AMERICAN PRISONERS RELEASED

TREVINO REPORTS TROOPERS ON WAY TO BORDER LINE

War Clouds Temporarily Lifted; Up To Carranza

Upon Attitude of Mexican Government Will Depend Beginning of Hostilities—Mobilization of National Guard of Southern States Practically Complete and Plans for War Continue Throughout Country.

(By Associated Press.)

El Paso, June 28.—General Trevino has ordered that American prisoners interned in Chihuahua City penitentiary be taken to Juarez and released. This information was received tonight at the Juarez Commandancia. Mexican authorities asserted that General Bell had been notified of Trevino's order and the prisoners are expected to reach the border tomorrow. Bell did not deny the report, but refused to discuss it. He said any report on Mexican advices would be made public by Funston. There are twenty-three negro troopers of the Tenth cavalry held prisoners and Lem Spillsbury, a Mormon Scout.

REPORT IS HANDED FUNSTON.

(By Associated Press.)

San Antonio, June 28.—Gen. Funston tonight received a report from General Bell at El Paso stating Bell had been notified by Mexican consul Garcia that the troopers taken at Carrizal are on their way to Juarez and probably will arrive tomorrow. According to the report Garcia received from General Trevino, the prisoners are to be delivered to the American authorities at once.

SOUTHERN STATES READY.

(By Associated Press.)

New York, June 28.—Mobilization of National Guard of Southern States virtually complete tonight, according to army headquarters here. All units called in Virginia, South Carolina, Tennessee, Alabama, Florida, Mississippi and Louisiana are in camp, while the last of the Georgia troops are expected tomorrow and North Carolina Saturday. Approximately twenty thousand are already in camp and several thousand of these are expected to get away in a day or so. Gen. Funston designated Del Rio, Texas, as the station for the Florida Troops, but it was said here the Florida regiment would not move yet because of many raw recruits.

Erroneous Report.

(By Associated Press.)
Columbus, June 28.—Officers here tonight said they are convinced the report that six Mexicans are believed to have been the murderers of William Parker and his wife near Hachita was erroneous. It is believed the report is the result of a riot fight between Americans and Mexicans on a train between Douglas and Hachita.

Freedom of Movement.

(By Associated Press.)
Washington, June 28.—If negotiations are taken up the United States will insist upon the freedom of movements for Pershing's expedition during any period of delay.

Preparedness Goes On.

(By Associated Press.)
San Antonio, June 28.—There are no indications at army headquarters that the liberation of the prisoners will affect in any way the movement of guardsmen to the border. First contingents of eastern troops will enter Texas tomorrow or the next day. It was announced that Missouri troops will go to Laredo.

UNABLE TO TELL WHETHER WAR BLOCKED OR DELAYED

Immediate Break With Mexico Averted by Release of Prisoners, But Hostilities Yet Depend On Attitude Carranza Takes.

(By Associated Press.)

Washington, June 28.—An immediate break with Mexico has been averted by a compliance with the American demand for the release of the twenty-three troopers captured at Carrizal. Whether war is prevented or merely postponed none would attempt to say tonight. Official information as to Carranza's attitude is lacking.

Until Carranza's reply to Secretary Lansing's note sent Sunday is received there will be no decision as to whether President Wilson will lay the crisis before congress. Press dispatches announcing the release of prisoners caused undisguised relief here and is accepted as true, although there was no announcement through official sources.

While the tension was lessened somewhat the question of Carranza's attitude toward the Pershing expedition is still unsettled. If Carranza stands upon the orders to General Trevino to attack Pershing's men when they move otherwise than toward the border, the situation is just what it was before. However, there is a possibility of settling the question through negotiations which did not exist while the Americans were held prisoners. Preparations of the United States for war will go steadily forward.

IS PROUD OF NATIONAL GUARD

Governor Harris, in Message to Legislature, Refers to Prompt Mobilization of Militia.

Atlanta, Ga., June 28.—"The second regular session of the present legislature finds the country improved, so far as its general financial condition is concerned," declared Governor Nat E. Harris in his message to the Georgia legislature today.

"Business has continued to advance, and the recent low prices of our farm products have become things of the past. The merchants are selling for higher profits and in greater volume. The banks are thriving; money is easy, and the people of the commonwealth, generally, are in much better spirits, in every respect than prevailed at your last meeting.

"While the war still rages with unabated fury across the ocean yet our people have escaped its ravages, and our country, up to this time, has been free from attack by outside foes, save a few incursions on the borders of Mexico.

"The call for the National Guard, it is hoped, has been more to teach our sister republic that the United States is not as helpless as our critics have sought to prove, rather than for the purposes of serious warfare. The result has certainly disclosed the fact that a call to arms will be heard as quickly, and answered as promptly now, as was the case in 1897 or the recent.

"It is a pleasure for me to tell you that our state met the demand as readily, and that our guard was in the field equipped and mobilized as quickly, as the other states.

DELIBERATE INSULT TO UNITED STATES FLAG AND INVASION OF RIGHTS OF AMERICAN CITIZENS.

WASHINGTON HAS SENT REPLY AS TO SUB ATTACK

Punishment of Commander and Indemnity Asked for the Destruction of Tanker Petrolite.

(By Associated Press.)

Washington, June 28.—The American reply to Austria regarding the Austrian submarine attack on the American tanker Petrolite, made public today, describes the act as a "deliberate insult to the United States flag and the invasion of the rights of American citizens." It requests a prompt apology, punishment of the submarine commander and an indemnity.

Communications which were sent a week ago assert that the United States believes the facts in the case are entirely different from those which the Austrian submarine commander reported them. The Austrian claims that the Petrolite's captain voluntarily gave the steamer taken from the steamer by the submarine, contracted as an act of war, as a warning shot was fired over the vessel's bow before she was abho.

One seaman aboard the Petrolite was wounded in the shelling. The attack on the Petrolite was made in the Mediterranean sea, December, the 5th. The America asserted the vessel was shelled without warning and when he came to some of the submarines crew came aboard the Petrolite and took off her supplies.
