Mr. Sigmon's new mercantile building is nearing completion. It is a two story, thirty by fifty feet. In it will be a bank, drug store, grocery, and a full line of undertaker's supplies. The building will have an elevator instead of stairs, and a wind mill in the back yard, will force water through the building. With plate glass front and cement side walks this stand will be reduced to 10 cents a bale. Estimating a crop at a plate glass front and cement side walks this stand will be reduced to 10 cents a bale. Estimating a crop at a million bales, this would mean a saving of \$34,000 annually.
