

The June session of the court in this county has been a remarkable one in that there was no mistrial or acquittal.

The Negro Young Peoples' Christian Congress which is to meet next year is now figuring on a place for the convention which it is reckoned will be attended by 10,000 delegates.

McLaurin has been called a Republican and Tillman has been termed a Populist. The former has been called upon to explain wherein his views differ from those held by the Republican party.

So far the number of names necessary to secure a farmer's institute for this county has not been received. Surely there should be fifteen farmers in this county enough interested in this matter as to send in their names.

The Southern Industrial Convention is in session this week in Philadelphia. Its object is to bring about a closer relation between the North and the South in trade matters.

This has indeed been an eventful week. Most of the commencements in South Carolina are held between the second and third Sundays of June.

There is great gratitude throughout the State that Dr. Carlisle has consented to act as president of Wofford College for another year. No man has exerted greater influence for the cause of education in the Palmetto State than this distinguished son of Winnsboro.

Mr. D. A. Crawford was in Longtown some time since. Mr. Ed Bankhead of Winnsboro is visiting in this section. Mr. R. E. Stewart, of Winnsboro, is visiting relatives here. Mr. C. P. Wray is sending his telephone line from here to Mr. Wm. B. Kennedy's at Thorn-tree, three miles from the Longtown line.

Apropos of what was said in a recent editorial in this paper in regard to boarding schools, it will be noted that Wofford College has decided to establish another fitting school in addition to the two she already has. The significance of the establishment of this additional school, which will be in the Pee Dee section, is that Wofford College realizes that there is a demand for additional boarding schools in South Carolina.

will be the greater, for the number of those who will be advanced to the point of being able to do high grade preparatory work will be greatly increased. The success that is now attending the boarding schools that are in operation is a strong evidence that there is room for more such schools.

A Sensible Judge.

The court room is a place where a good many amusing things occur. The examination of witnesses is often the occasion of a good laugh for the visitors to the temple of justice. In many instances the joke is on the witness, but sometimes the table is turned and the examiner is the one who is hit.

Bryant and Longtown.

Longtown, June 11, 1901.—We are having excellent weather now for farm work. If the present favorable weather continues to prevail for a week or two longer, the farmers will, in all probability, succeed in conquering "general green."

Corn is looking well, in some instances. Generally speaking, however, it is smaller than it was at the same time last year. Cotton is not looking well; the superabundance of rain has proved very injurious to it.

And here it should be added that, while some may think that these exercises cost too much time from the regular work of the school and do not necessarily imply that the Luke school has been doing good work in other respects.

RIDGEWAY LETTER.

"Our town is not exactly on a 'boom' but still the sound of the hammer and saw is to be heard on our streets every day. Messrs. C. P. Wray & Co. have built a new brick store on the lot next to the bank building.

Miss May Thomas is home from the College for Women of Columbia.

Mr. N. H. Ruff, Jr., has returned from the South Carolina College for the holidays.

Miss Pearl Johnson is at home from the Columbia Female College.

Mr. John Wilson has returned from the South Carolina Co. Educational Institute at Edgefield.

Mrs. C. L. Wray, who has been quite ill, is reported to be much improved.

Mrs. R. N. Hollis is still very ill but doctors report her condition as improving.

Blown to Atoms

The old idea that the body sometimes needs a powerful, drastic, purgative pill has been exploded; for Dr. King's New Life Pills, which are practically harmless, gently stimulate liver and bowels to expel poisonous matter, cleanse the system and absolutely cure constipation and Sick Headache. Only 25c at McMaster & Co's drug store.

Presentment of Grand Jury.

To his Honor Judge G. W. Gage:

We have passed upon all bills handed us by the Solicitor.

We recommend that the proper authorities should purchase an iron safe for the use of the Ridgeway dispensary.

We have looked into the bonds of both dispensers by request of the Solicitor and find them to be good.

In our last presentment we recommended the purchase of a pair of bloodhounds for the use of the county, and recommend that the authorities give their attention to this at once.

It has been reported to this body that John Jackson is a nuisance to the lower part of the county and we recommend that the authorities take proper steps to bring him to justice.

Thanking his Honor and the Solicitor for courtesy shown us, we respectfully submit the above.

A SUCCESSFUL ENTERTAINMENT.

Tuesday evening at the Thespian Hall the Luke school repeated an entertainment that it had given in the country a few nights before. Whether it was the good things that had been said about this entertainment, or whether it was the interest the Winnsboro people felt in the success of this venture on the part of their visiting friends, there was an unusually large turn out.

Officers Elected.

At a meeting of the fire company Tuesday evening the following officers were elected: President—L. Landecker. Vice-President—C. K. Douglass. Secretary and Treasurer—Geo. B. McMaster.

Beans and peas are among the most nutritious of foods for men and animals. Persons with weak stomachs find these articles difficult of digestion, but if the skins are removed and only the pulped inside eaten this difficulty is removed. This is common experience, and is supported by the best authorities on nutrition.
