Conscription Next

Lord Derby.

Lord Derby, with the consent of Premier Asquith of Great Britain, has issued a statement in which conscription is threatened for Nov. 30. He was given authority some time ago to try out a plan for volunteer enlistment, but it has not proved as successful as he hoped. He now says unless the men physically and financially fit come forward in sufficient numbers by Nov. 30 conscription will be resorted to.

LEBANON SCHOOL

At a meeting of the Lebanon School Improvement association held November 6th, it was decided to hold the meetings only once a month during the winter months instead of semi-monthly as heretofore.

It was further decided at this meeting to hold the Lebanon community fair in September of next year. A prize of ten dollars will be awarded for the best kept premises, including the yard, orchard, and especially the front grounds. The slogan is, "Make Lebanon Community Beautiful."

We want every one who wishes to enter this contest to be present at the next meeting to enter their names, etc. The contest will be open to all within the school district. We are to have an expert inspect premises about the middle of December to see them in their present condition. The winner of the prize will be decided September 1st, 1916.

The next meeting of the association will be held on Saturday before the first Sunday in December at 2 o'clock, p. m. The program at this meeting will be for the honorary members, and we hope to make it very attractive and interesting. We trust all the members will be present at this meeting in December.

Woodrow Wilson, American.

This classification is given the president by The Philadelphia Record and it is brought forward by the evidences of the organized attack on him by foreigners in this country, which same attack, The Record holds, removes whatever of doubt there may have been as to the re-election of President Wilson. Our Philadelphia contemporary lays down the proposition that Mr. Wilson has acted from first to last as an American, the guardian of American interests, and back of them, of the fundamental principles of international law, and humanity, of the interests of the friends of the latter, and that he lacks energy in dealing with Germany. The two complaints cancel each other. Mr. Wilson is not acting in the interest of Germany or of the United States of America, whose interests of this nature are those of the world. An organization, The Record is pleased to call the American Falsehood society, sent President Wilson a telegram taunting him with the suggestion that the election of William Bennett, a Republican, to congress, was in rebuke to Wilson's pro-British policies, but The Record recalls that the Bennett mentioned is the same who was elected to the Fifty-ninth congress; was elected the sixtieth by a majority of 3,284 over the Democratic competitor, and to the sixty-first congress by a majority of 3,885 over William McAdoo. It therefore declines to be impressed by his election a third time. The Record makes the point that no man governed by passionate love for Germany, however noble as a personal emotion, or by nationalist hatred for England, so utterly without historical basis there may be for it, to fit to tell Americans what their interests are or whom they shall have for president, and whether it is Henry Wiseman, who loves Germany, or Jeremiah A. O'Leary, who hates England, he cannot subordinate the interests and independent policies of the United States to affections and hatreds brought here from Europe. As Senator Thomas of Colorado writes regarding O'Leary's telegram, "To hamper or to help an administration in times like these, by movements designed to aid or to injure foreign governments, is treason." — Charlotte Observer.

AT THE THEATRES

"The Prince of Pilsen"
Music lovers will be delighted to welcome the enormous all star revival of the popular musical comedy, "The Prince of Pilsen," when it is seen at the Anderson theatre on Tuesday evening with Jess Dandy the original "Hans Wagner" in his famous role.

"The Prince of Pilsen" is always a favorite. The fame of its melodies are now world wide. The music publishers report over a million copies have been sold of the favorite songs including, "The Tale of the Sea Shell," "Heidelberg," "Keep it Dark," "The Song of the Cities" and "The Message of the Violet."

After the first two years of uninterrupted success in this country, nearly a year of which was taken up with the remarkable and memorable run at the Broadway theatre, New York, "The Prince of Pilsen" was sent to London for a run at the Shaftesbury theatre. Since then it has continued to be a great favorite with the English public as it has been on this side of the ocean. It has had two seasons in South Africa and was also produced successfully in Germany, France and Australia.

