

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if Kidneys feel like lead or Bladder bothers.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep four kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice combined with lithia, and is harmless to flesh clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who while it is only trouble.

The Sinking of the Ancona.

In a sense the Allies' best friends are the submarines of their foes. In respect to the trend of American sentiment regarding the war this has been notably true. Just after cotton had been declared contraband and a heightened resentment had begun to manifest itself in this country towards the Allies, a German submarine sank the Arabic. Just as the dispatch of the American note to England fixes the attention of the people of this country upon Allied interference with American trade, a submarine believed to be Austrian sinks a great liner laden with women and children and the world stands aghast in the presence of another horror second only to that of Lusitania.

In the absence of details conjecture as to the probable effect of the sinking of the Ancona upon the course of this government is of little value. But the main fact stands out—the fact that once more women and children and innocent non-combatants traveling on an unarmed and peaceful passenger ship, have been done to death on the high seas. Once more the relentless war machine that the Allied nations are combating has slaughtered the helpless and unoffending.

Whether Americans lost their lives, whether the Ancona was warned, whether after being warned she tried to escape—these are questions that must be answered before this country's course can be determined. But no matter how they are answered the fact of the slaughter remains; and even if, under a strained construction technical legal warrant for it, the horror of the deed itself is not less and its effect upon American sentiment will be tremendous.—News and Courier.

Rarely Ever Recognized.

The Columbia Record on Saturday said: "The Chamber of Commerce in getting out a map of Columbia with important places marked, omitted to cite the two newspaper offices, representing half million dollars of capital."

We would like the Columbia paper to tell us of a single chamber of commerce which has ever recognized the newspapers in the proper way. Eat for the newspaper, however, no chamber of commerce could live a month.—Rock Hill Record.

TICKETS FOR LECTURE GO ON SALE TOMORROW

MR. BURNETT ANNOUNCES ARRANGEMENT RESERVED SEATS

ALL LOWER FLOOR

Will Be Reserved and Admission Here Will Be \$1.00—Telegram From Mr. Bryan.

"We are going to reserve the entire lower floor to which the admission price will be \$1.00," stated Mr. F. M. Burnett yesterday afternoon in regard to the admission at the college auditorium next Friday evening when Col. William Jennings Bryan will deliver a lecture.

"Because of the convenient arrangement of the seats," continued Mr. Burnett, "there is not much choice and since the seats are not numbered, those who appear at the college first will get first choice of the seats. The general admission price in the gallery will be 50 cents. We are planning to seat 1,000 people and the indications now point to a much larger number who will seek to gain admission to the lecture. The principle advantage in reserving a seat is an absolute guarantee that the party holding the ticket will not only gain admittance to the auditorium, but will also be assured of a comfortable seat. We know the exact number of seats downstairs and only this number of \$1.00 seats will be sold. Both the general admission and the reserved seat tickets will be on sale Monday morning at Evans Pharmacy main store. Judging from the number of out-of-town reservations and the interest generally, we feel that we are doing the right thing in urging those who desire to hear Mr. Bryan to secure their seats at once."

Mr. Burnett stated that he received a telegram from Mr. Bryan in Washington yesterday morning which was to the effect that he was feeling fine and was looking forward to his lecture here next Friday evening.

Mr. T. A. Orr stated yesterday that through car service would be on from the public square Friday night.

Are You Educated?

A professor of the University of Chicago has evolved a series of test questions for the educated which, he avows, are the best evidences of a real education. If you can answer "yes" to all the questions you are truly educated.

Has education given you sympathy with all the good causes and made you espouse them?
Has it made you public spirited?
Has it made you a brother to the weak?

Have you learned how to make friends and keep them?

Do you know what it is to be a friend yourself?

Can you see anything to love in a little child?

Will a lonely dog follow you in the street?

Can you be high-minded and happy in the meanest drudgeries of life?

Do you think that washing dishes and hoeing corn is just as compatible with high thinking as piano playing or golf?

Are you good for anything yourself?

Can you look out on the world and see anything but dollars and cents?

Can you look into mud-puddle by the wayside and see a clear sky?

Can you see anything in the puddle but mud?

DECIDED IN FAVOR OF FIELD DAY EXERCISES

AT MEETING COUNTY TEACHERS ASSOCIATION YESTERDAY

OVER 100 PRESENT

Session More Largely Attended Than Any Other in History of the Organization.

At the meeting of the Anderson County Teachers Association held yesterday, the teachers voted to have a field day in Anderson some time next spring. A committee was appointed to meet between now and the next regular meeting of the association and report plans for carrying out the decision in regard to the field day. Over 100 teachers were present at the meeting.

