ANDERSON BOY IS WONDER OF CUBS

McConnell Continues to Star With Chicago Club.

George McConnell, the Anderson boy who is starring with the Chicago Cubs in the rifle pit, twirled another sensational game for that club against the Pittsburgh Pirates on Wednesday. The Anderson lad went 17 innings with the score tied 2 and 2, and was not taken out until Wilson drove a homer into the bleachers and won for Pittsburgh.

The following account of the game was given in Associated Press dispatches as follows: Chicago, June 28.—Art Wilson's drive into the bleachers gave Pittsburgh the winning run in the National League's longest game of the season today, an 18 inning affair. The score was 3 to 2, the same by which the Pirates won the first section of the doubleheader, a nine inning game. McConnell, the Cub pitcher, worked through the entire first 17 innings and was taken out in the 18th only after Wilson's long hit had been made.

Wilson's home run was one of three Zwillung put the Cubs in front with one in the fourth, but the Pirates tied the count when Baird scored from second on Schultz's infield out in the eighth. Then in the 11th Casey's home run, is fourth hit, gave Pittsburgh the lead, and successive singles by Knabe, Saler and Fischer tied the score again.

Pittsburgh used four pitchers, Miller started and gave way to Shultz, a pinch hitter, after pitching a splendid game for seven innings. Harmon worked for two innings and also quit to let in a batter. Jacobs was on the slab in the 11th, when Zimmerman, running for Knabe, scored the tying run and was taken out in the 13th when it looked as though he was wavering. Cooper finished the game in great form.

Forethought. People are learning that a little forethought often saves them a big expense. Here is an instance: E. W. Archer, Caldwell, Ohio, says: "I do not believe that our family has been without Chamberlain's Colic, Cholera and Diarrhoea Remedy since we commenced keeping house years ago. When we go on an extended visit we take it with us." Obtainable everywhere.

UNCLE SAM'S INCOME.

Treasury department officials estimate that the government's receipts during the current fiscal year ending June 30 will be from \$100,000,000 to \$100,000,000 more than estimated when congress convened.

Revised estimates showed the income tax, from \$55,000,000 to \$120,000,000, an increase of \$65,000,000 over the original estimate; ordinary internal revenue receipts from \$272,000,000 to \$305,000,000, an increase of \$33,000,000; customs receipts, from \$190,000,000 to \$215,000,000, an increase of \$25,000,000.

Customs receipts show that the government already has collected duties aggregating \$185,440,442, only \$1,000 less than the sum collected this time last year and within \$5,600,000 of the sum originally estimated for the entire year.

Customs receipts have been steadily rising since last December and now have passed \$20,000,000 a month. Continuance of present conditions for another year, officials believe, would result in the customs receipts nearly reaching the level attained before the war.

DR. PRATT'S ADDRESS.

Dr. Edward Ewing Pratt, chief of the bureau of foreign and domestic commerce, in a recent lecture discussed the problems that the American lumber industry faces. Here are some of his statements:

"Great instability has prevailed in the lumber industry—an instability that has made losses and not profits the order of the day.

"You are seeking a purely legal remedy for a problem which is purely economic.

"The lumber industry must find more efficient marketing methods and larger markets for its products.

"Foreign trade is one of the things vitally necessary if the lumber industry is to be put on its feet.

"Probably most lumber manufacturers have never exported a stick of lumber.

"Our lumber has sold in Europe, it has sold itself.

"Foreign trade is conducted through exactly the same fundamental business principles as domestic trade.

"The yellow pine industry should take up the matter of measurements in the South American trade.

"Why not have in every important center of South America an agency of this association which would keep its eyes open for opportunities?

"Why not have a score of offices to demonstrate to South America how to use wood to the best advantage?"

NEW COMMERCIAL ATTACHE FOR LONDON.

Pierce C. Williams of New York has been appointed American commercial attache at London to succeed Albertus H. Baldwin, who has held the post since the commercial attache service was inaugurated, nearly two years ago, by the bureau of foreign and domestic commerce, department of commerce.

At the time of his appointment by Secretary Redfield, Mr. Williams was connected with W. B. Grace & Co. of New York, having charge of their foreign trade in ores. He had previously been employed with the Crucible Steel Company of America, for which concern he traveled extensively in South America and Europe. Further experience in foreign trade promotion was acquired as an official of the Pittsburgh chamber of commerce.

Mr. Williams is only thirty years of age and is the youngest member of the commercial attache staff. He leaves at once for his new post.

EXPORT OF CALIFORNIA TOBACCO.

A firm in San Francisco reports to Commercial Agent E. G. Rabbit, in charge of the district office of the bureau of foreign and domestic commerce in that city that it has made a shipment equivalent to a carload, of "Turkish" tobacco grown in California to Australia. It is stated that if this shipment is satisfactory to the consignees it will probably lead to further Australian purchases of this product in California.
