

SHORTAGE OF MEN CHECKS FUNSTON IN BANDIT CHASE

HEAVY REINFORCEMENTS NEEDED BEFORE PURSUIT IS CARRIED FURTHER

FUNSTON WANTS FREER HAND IN THE SITUATION

General Scott Expected to Return to Washington at Once—Held Only One Conference.

(By Associated Press) Washington, April 22.—Decision as to whether American troops will be withdrawn from Mexico may be reached by President Wilson and the cabinet Tuesday. This was indicated tonight when it was reported from San Antonio that General Scott may be back in Washington in time for the cabinet meeting. While Secretary Baker declined to comment on General Scott's decision to come back after only a short conference with General Funston, it is known that General Funston feels he cannot go further with the pursuit of Villa unless heavily reinforced. General Funston wishes a freer hand in dealing with the problems of supply and information beyond the border.

It is recalled that President Wilson rejected plans of the general staff for virtual military occupation of northern Mexico when the expedition was originally contemplated. The administration felt that such a movement meant certain war with Mexico, and points to the present friction as a result of a small punitive force, to support this view. There is no reason to believe the administration has changed its view point. If General Scott recommends the expedition be freed of restraint and reinforced, or

CADETS ARRIVE MONDAY FOR WEEK ENCAMPMENT

DUE TO REACH ANDERSON ON REGULAR TRAIN LEAVING CLEMSON AT 8:07 O'CLOCK

BASEBALL GAME IN AFTERNOON

At Which Time Addresses of Welcome Are to Be Made—Large Attendance Expected—Day's Program.

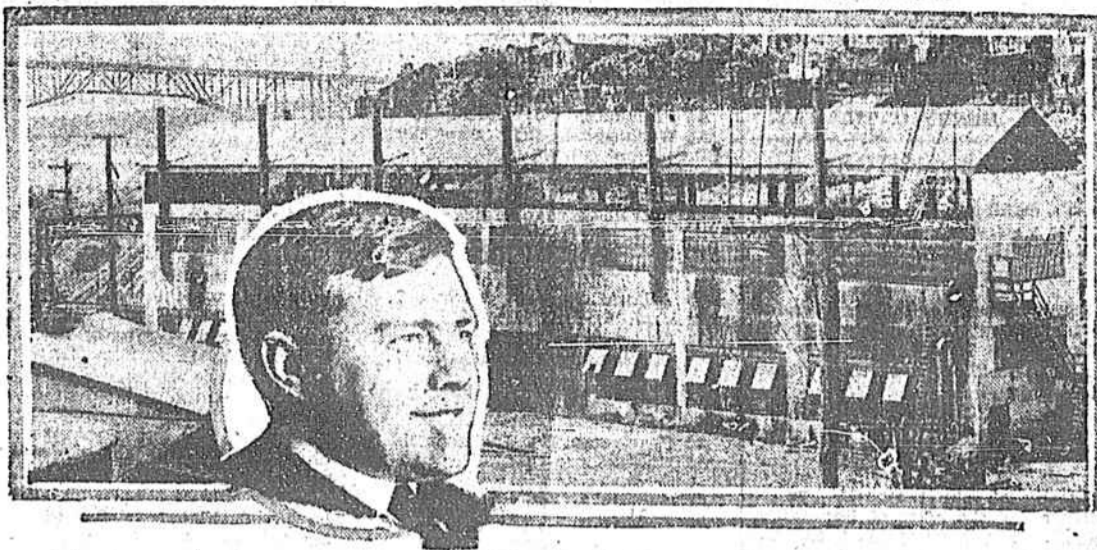

The Clemson cadets, 740 strong, will arrive in Anderson on the regular morning train from Seneca which leaves Clemson at 8:07, and which will carry 12 additional coaches for the accommodation of the students. This train is due to arrive in Anderson at 9 o'clock, but will probably be a little late. On their arrival the cadets will march directly to the camp.

The encampment grounds on Greenville street on the property of Mr. A. P. Cater are in readiness for the arrival of the cadets. The tents are all up, and the cadets will find one of the most suitable places for their camp, that could possibly have been selected. Being in a pasture which is well sodded with Bermuda grass, and also under plenty of shade trees, the camp is ideally located. There is ample room for drill practice in the pasture, and the exercises will be held there every day. Mr. Cater, who generously offered his property for the encampment, has left nothing undone which would add to the pleasure of the camp as far as he was concerned.

Baseball Park. Mr. Cater has about completed a baseball park just above Greenville street and just west of the interurban line and, although not definitely decided, it is almost an assured fact that the game will be played here on Monday afternoon.

