OVER AN HOUR CROWD ROARS 'GIVE US TEDDY'

All Records For Previous Demonstrations Broken When Roosevelt's Name Comes up in Progressive Convention.

(By Associated Press.)
Chicago, June 7.—The progressive convention opened in their auditorium today with a record breaking demonstration for Roosevelt. For one hour and thirty-three minutes the delegates roared, shouted and applauded, sang progressive hymns, paraded the aisles and howled down all attempts to check them. The demonstration exceeded the previous record for such affairs, which was a hour and twenty-nine minutes in the democratic convention in Denver in 1908 in behalf of Bryan.

Temporary Chairman Robbins had spoken just three sentences when he mentioned Roosevelt as "the foremost citizen of the world." The response was instantaneous. "We want Teddy" roared the delegates and the demonstration was on. Banners were torn from the stanchions and delegates flowed onto the platform and wrung Victor Murdock's hand until his collar wilted. Chairman Robbins made several attempts to quell the demonstration, but after a few raps of the gavel gave it up.

The demonstration then spread to the gallery. The Michigan delegation demanded an outdoor demonstration. "Teddy is not afraid of rain," they cried, and many delegates poured out of the auditorium in a down pour, chanting "Teddy you're a bear."

A proposal to have the police quell the demonstration was abandoned as too dangerous and the leaders said "let them yell it will be easier to delay action on the nomination." When Robbins finally resumed speech he promised the leaders not to mention Roosevelt's name again. He promised the delegates that there would be no unnecessary delay in the nomination and the convention adjourned.

It is planned to make this a more interesting and more helpful meeting this year than it has ever been. Some prominent speakers have already been secured, and special emphasis will be placed upon the farmer's exhibits, and the women and boys work.

Nomination Of Hughes Seems To Be Assured

(By Associated Press.)
Chicago, June 7.—More leaders are predicting tonight that Hughes will be nominated than at any time since the republicans began to assemble. They declare that unless signs fall the nomination of Hughes will come sooner than predicted. This view is based on the fact that conference between the leaders to discuss the advisability of candidates has practically ceased. Indications that a majority of the delegates have already reached a decision to name Hughes. Some say the Hughes boom has grown so that Roosevelt no longer holds the vote power which had been conceded him as a part of the program to bring republicans and progressives together.

NO ENTHUSIASM G. O. P. MEETING

Delegates Show More Interest In Moose Convention

Chicago, June 7.—In a session lasting ten minutes the republican convention committee decided to adopt a temporary organization to act throughout its sessions. The republican convention session proper today lasted about two hours and was marked by lack of enthusiasm and demonstration. The temporary chairman read a prepared address which scored the "inefficiency" of the democratic administration. He was frequently interrupted by applause.

Scarcely any of the big republican leaders were recognized by the delegates as they took their seats. Most every one in the coliseum seemed to be more interested in what was going on in the auditorium where the progressives were holding their convention. The republican convention reconvenes at 4 o'clock tomorrow.

A View of North Sea Showing Scene of Earl Kitchener's Death and Recent Naval Battle.

The greatest sea fight in the history of naval warfare was the battle between German and British ships off the coast of Denmark, May 31, in which the Warspite, one of the five greatest battleships built, was believed to have been sunk, along with nine other important British vessels. This map shows the location of the fight. The Orkney Islands, off the northeast coast of Scotland, is close by the spot where the Hampshire, with Earl Kitchener and his staff aboard, went down.

ISSUE MADE OF MEN INSTEAD OF WORDS

PROGRESSIVE PLATFORM URGES PREPAREDNESS IN 'SPIRIT OF ARMS AND INDUSTRY'—WANT SECOND NAVY AND BIG ARMY

(By Associated Press.)
Chicago, June 7.—Preparedness in the "spirit of arms and industry" was the dominant theme of the progressive party platform, a tentative draft of which was completed tonight for presentation to the convention tomorrow. It breaks all records for brevity and consists of a broad statement of what the country needs rather than an array of separate planks. It calls for a navy second in size to an army of two hundred and fifty thousand and universal opportunity for military training under federal supervision.

"Full political suffrage" is endorsed by the progressives, and a permanent export tariff commission, high protective tariff regulation of industries, conservation and development of national resources is advocated.

The platform says the present situation makes an issue of men rather than words and says the "progressives will meet any party which sees the nation's needs and puts forward a leader fit to meet them."

London, June 7.—Premier Asquith has taken charge of the war office temporarily. It was announced today.

Sen. Tillman In Favor Of Naming T. R.

