more growth and more than a third more peas and that my corn was 25 per cent better and stood drought better than where I did not use lime. I believe that lime will be beneficial to all grain and expect to use a car this fall under my wheat and oats; applying a ton per acre."

R. E. Ligon, President Gluck and Equinox Mills, Anderson, S. C.—"On 3 1/2 acres that we applied two tons of your lime per acre our yield of oats was 35 bushels per acre; on same identical land without lime 32 bushels per acre. Our corn following lime was fully a third better and stood drought better. I am confident that an application of two tons of your lime per acre will prove highly profitable under all small grain crops."

J. R. Melec, Due West, S. C.—"Regard to oats sown after liming soil the yield was very plain in favor of lime and as to peas it was very easy to tell the difference in both vines and yield."

J. S. Fowler, Anderson, S. C.—"I have been using agricultural lime for more than 15 years and am thoroughly convinced it is the most essential and economical method of building up soil. I notice a marked increase in yield of all small grain and especially corn and peas following lime and the mechanical condition of my soils are wonderfully improved by its use. All in all the small expense that is incurred in liming lands is I think the best investment the farmer can make. I recommend one ton per acre for small grain and corn."

B. H. Anli, Aulon, S. C.—"I believe lime will be the basis of a new agriculture; it is the one necessary element for the growth of legumes on our soils, with legumes made a part of our system of agriculture soil fertility will naturally follow; and with a fertile soil our agricultural wealth is assured. I have used agricultural lime for several years and have found an approximate increase of 30 per cent from all crops—it is needless to state that I shall continue to use lime."

C. Manly Watson, Anderson, S. C.—"The use of your lime made my crop of Whipporwill peas unknown—vines grew more than thigh high and many put out runners more than twenty feet. In April I had dressed a field of oats under which no fertilizer whatever had been applied with three tons of lime per acre—the result was as if 75 to 100 pounds of soda had been applied; and the yield from this acreage was more than five bushels per acre greater than from identical land where lime was not applied—yes I am a firm believer in a liberal use of agricultural lime."

Wade Drake, Anderson, S. C.—"I am a firm believer in a more liberal use of agricultural lime for all crops but more especially for grain and cover crops. Both my corn and cotton crops showed a marked increase in yields following acreage where I had applied ton per acre broadcast."

When to apply lime—NOW—during the Fall and Winter months when there is not so much other work at hand gives the farmer a splendid period for liming soil.

PRICE—in reach of all—\$1.00 per ton F. O. B. Mine. Minimum cars, 30 tons. Ask for delivered prices your station. I have the sales agency for Spartanburg, Greenville, Oconee, Pickens, Anderson, Abbeville, Greenwood and Laurens counties for the