(CONTINUED ON PAGE FIVE.)

Making Gasolene Cheap for the Poor Motorist

Dr. Walter F. Rittman.

This is Dr. Walter F. Rittman of the Federal Bureau of mines and the experiment station in Pittsburgh, where he makes gasolene much cheaper

than that sold by the Standard Oil. He experimented till he could add 200 per cent to the quantity taken from petroleum. This station cost \$250,000. Representative Randall of California

proposes that the government acquire by condemnation proceedings all the oil producing lands in order to keep down the price of petroleum and its products.

S. C. FOR WILSON

(Special to The Intelligencer.) Columbia, April 22.—Governor Manning tonight addressed the following telegram to President Wilson: "Democratic clubs in South Carolina met this evening for re-organization for the coming campaign. Our expectations are realized as to endorsements of you and your administration."

A NEW PARTY SAYS "J. HAM"

"Peace, Prohibition and Prosperity Will Be Foundation Declares Senator Lewis.

(By Associated Press) Atlanta, April 22.—Senator J. Ham Lewis, of Illinois, predicted that a third party, founded on "Peace, Prohibition and Prosperity," would be formed immediately after the republican and democratic conventions. Lewis explained that neither of the present parties could take the position which would indicate to Europe that the United States is not backing the administration's foreign policy. The new party will be formed by those disapproving the present foreign policy. In speech to the Georgia Bar association he urged a closer union between the United States and Latin America to resist aggression after the war.

Floridian's Suicide.

Ocala, Fla., April 22.—L. P. Ballard, a prominent business man, committed suicide here. He cut his throat over business worries.

RITTMAN PROCESS OF MAKING GASOLINE IS BEING TESTED BY U. S.

Washington, April 22.—Commercial manufacture of gasolene under the Rittman patents, owned by the government, was begun today. Experts of the bureau of mines have demonstrated that this system will produce four or five times as much gasolene as will the present method of distillation. An oil company in Pittsburgh has been given the right to try out the system under commercial conditions.

Representative Foster of Illinois

chairman of the house mines and mining committee, is preparing a resolution to be introduced in the house designed to protect the government patents. The bureau of mines officials said today that the government is prepared to permit the use of the system by any reputable oil concern. They decided that its adoption is essential, as it will increase the present gasolene supply available from every source estimated to last 27 years.

LOOK OVER CHICK IN INTEREST OF SCHOOL

Greenville, April 22.—Captain John W. Moore, post adjutant at the Citadel, Charleston, arrived in Greenville this afternoon about 1 o'clock, and in company with Capt. W. D. Workman and G. H. Mahon, Jr., went to Chick Springs shortly after arriving here, to look over the property to consider its possibilities as a site for a military school.

The party was taken to Chick Springs by J. A. Bull, who with associates recently purchased a four-fifths

interest in the Chick Springs property. Captain Workman and Mr. Mahon have taken an active interest in getting the military school proposition before the citizens of Greenville, and it was upon their invitation that Captain Moore came to Greenville to look into the matter. Captain Moore will probably be asked by local business men who are interested in the establishment of the school, to assume the presidency of it, if he is favorably inclined to such a proposition after his conference here this afternoon.

ARMY MEN SICK OFTEN AND LONGER THAN ANY OTHER BODY OF MEN SAYS HEALTH REPORT

(By Associated Press) Washington, April 22.—Officers and men of the United States army were sick oftener and longer, in 1914 than any other body of men which came under the observation of the public health department, according to a report on disability statistics published today.

Six hundred and twenty-nine enlisted men out of every thousand were admitted to the sick report. The average annual disability of soldiers lasted thirteen and a half days. Government employees in Washington lost only about six days for disability. Men in the civil service about five days and the women about nine.

ATLANTIANS SEEM TO POSSESS FISH STREAK AS SUMMER APPROACHES

Atlanta, April 22.—Swimming will be more popular in Atlanta this summer than ever before. In every man and woman there seems to be a streak of the fish, so to speak. In recent years Atlanta has discovered that far and away the most popular feature of her city park system are the various swimming pools which are operated free for the public. This year three new places will be opened in addition to Piedmont park, which is the biggest aquatic resort, and the park authorities have gladdened the hearts of swimmers—especially of the gentler sex—by announcing that no prudish rules will apply to the cut or style of bathing suits. Anything that is decent in the way of a man's or woman's bathing suit will be allowed in the local swimming pools, and only the occasional man or woman who attempts to "get by" with something that no public bathing resort will allow will be dealt with by the authorities.