'Let People Have Roosevelt If They Want Him,' He Tells Greenwood Friends

Greenwood, June 7.—Senator Tillman hopes the republicans will nominate Col. Theodore Roosevelt for president in the Chicago convention.

"It's just this way," said the Senator, crossing his index fingers, "Roosevelt is for war at any price with a chip on each shoulder and one on top of his hat, while Wilson is for peace with honor. If the people of the United States want a man like Roosevelt elected president I am in favor of letting them have him."

Senator Tillman made this statement to several friends at the passenger station this morning while awaiting the arrival of the C. & W. C. train for Augusta.

"What are the republicans going to do in Chicago this week?" was the question one of them asked.

"I don't know, but I hope they will nominate Roosevelt," was the reply. "And then he made the illustration with his fingers, showing that the colonial and President Wilson are exactly cross-eyes as to their views about war."

Senator Tillman spent last night in the city with his son, Mr. Henry C. Tillman, and took today to his home at Tronton for a short visit before he returns to Washington. He will be busily engaged in naval affairs upon his return to the senate.

As published broadcast a few days ago the great sea fight in the North Sea, the senator is in favor of making even a stronger navy than the democrats have advocated up to this time. He will push the increase as chairman of the naval affairs committee.

Senator Tillman and Mr. Henry Tillman came from Florence yesterday afternoon in an automobile and ran into the rain and wind storm several miles out of town. The wind blew as into a ditch, said the senator, "but the curtains were up and we were as snug as a bug in a rug."

(By Associated Press.)
Tampa, Fla., June 7.—Returns although still far from complete tonight further increased the lead of Governor Park Trammell over Senator Bryan for the United States senatorship and decreased the lead of Sidney J. Catts over W. V. Knott for the governorship. Congressman Spearman is apparently decisively beaten in the first district by H. J. Drane. W. J. SUCCESSFUL SESSION IS CLOSED AT G. W. C.

President and Trustees Highly Pleased—Practically All of Teachers to Remain

(Special to The Intelligencer.)

Greenville, June 7.—The commencement of the Greenville Woman's college closed last night one of the most successful years the college has ever known. All the college functions, festivities and ceremonies have been unusually good. At a meeting of the board of trustees of the college on Monday afternoon, most gratifying reports were made, and most auspicious announcements were heard. The president's report to the board was a most pleasing and satisfactory one. The enrollment of 494 students is the second largest in the long history of the college, making G. W. C. the second largest college for women in the state. The financial report was the best ever known.

A one thousand dollar check was handed to the board of trustees while in session, by Mrs. B. M. Shuman. This is the amount left to the college in the will of the late Mr. B. Shuman, a long time president of the board of trustees, and a life long friend of the college.

Resolutions of sympathy were passed by the board in connection with the death of Mrs. Henry E. McFar, an alumna of the college, and one of the best friends that its college ever had.

It is gratifying to all friends of the college that nearly all of the former teachers are to remain for the next year. The president and board of trustees are greatly pleased with the personnel of the faculty, and the work accomplished during the session. The success of the college depends so much upon the cooperative and enthusiastic spirit of the college that G. W. C. feels very fortunate in having a group of teachers all of whom are interested in all college activities and earnest and able workers. Students and teachers and administration have labored together most satisfactorily.

(By Associated Press.)
Washington, June 7.—A proposal to Carranza that the United States and Mexico submit the whole subject of their relations to an international commission is being seriously considered by the administration. It made the proposal will serve as a reply to the Mexican note regarding withdrawal.

A settlement by such a commission is expressly provided in the treaty of 1848. President Wilson and Carranza under this plan would appoint an equal number of commissioners to meet outside the territory of both countries.

There was no indication tonight that President Wilson had reached a decision on whether the proposal would be made.

ATLANTA WOMAN TO SEE DUTY AT FRONT

Wife of Newspaper Man to Join Husband

Atlanta, June 7.—If she can get her passport in time, Mrs. William B. Seabrook, of Atlanta, wife of the well known Atlanta newspaper man who enlisted some weeks ago in the American ambulance in France, will sail from New York on June 17 to join her husband at the front. Mrs. Seabrook has secured a post as auxiliary nurse in the American ambulance hospital, which is located at Neuilly-sur-Seine, a short distance from Paris, and will be straight to the hospital when she lands in Bordeaux.

Mrs. Seabrook intended to go with her husband when he left, but her father, John L. Edmondson, a prominent lawyer of Atlanta, refused to grant his permission for fear the steamer would be sunk by a German submarine. At last, however, she has secured her father's consent. On applying yesterday for a passport she found that a new file has recently been promulgated by the department of state in Washington against the issuance of passports without two weeks notice.