The members of the present organization are said to have been chosen with the single idea of providing the best performance possible. Jess Dandy, a comedian of distinctly individual methods, will again be seen as "Hans Wagner," the German brewer, and it is the consensus of critical opinion that his impersonation is a masterpiece of comic characterization. Miss Mabel Harris, so well known comedienne, is the wily and roguish widow to whom the jolly brewer finally capitulates. "Edith," a sweet role calling for a fine coloratura voice is delightfully played and sung by Miss Florence Hensel, an accomplished singer. The public will find in Edward T. Mora, who has been the Prince of Pilsen since the original production, an excellent singer and actor. Eddie McLaughlin will sing the part of Lord Somersot; George Myers, will be seen as the nimble French waiter, Francois; while Irene Duke, Frenchy chic and an entrancing dancer in Sicilie, the pert little French lady's maid. Together Mr. Myers and Miss Duke do a whirlwind dance that is full of dashing abandon and grotesque agility. Dorothy Delmore, the original "Daisy," Helen Fitzpatrick, Vera Faust, Blacusa Carvel, Daisy Grant, Frank MacDwan and others go to make up an attractive array of principals. The city girls, sea shell girls, bathing girls and golf girls, together with the Heidelberg students in the famous "Stein Song," are said to make one of the handsomest and best equipped choruses on the American musical comedy stage. The special orchestra will be under the direction of Victor Clark.

DECREASE IN CRIME

Darkening the Streets in London Has No Effect.
London, Nov. 20.—There has been no increase in crime in London as a result of the darkening of the streets, says a report from the superintendent of police.
All classes of offenses but one show a steady decrease since the beginning of the war. The one exception is in pocket-picking during the daylight hours.

LARGE INVESTMENTS BY INSURANCE PEOPLE

Commissioner McMaster Gives Figures in His Annual Report to Legislature.

Therefore at the present time the life insurance companies of other states have invested in all forms of South Carolina investments about \$23,000,000," says F. H. McMaster, insurance commissioner in a section of his annual report to the legislature. He says: On December 31, 1914, the life, fire and miscellaneous insurance companies licensed in South Carolina had total investments in South Carolina state, county and municipal bonds, real estate mortgages and banks deposits maintained continuously for six months of \$15,438,000.

On June 30, 1915, six months thereafter, these companies had a total of \$14,591,000.

The life insurance companies alone on December 31, 1914, had total investments in the securities named of \$12,733,000. On June 30, 1915, this shows an increase of \$902,000 in six months. This is a very satisfactory increase when it is recalled that when the insurance department was established the total investments of all of these companies amounted to only about \$325,000.

The increase in investments by the life insurance companies was wholly in real estate mortgages, these being increased in the six months from \$9,781,000 in December to \$10,005,000 in June. There was a slight increase in bond holdings of about \$65,000. There was a falling off in bank deposits of about \$3,000,000.

Some of the details of the investments by life insurance companies are to be found in the table showing the returns of life insurance companies for the semi annual period ending June 30, 1915, published in this volume. In addition to the \$12,733,000 of investments in state, county and municipal bonds, first mortgages of real estate and bank deposits these life insurance companies had loaned on June 15, 1915, on the security of policies alone about \$8,530,000. The details of this are published in this volume. In addition to these, certain of the life insurance companies hold interstate railroad bonds which on a mileage basis would entitle them to a credit of a total of about \$7,000,000 as South Carolina investments.

Therefore at the present time the life insurance companies of other states have invested in all forms of South Carolina investments about \$23,000,000. This approximates very nearly the South Carolina reserves held by these companies.

It must not be understood, however, that the reserves represent the entire funds which South Carolinians have contributed to these companies. The surplus funds held by these companies in due proportion belong to South Carolinians also. However, it does awaken a feeling of satisfaction to realize that the reserves which represent largely the savings on the policies are now practically invested in South Carolina securities. And more particularly is satisfaction felt when it is realized that the investments in state, county and municipal bonds and real estate mortgages has increased in six years from about \$325,000 to over \$12,700,000.

The amount of investments will probably increase from year to year for it has been found that when the companies establish loan agencies loans continue through these agencies without regard to the reserves which belong to a particular state. It is to be noted that the increase in investments during the six months ending June 30, 1915, as compared with the amount held December 31, 1914, shows an increase of eight per cent. Likewise, it will be found that the increase in policy loans for the same period was about the same amount. At the present time South Carolinians have borrowed approximately 29 per cent of their reserves on the security of the policies alone.

TAKE "CASCARETS" IF HEADACHY, BILIOUS AND CONSTIPATED

Best for liver and bowels, bad breath, bad colds, sour stomach.

Get a 10-cent box.
Stick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; drowsy, fermenting food in the bowels; or, sour, gassy stomach.
Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.
Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.
A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.
