GREEKS STILL PURSUE DILATORY TACTICS

WANTS ENTENTE EXPERTS TO DISCUSS DEMANDS FOR SAFETY

OUTLOOK NOT SO OPTIMISTIC

Bulgarian Operations Near Monistir Frustrated Union of Allies and Serbs.

London, Nov. 27.—On the Athens reports that Greece will likely propose that entente military experts be appointed to discuss with the Greek staff the allied demands of the safety of the Anglo-French troops on Greek soil, the early optimistic opinion on the Greek situation here has undergone a change.

Despite the reports of Greek guarantees of security and liberty of action to the allied troops, the indications are that Greece has not abandoned her dilatory tactics, which caused the entente uneasiness. Since Bulgarian operations near Monistir frustrated the union of the Serbians and the Anglo-French the use of the railroad in Greek territory is imperative to the allies' operations.

The Germans officially announce progress beyond Pristina and central Serbia is cleared of Serbian troops in the south near Krivolak. The French gaining slightly in attacks and counter attacks.

The Serbian offensive west of Prilpe continues with claims of the recapture of Krushevo.

While Russia is said to have 350,000 troops massed on the Rumanian border to attack Bulgaria, the Rumanian position is still undefined.

Constantinople claims the capture of a large section of the allied trenches in a surprise attack in Gallipoli, declaring also that the allied fleet attack near Anafarta was ineffective.

Operations on the eastern and western fronts seem to be at a standstill, while the Italians continue scolding the Austrian positions at Gorizia.

CENSOR FORBIDS KITCHENER NEWS

Rome, Nov. 27.—The censor prohibits the transmission of news regarding the results of the visit here of Field Marshal Kitchener so far as it relates to impending military developments.

It may be said however, that conferences here yesterday and on a visit to front yesterday, further strengthened and perfected the close accord between Italy and the allies and contributed to shaping the active assistance Italy will give in the near east.

FRENCH SUCCESS HOPE FOR SERBIA

London, Nov. 27.—The Serbians forces will soon be an army without a country, unless the French should defeat the Bulgarians, four divisions of whom are reported hammering at the French lines. Reports arrive from various sources to the effect that Monistir is surrounded by Bulgarians and that they may not wait for the Austro-German allies before entering the Macedonian capital. The Serbian army is retreating in a southeasterly direction before von Mackensen's troops and may find no rest even in Greek territory. It is reported here that the invaders of Serbia will not hesitate to cross into Greece. Apparently the German leaders expect the Serbians and their allies to await an attack in Greece. It is said there operations will be under the supreme command of von Mackensen.

Joffre Promotes Young Heroes
Paris, Nov. 27.—The constant efforts of General Joffre, the French commander-in-chief to keep his commands in charge of men of proved vigor and initiative were exemplified once more by the announcement that seven division generals and three brigade generals have been transferred to the reserve and the places given to younger men who have distinguished themselves in the recent year's operations.

Navy Anglo-French at Saloniki
Paris, Nov. 27.—French dispatches from Athens say the French and British forces landed at Saloniki have attained important proportions. The Paris of Athens gives their number at a hundred and twenty-five thousand. These forces are abundantly supplied with arms and ammunition. Forty to forty-five thousand more are reported en route to Saloniki. Four thousand are disembarking daily.

SERIOUS RIOT AT JUDSON MILL

THREE MEN INJURED IN FIGHT EARLY YESTERDAY MORNING

KNIVES WERE WEAPONS USED

Clash Between Union Men and Strikebreakers Quited By Sheriff Rector.

Greenville, Nov. 27.—Serious rioting followed the usual opening of the Judson mill this morning, about 6:15 o'clock. One striker, Dave Freez, was probably fatally wounded and two strikebreakers, Gordon Brown and J. M. Humphries were badly cut. Knives were the weapons used.

Freez was horribly butchered about his heart and abdomen. Three ribs just below his heart were severed and pulled apart. His intestines were bulging out and he was bleeding to death when he was rushed in an ambulance to the city hospital. Physicians began an operation this morning in the last hope of saving his life. He has about one chance in a hundred of recovery.

Four men—Gordon Brown, J. M. Humphries, D. C. Huggins, and T. A. Harvey—were arrested by Sheriff Rector. They are held at the police station. No charges appeared opposite their names on the police blotter. Sheriff Rector stated that the men would be held pending a thorough investigation of the trouble. Each was put through a grueling, but as far as could be learned no incriminating testimony was adduced.

Reports vary as to the cause of the affray. Strikers contend that Gordon, a strikebreaker, precipitated the trouble. They alleged that he, without provocation, struck T. A. Harvey on the temple with his fist and knocked him down. This is Harvey's version of the affair. His statement was corroborated by the stories told by several other members of the union. They claimed that Freez rushed to Harvey's assistance, and that Brown, Humphries and Huggins combined in a savage attack upon him.

