### Starving to Death

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters, of St. Clair St., Columbia, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters, with the wonderful result that improvement followed." Best health tonic on earth. 50c. Guaranteed by Jno. H. McMaster & Co., druggists.

### Text Books for Public Schools.

The public schools this season will use the new adoption of text books. The provisions of this new adoption are that all dealers must sell at the price printed on the book. The exchange prices only apply when corresponding old books, containing all the leaves, are offered in exchange.

No one would buy a sailboat with sails that could not be reefed. There is always that possibility of a little too much wind that makes a cautious man afraid to go unprovided. The thinking man, whose stomach sometimes goes back on him, provides for his stomach by keeping a bottle of Kodol For Dyspepsia within reach. Kodol digests what you eat and restores the stomach to the condition to properly perform its functions. Sold by all druggists.

### Chester County Determined to have Good Roads.

It will be seen from an official notice that the various sections of the county are called upon for propositions looking to the macadamizing of roads, and the best offer will get the first road, as is fitting and right. We learn that people along the York road are already moving for the roads out to the county line, seven miles from the city limits. They are subscribing by \$50 and \$100 per mile and some will do better than that. This permanent road making is the work of the county that eclipses all others in importance. —Chester Lantern.

When you have a cold it is well to be very careful about using anything that will cause constipation. Be particularly careful about preparations containing opiate. Use Kennedy's Laxative Honey and Tar, which stops the cough and moves the bowels. Sold by all druggists.

### The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others; Mrs. Ora A. Stephens, of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by Jno. H. McMaster & Co., druggists. Price 50c and \$1.00. Trial bottle free.

### Keistler Reunion.

A most enjoyable occasion and one that showed the goodness of God was the reunion a few days ago of the family of Mrs. M. A. Keistler, aged 84 years, at her home at Huntersville, N. C. She has four sons and four daughters; 36 grandchildren and 21 great-grandchildren, the most of whom were present at this happy gathering. There were more than 100 relatives present in all. Mrs. Keistler is the mother of Mr. J. W. Keistler at Mitford.

In these days of rush and hurry country is often forgotten. In the mad, pell mell rush of our life little things are done to offend that we rather remain undone. A hastily eaten meal and its resultant headache may cause us social or financial loss. The wise man or woman is the one who relieves little ills of this sort by a little dose of Kodol For Dyspepsia. It digests what you eat and puts your stomach back into shape. Sold by all druggists.

A peep in to the heavens through a modern telescope is a peep in to the very depth of mystery. With such an instrument one may gaze upon 100,000,000 stars, each of them a burning, blazing sun. From what little we know of creation we cannot but believe that each of those suns is giving light and heat to a train of planets, just in the same manner that our sun gives light and life to his little globe of worlds. Beyond these 100,000,000 suns there may be hundreds of millions. Thus they may continue "system after system and world without end."
