KAISER'S VISIT TO VIENNA IS VERY PUZZLING

LONDON SPECULATES ON MEETING OF RULERS ENEMIES

MANY REPORTS IN CIRCULATION

Nothing is Authoritative Only Statement of German Newspapers As to Importance.

London, Dec. 1.—Emperor William's visit to Vienna, coinciding with the resignation of three Austrian ministers, is the cause of much speculation. The two events are variously assumed to be connected with the reported effort of Germany to force Austria into the German sphere of influence, or to secure separate peace through the intervention of Pope Benedict and the rumored dispute between Austria and Bulgaria over the division of Serbia.

There is no authoritative basis for any of these reports, beyond statements in German newspapers that Emperor William's visit was of highest importance.

In the meantime in the Balkan operations, the movements of the central powers' armies continue. Like Germany, Bulgaria announced, with the capture of Priredna, that her campaign against Serbia had ended. This seems to support the suggestion that to avoid a dispute with Greece, the Bulgarians decided against occupying Monastir. Monastir was still in Serbian hands yesterday. No official news of any change has been received.

Austria, assisted by some German troops, continues operations against Montenegro. The Montenegrins are being aided by some portions of the Serbian armies. Battles are being fought in that part of the Banjak of Novipazar taken by Montenegro during the Balkan war.

The Austrians are advancing south from Senica and across the frontier from Priredna. In the north Montenegrins claim to have defeated the Austrians near Petcha, Bosnia. In southeastern Serbia snow still prevents important movements.

The Rumanian attitude is still uncertain. The late reports say that she, like Greece, is trying to remain neutral.

Greece, in reply to the latest note of the central allies insists upon neutrality and independence. The final settlement of the disputed points is not yet in sight.

Why Uncle Sam Loses Him

Dr. John E. Anderson

Because Uncle Sam does not pay salaries sufficient to hold able scientists he is losing them like the many naval officers who have gone to munition plants. This is Dr. John E. Anderson, late director of the hygienic laboratory of the public health service. He received a salary of \$4,000.

One of the largest chemical concerns in the United States, which has its main plant at New Brunswick, N. J., wanted him, and an offer of \$25,000 a year was made. He could not resist, so he has left the service of the United States.

LANSLOWNE EXPLAINS LONDON DECLARATION

Says Measure Was Adopted As Guidance for British Courts Only

London, Dec. 1.—Explaining the position of Britain respecting the declaration of London, the marquis of Lansdowne informed the house of lords that it had been adopted only with important modifications and for the guidance of British courts. The declaration of an international tribunal was not involved in the adoption.

He expressed the conviction that in all cases where the law courts failed to afford a satisfactory solution, or diplomacy had been unable to gain adjustment, it was right that arbitration be considered.

A resort to arbitration for settlement of disputes was provided for in the treaty concluded with the United States last year.

The Officials Gave Practically the Same Testimony As to Transactions.

New York, Dec. 1.—The summing up of counsel and Federal Judge Howe's charge to the jury is all that remains to end the trial of the Hamburg-American officials charged with conspiracy in sending supplies to German warships in Atlantic and Pacific oceans at the beginning of the war.

Four defendants, Dr. Karl Buenz, director; George Ketter, superintendent; Adolph Hachmeister, purchasing agent of the Hamburg-American line and Joseph Poppinghaus, who sailed as supercargo on the steamship Berwind and delivered goods off the island of Trinidad, testified today, to substantially the same facts.

Ketter and Hachmeister said that they bought the goods and cleared the ship under Dr. Buenz's instructions. He, in turn, was acting under an agreement between the Hamburg-American line and the German government. Poppinghaus acted on Ketter's directions.

JUDSON RIOT VICTIM DEAD IN GREENVILLE

David Frazier Succumbed to Injuries Received on Last Saturday Morning.

Greenville, Dec. 1.—David Frazier, a striking operative, who was stabbed in rioting which occurred at Judson mill last Saturday morning, died this morning at 10:30 o'clock at the city hospital. His wife, expecting to become a mother soon, suffered three convulsions after she learned of his death. Poverty hovers over the home which death has made cold and sombre.

The finger of accusation points at 11 men, several of whom, charged with accessories, were released Tuesday on bail in the sum of \$2,000 each. Of these three were overseers in the mill.

The defendants are awaiting with grave anxiety the verdict of the coroner's jury, which will Thursday morning hold an inquest over the dead body.

A. G. Justus, special mill deputy, Floyd Tidwell and Jesse Jackson, overseers in Judson mill and four other non-union operatives, accused in a warrant issued Monday by Magistrate W. W. Smith, were admitted to bail in the total sum of \$14,000 which was justified Tuesday evening about 7 o'clock by John M. Geer and B. E. Geer, president of Judson mill.

Upon affidavit that the accused seven, who were charged specifically with assault and battery with intent to kill were not participants in the rioting and that none with the exception of Deputy Justus were in the immediate vicinity, the magistrates decided that the law would uphold them in granting bail. Their attention was also called to the statement of President Geer that detention of the defendants would have seriously crippled the mill in its efforts to operate.

Four men—Gordon Brown, D. G. Huggins, J. M. Humphreys and T. A. Harney—who were arrested Saturday by Sheriff Reeder, are held in custody. With the exception of Harney all of the accused are said to be non-union operatives.

Arrangements for the burial of David Frazier are yet to be made. The body will be viewed Thursday morning at 9 o'clock by the coroner's jury, immediately after which Coroner Taylor will proceed with the inquest.