B. E. Suspend Operations. Santander, Spain, April 22.—Owing to lack of coal the Cantabric railway company recently announced that it had decided to suspend the operation of all traffic for an indefinite period.

A FALSE REPORT THAT BODY DOROTHY ARNOLD WAS FOUND IN CELLAR

New York, April 22.—The body of Dorothy Arnold was not found in the cellar of the house outside of West Point where New York detectives searched yesterday. Police Inspector Faurot announced today. He said there is no truth in the published stories that the body was discovered. Faurot expressed the opinion that there is nothing to the story told by Octave Charles Glennerey, a convict in the Rhode Island prison that he aided in the burial of a young woman resembling Miss Arnold. Nothing was found in the cellar. Dorothy Arnold disappeared while shopping on Fifth avenue in 1910.

New York Stocks. Wall Street, April 22.—Much excitement and further free selling marked today's two-hour session. War shares and stock companies operating in Mexico broke four to eight points. The entire list including investments was affected. Mexican Petroleum lost 3 points. United States Steel was 1/2 point weaker. The close was weak. Bonds were active and weak.

New York Cotton. New York, April 22.—Today is a holiday in cotton, coffee, sugar and cottonseed oil markets. 23 1/2

BOTH HOUSES VOTE TO BAR FREE SUGAR

Senate Yields to House Measure Providing Straight Repeal of Tariff Clause.

(By Associated Press) Washington, April 22.—Sugar will not go on the free list May the first, the senate today yielding to the house measure providing a straight repeal of the free sugar clause of the tariff law. By a vote of fifty-nine to ten the senate rescinded its own amendment, which would extend the existing sugar duty of one cent per pound for four years. Tea democrats voted against supporting the house resolution. The present duty yields about fifty million dollars annually.

BY THE CENSOR

(By Associated Press) London, April 22.—Fierce attacks and counter attacks have been launched in the region of Deadman's hill, northwest of Verdun, and neither side claims gains as a result. Paris admits the Germans got a foothold in some new French trenches, but were later expelled. Berlin concedes a French gain in Caurottes Wood.

British attacks north of Ypres regained two hundred yards of trenches recently captured by Germans in that section. The Russian troops recently landed in France are already on their way north presumably for the front, passed through Lyons today.

General Smits, commanding the British campaign against the German in East Africa, announces the capture of Umburgo and Salanga, one hundred miles inside of the border or German colony. Constantinople reports that the British lost four thousand killed and wounded in a battle on the Tigris river, April seventeenth. The Turks also declare that a Turkish aeroplane made a flight of two hundred miles and dropped bombs on a British camp near the Suez canal.

Noble Coal Mines. Peking, April 22.—Much comment has been caused by announcement in Japanese newspapers that Kishichiro Okura, heir to Baron Okura, has decided to engage in coal mining in the Yangtze Valley under the firm name of Okura & Co. The mines are thirty miles southwest of Nanchang in Kiangsi province. The company has already obtained permission from the Chinese government for the operation, and the work will be carried on jointly with Chinese capitalists. It is expected that the new property will win a very short time, be producing three hundred and fifty thousand tons of coal annually.

Find Rich Beds Iron Ore. Tientsin, April 22.—Rich beds of iron ore have recently been discovered at Lalou-hai in Shaantung province, and government experts are now investigating the deposits. Lalou-hai is about thirty miles east of the railway connecting Tientsin and Nanking, and about twenty miles from the important town of Tientsin. A hasty survey of the iron deposits resulted in an estimate that two hundred million tons of iron ore of a high grade are available. The government hopes to utilize this ore at the Tientsin arsenal in Shaantung province.

DRASTIC NOTE IS BIG SURPRISE TO GERMAN OFFICERS

A FAIR EASTER

(By Associated Press.) Washington, April 22.—A fair Easter Sunday for most of the country was promised tonight by the weather bureau. Clear skies and moderate temperatures are indicated for the South. Showers are forecast only for New England and the interior of New York.

THIS "FORD JOKE" A PUN

Henry Will Accept Presidential Nomination "If People Want Him."

(By Associated Press) New York, April 22.—Henry Ford tonight announced that he would accept the nomination for presidency "if the people wanted him." He declared, however, one thing was certain he would not finance a third party. While he said he regarded his nomination as a joke, he is not quite sure "as to whom the joke is on." He pointed to his recent endorsements in middle western states as "significant of what people thought of militarism."

