PORTIONS CARRANZA NOTE REGARDED AS HIGHLY OFFENSIVE

Doubtful if U. S. has ever received Communication Couched in so Offensive Terms—President Wilson Determined to Keep Troops in Mexico Until Conditions are Satisfactorily Adjusted.

(By Associated Press.)

Washington, June 1.—Carranza's note demanding the withdrawal of American troops has brought no change in the determination of President Wilson to maintain present troop dispositions until Carranza has demonstrated his ability to stop bandit raids. It was stated authoritatively today that Pershing's force would remain until that time arrived.

A reply will be made to Carranza, but its form was not determined upon.

It is understood that portions of the note are regarded as highly offensive by Washington. It was said to be doubtful if the United States government ever received a note couched in so offensive terms and an apparent violation of diplomatic uses as this twelve hundred word arraignment of the United States' good faith and honesty of purpose.

DEMOCRACY VS G. O. P. —AS BAKER SEES IT—

Columbus, O., June 1.—Secretary of War Baker, in an address as chairman of the Ohio Democratic convention here today, declared the republican party is "an aggregation of factions agreeing upon no set of principles," and compared it with the democratic party which he said had carried out a wise and definite program in economic measures, national preparedness and foreign policy. The party will be continued in power to mature its program, he predicted.

Referring briefly to politics in Ohio, his home state, the secretary expressed the hope that the present republican administration "characterized by feebleness and uncertainty" would be replaced by the democrats next year and that special attention would be given to relieving the financial stringency of Ohio cities.

Secretary Baker praised President Wilson for pressing enactment of the federal reserve and rural credits systems, tariff reduction for upholding America's ideals in dealing with Mexico, and for steering the United States away from participation in the European war. He expressed satisfaction that the preparedness program had been moderate.

Attacking the republican party, Secretary Baker said: "To speak of a man as a republican today identifies him with an cause, ascribes to him no opinion, and whether it amitates him with progressives or reactionaries or both cannot be told until after the national convention in Chicago next week." He declared that Senator Harding, of Ohio, who will preside at the republican convention, represents a faction which believes the "evil" should be the issue in the coming campaign, while other republicans favor an attack on the foreign policy of the present administration. Opposition camps divided into those who believe the administration has been too bellicose and those who fear it has been too peace-loving, he said.

"Then there is a third group," the secretary continued, "headed by the great doctor, who, starting from position in position on the nation's foreign policy, objects at each time to whatever 'vantage point' seems to offer an opportunity for making dramatic speeches in the presidential campaign."