The opening exercises were conducted by Dr. John E. White, and owing to the absence of Mr. J. E. Swearingen, state superintendent of education, who was expected to have been present, a general discussion was entered into by the teachers.

Most of the discussion was relative to the advisability of having the field day exercises next spring. The majority of those present were heartily in favor of the plan and expressed their views to this effect. When the vote came it was easily decided in favor of having the exercises.

After the session closed, a delicious luncheon was served which had been prepared by the domestic science class of the Anderson high school, of which Miss Wilhelmina Fant has charge.

The next regular meeting of the association will be held in December.

Good From the Jitney.

It has been quite a while since the jitney has figured in the papers and the explanation seems to be that there are no longer any jitneys to talk about. The enterprise evidently had a mushroom growth—but it worried the street car people all over the country while it lasted. The collapse of the industry was due mainly to the enactment of municipal ordinances and regulations in the direction of public safety, but the researches of the American Electric Railway association indicate that a large element in the collapse of the jitney was founded on the cold experience of economics which proved that the feverish expansion of the business could not be maintained successfully. We are told by this same authority that the experience continues of the study into the value of motor busses of larger capacity than the ordinary jitneys as feeders for main lines and as pioneer's to the ultimate installation of electric lines. So, a measure of good will probably grow out of the jitney anyway.—Charlotte Observer.

Careless Smoker.

Winston-Salem Sentinel.
It was said that a recent fire in Pittsburgh, which resulted in the loss of several lives, was likely caused by a careless smoker who threw away in the building a cigarette butt or cigar stump that was still lighted. There is entirely too much carelessness in such matters. The fire loss in this country could doubtless be reduced to an amazing degree in a very short time if people gave more attention to such seemingly unimportant things. A little rubbish dropped here or there, a match or cigarette carelessly thrown away or other seemingly trivial cause, may start a conflagration resulting in immense property loss. Every citizen should be a committee of one, not only to refrain from such practices himself but to aid in seeing that others exercise the same precautions.

Lo, the Poor Scout.
Three boy scouts were selling of total sheet music on the street in front of the stock exchange. The smallest of the coming Kit Carson's stepped up to an elderly gentleman with, "Buy a copy of the Red, White and Blue?" "For how much?" asked the passing stranger. "Only 25 cents," replied the scout. "And what do you do with the money?" queried the purchaser as he dived into his jeans to find a quarter. "Buy uniforms for poor boy scouts," answered the youth. "And what's a poor boy scout?" persisted the purchaser. "A poor boy scout," responded the young recruiter at once, "is one who has no money to buy a uniform and can't get a job to get any money."—Wall Street Journal.

COOKING CLASSES ARE NOW ORGANIZED

IN FIVE COMMUNITIES IN ANDERSON COUNTY—OBJECT

WOMEN'S CLUBS

Have Also Been Organized in Seven Districts—People Anxious to Cooperate.

Cooking classes in five communities in Anderson county have been organized by Miss Jayne C. Garlington, and she stated yesterday that she was meeting with much encouragement at all of the places. Those communities in which the classes have been organized are: Pendleton, Iva, Hammond, Lebanon and White Plains. In all there is about a total of 125 who are taking the lessons.

These cooking classes are organized not so much for the good that they alone will accomplish, but for the interest that will be developed through them. In some counties of the state classes of this kind were conducted last year and this year in several of the communities, there was such a demand for the work that regular teachers have been employed in the schools.

Miss Garlington will visit each of these communities once a week, and will give instructions in cooking. Owing to the fact that one lesson is given every week, it is impossible for her to have more than five classes. Primarily, they have been organized for the ladies of the communities but with the co-operation of the school officials, who have offered a room for the work and in some cases have furnished the place. In this way many of the girls of the schools are becoming greatly interested and have joined the classes. In some of the communities the number of pupils in the classes number 30.

Women's Clubs.

Miss Garlington now has organized seven women's clubs in Anderson county in the following communities: Upland Grove, West Pelzer, Green Pond, Hammond, Lebanon, Mountain Creek and Melton. It may be said that the purpose of these clubs is to give knowledge which will help to make some of the burdens of home making lighter, stronger, more healthful people; homes more satisfactory; to create an opportunity for exchange of ideas and discussion of home problems; to furnish a place of meeting for a social getting-together of the neighborhood; to develop leadership, etc.

Monthly meetings are held at which time Miss Garlington is present and gives a demonstration in something that is useful in the home. The clubs provide for a regular course in home economics and will do much to place any 20 year old young woman on a high dition county.