Easter in Atlanta. Atlanta, April 22.—One hundred thousand Easter Lilies were consumed in Atlanta in observance of the official opening of spring, and Atlanta florists did not fail to "get theirs" when it came to prices. They were lucky in escaping hailstorms with their outdoor plants and forced and held back plans in such a way as to time the big blooming exactly. Roses also brought tremendously high-toned prices around Easter time, as well as other flowers appropriate to the season.

BERLIN HAD NO IDEA COMMUNICATION WOULD BE SO FINAL

U. S. IS PLANNING FOR WORST WHILE AWAITING REPLY

Washington Informed That Note Has Gone to Army Headquarters and Kaiser is Considering it.

(By Associated Press.) Washington, April 22.—Despatches received from Ambassador Gerard, it was learned here, indicate that German officials were greatly surprised at the demands of Washington. Ambassador Gerard is said to have gathered at least an impression that the foreign office had no idea that the communication would be as final and drastic.

While Washington is waiting official word from Berlin it understood the United States is making plans to cope with every situation should relations be severed. It was learned here that the note has gone to the German army headquarters where it is being considered by the emperor, Chancellor von Bethmann-Hollweg, and General von Falkenhayn, German chief of staff.

Gerard conferred with the foreign minister Von Jagow tonight, but the German reply is not expected before Wednesday.

500 Tons Ore Daily. Christiansa, April 22.—British capitalists who own large iron mines at Dunderlandsdal in the province of Helgeland near the Swedish frontier, where some years ago important operations were commenced and afterwards suspended will resume operations with the object of producing 500 tons of ore daily.

J. E. CLINKSCALES BUYS VALUABLE STORE ROOM

ROWDYISM AT ATLANTA BASEBALL PARK NOT TO BE LONGER TOLERATED

Atlanta, April 22.—Throwing cushions at F. Vance DeLeon baseball park has become such a nuisance that the owners of the Atlanta baseball club have employed special policemen and stationed them in the grandstand with orders to arrest every fellow that imagines the proper way to celebrate a hit by a home player is to lambast some neighbor on the back of the head with a canvas bag packed full of cotton. Persons of a quiet nature who attend ball games to witness the playing fall to receive the enjoyment of being used as targets for cushions by over-enthusiastic rooters.

Another thing they object to is the promiscuous throwing of empty soft drink bottles, which sometimes fall the human cranium rather violently. The special ball park policemen are also rounding up this variety of rooter, while Police Judge Johnson is doing his full share by fining offenders to the limit of the law.

Leggings Protection TO SOLDIERS AGAINST DISEASES OF TROPICS

Washington, April 22.—The stout leggings worn by members of the United States marine corps are not a purely decorative adjunct to their very natty uniforms, as popularly supposed by civilians, but are a protection for the men against tropical diseases while in foreign service, naval surgeons say.

Many of the most dangerous tropical diseases are transmitted by the bites of insects. Among these are malaria, yellow fever, bubonic plague, hookworm, leptospirosis and tropical typhus. Fleas and mosquitoes are the prime carriers and they make their first attack upon the ankles, thence working their way over the whole body.

The leggings worn by the United States marines afford splendid protection to the ankles against fleas, mosquitoes, and infested dirt.

WILHITE PROPERTY ON EAST SIDE SQUARE SOLD FOR CONSIDERATION OF \$25,000.

BIGGEST DEAL IN SEVERAL MONTHS

Store Room Now Occupied by Grocery Store and Adjoints Another Owned by Mr. Clinkscapes.

Mr. J. E. Clinkscapes yesterday purchased Miss Mary Wilhite's store room on the east side of the square, the purchase price being \$25,000. The deal was consummated through the Anderson Real Estate & Investment company, and the deeds of sale were signed yesterday afternoon, although the contracts had been made on Tuesday of this week.

In buying this property Mr. Clinkscapes has become owner of what is considered one of the best pieces of property in this city. The building is two stories high, is of brick, has a frontage of 26 feet and runs back to McDuffie street a distance of 220 feet. At present the store room is occupied by Mr. W. G. Hamsey's grocery store. The deal consummated yesterday is the largest of its kind that has been closed in Anderson in the past several months. The price paid is a good one, and proves that Anderson real estate is considered valuable.

This store room joins the one now owned by Mr. Clinkscapes and which is occupied by Mr. A. W. Kay. As announced several days ago, the Kay store room has been leased to the Woolworth company and that after it is completely remodeled, will be occupied by one of their five and ten cent stores. It might be stated in this connection that there is no doubt about this store being operated in Anderson, since a lease signed by the home office in New York is now in the possession of Mr. Clinkscapes.