Freez soon fell helplessly wounded under the butchery. His overcoat, coat and vest, which is held by the sheriff as evidence, was cut beyond repair. His inner garments were soaked in life spilled blood. His injuries were far more serious than those sustained by any of the others.

Sheriff Rector, who was notified by Deputy A. G. Justice, was on the scene a few minutes after the fight. He found that Justice had made no arrests and said from what he could hear, the mill deputy stood aside and looked on after the disorder assumed a serious state. Brown and Humphries were arrested at their respective homes, Huggins and Harvey were later apprehended in the village.

Brown, Huggins and Humphries are non-union men and were among those who have been employed since the mill resumed operation November 15. Freez and Harvey are members of the union and have been without employment since the strike was called six weeks ago.

Sheriff Rector soon had the situation under control. The village returned back to a quiet and peaceful settlement. The feeling which ran high early this morning was not noticeable this afternoon, and there was nothing on the surface to indicate any further disorder.

On account of the chaos it was well nigh impossible to obtain accurate information as to the number of men who participated in the encounter. There were more than twenty-five on the scene. A few women were present.

INSURANCE NEWS EVERY WEDNESDAY

Beginning this week The Intelligencer will publish every Wednesday a special department devoted to news of the insurance field. Already experiments have been made along this line on two occasions, and the feature will now be made a permanent one. On a page of Wednesday morning editions of this paper will appear insurance news of interest generally and particularly to those engaged in the insurance business.

The local insurance men's association has lent its approval to the idea, and has appointed a press committee to cooperate with The Intelligencer in the preparation of copy for this special insurance department. Members of the profession who in their teaching come across interesting items are requested to turn them over to Mr. Addison, the chairman of the publicity committee. Items of a local nature are also acceptable, and should be telephoned or written to Mr. Addison.

The Intelligencer is going to make this a regular feature of its Wednesday morning edition, and a page in which insurance men generally will turn immediately upon picking up their paper, on Wednesday mornings.

Mr. Graves was heard attentively and frequently applauded.

BERNSTORFF MAY FILE VIGOROUS COMPLAINT

WOULD BROADEN ARMY INCREASE

MILITARY AND NAVAL COMMITTEES OF SECURITY LEAGUE CONFER

PROGRAM IS IN RIGHT DIRECTION

Qualified Approval of Administration's Program But Would Broaden Its Scope.

Chicago, Nov. 27.—Although the military and naval committees of the National Security league endorsed the administration's program as in the right direction at the league conference today, they asserted that the proposed army increase should be broadened and that the navy five year plan covered too long a period of time for completion. Garrison's continental army proposal, they said, should include all between the ages of eighteen and twenty-one.

The naval committee's report declared that the navy was short of men and four of the Atlantic fleet battleships have to be put in reserve next winter to man the superdreadnaughts Nevada and Oklahoma.

PROSECUTION RESTS IN THE WATSON TRIAL

Contented With Showing That Watson Was Responsible for the Publications.

Augusta, Nov. 27.—Apparently content with the testimony designed to show that the articles in question had been mailed and the defendant signed the circulation statement of the publications, the prosecution in the trial of Thomas E. Watson in the federal court, for sending obscene matter through the mails, rested its case today.

The government will leave the determination of whether the matter was obscene to the jury.

Watson scored a point when Judge Lambdin allowed Postmaster Barnes, of Thompson, Ga., to testify that he considered Watson's articles "high class literature" thus putting the motives of the articles in issue.

DISPLEASED WITH STATEMENTS OF DISTRICT ATTORNEY ABOUT BOY-ED

FORM OF PROTEST IS UNDECIDED

References Made to German Attache in Trial Hamburg-American Officers.

Washington, Nov. 27.—The German embassy, according to information from an authoritative source, resent the accusations understood to have been made against Captain Boy-Ed German naval attache here, in the trial in New York of the Hamburg-American officials. It is said that Bernstorff was preparing to file a vigorous complaint with the state department at the conclusion of the trial. He will ask at least something in the nature of a retraction and possibly an apology.

The embassy is undecided as to what form the protest will take. A copy of the stenographic report of the government counsel and testimony has been ordered.

The embassy is particularly anxious to determine whether Captain Boy-Ed was included by inference or otherwise in the references by the assistant United States district attorney to the defendants in the case of "riding roughshod over the laws of the United States, treating them as if they were scraps of paper."

A person in close touch with the embassy said that the Germans felt that Boy-Ed was rather harshly treated.
