

BIG ELECTRICAL DEVELOPMENT.

Southern Power Co. to Develop Two Additional Power.
(From Charlotte Observer.)

Official announcement has been made by the Southern Power Company of its plans shortly to commence work on two fresh power sites, one at the Ninety-Nine Islands on the Broad river, six miles south of Blacksburg, S. C., and the other at Rocky Creek, two miles below the Great Falls station, on the Catawba river. The development at the Ninety Nine Islands will produce 16,000 while that at Rocky Creek, will produce 30,000 of electrical horse power. The total cost of these two developments will approximate \$3,000,000. Both will be completed by January 1st, 1908.

Mention was made a few days ago of the addition of \$2,500,000 to the capital of the Southern Power Company. That corporation now has the largest capital of any having head-quarters in Charlotte. It owns the water rights for 110 miles along the Catawba river and controls the following named power sites: At the Catawba falls, near Rock Hill, S. C., at Mountain Island, near Charlotte, at the Lookout Shoals, near Hickory; at the Ninety Nine Islands, near Blacksburg, S. C.; at Great Falls near Fort Lawn, S. C., and the Wateres power, near Camden, S. C. The 150,000 of electrical horse-power which will be generated at three different points will be transmitted to cover a territory 150 miles in length and 100 miles in width. This territory stretches from Taylorsville, on the north, to Columbia, S. C., on the south; and from Greenville, S. C., on the west, to Darlington, S. C., on the east. Cotton mills and manufacturing plants of all kinds do this section, to all of which this power in time will be available.

Oil Mills are Not Paying Enough for Cotton Seed.

Professor J. M. Johnson, of the University of Georgia, says that \$16 per ton is low water mark for this year's cotton seed crop.

Prof. Johnson figures that each dollar put on to the selling price of seed means an increase of \$5,500,000 to the farmers of the South.

At present prices of cotton oil and meal the farmer should get at least \$18 for their seed, which amounts to \$5 per ton loss to the farmers on each ton that he sells for \$13, or a loss of over twenty-five million dollars on the whole crop of the South.

This loss on seed is one season would put up enough warehouses to take care of half the cotton crop of the whole South.

Our Farmers' Union experiments last year proved that ground cotton seed paid nearly \$25 per tons under cotton and \$19 per ton under corn.

Farmers don't sell your seed for six or eight dollars per ton less than the seed is worth for fertilizer. Farmers must look more after the business side of their farming for their own interest and quit taking the other man's figures on everything.—J. C. Stribling.

Letter to B. G. Tennant & Co.

Winnsboro, S. C.

Dear Sirs: A pound of good meat and no bone is worth more than a half-pound of meat and a half-pound of bone; but there are as you say, a great many people who won't pay more than a certain price by the pound. Give 'em bone; that's right; give 'em plenty of bone!

There are people who won't pay more than \$1.50 a gallon for paint; give 'em bone!

There's no better school than experience; cost is high; but the lesson is never forgotten.

Let a man paint two houses alike, same size; one Devco, the other that \$1.50 paint. He buys 10 gallons of each, and pays \$3 a day for labor—\$3 a day is \$3 a gallon, easier reckoning.

He has to buy two gallons more of the \$1.50 paint; and has two gallons left of Devco: 12 gallons \$1.50, \$18; 8 gallons \$1.75; \$14; \$4 more for "cheap" paint.

He pays \$3 a gallon for painting; 8 gallons \$24; 12 gallons \$36; \$12 more for painting "cheap" paint.

He'll buy the less gallons paint after that. If people are slow to learn, it's because they keep on buying bone-meat. Give 'em plenty of bone.

Yours truly
F. W. Devco & Co

Distraction of Birds.

Ladies who patronize the use of bird's feathers in millinery may be interested to know that certain species of birds are threatened with extinction by the prevailing fashion. The French organ, L'Agriculteur, reports that in one market recently and at one sale there were disposed of 12,000 humming birds, 28,000 parquets, 15,000 kingfishers, 20,000 aigrets and many thousand other birds of gorgeous plumage. Germany sends to London every year 20,000,000 feathers to be worked up into trimmings. The only hope for the poor birds is that the day may soon arrive when to wear the feathers of wild birds will be deemed bad form. Nothing else can save them. The greater beauty the worse their impending fate.

Keep the bowels open when you have a cold and use a good remedy to allay the inflammation of mucous membranes. The best is Kennedy's Laxative Honey and Tar. It contains no opiates, moves the bowels, drives out the cold. Is reliable and tastes good. Sold by all druggists.

I had rather be right than be President.—Henry Clay.

When a horse is overworked it lies down and in other ways declares its inability to go further, you would consider it criminal to use force. You a man of humane impulses, who would not willingly harm a kitten, is guilty of cruelty where his own stomach is concerned. Overdriven, overworked, when what it needs is something that will digest the food eaten and help the stomach to recuperate. Something like Kodol For Dyspepsia that is sold by all druggists.

Catawba Baptist Association.

The Catawba Baptist Association met in its third annual session with the Mt. Zion Baptist church, Fairfield county, near the Pitman place. Each church was fully represented. The old officers were all re-elected as follows: Rev. A. C. Jumper, D. D., of Camden, moderator, Rev. A. English, of Taxahaw; clerk, Rev. G. W. McGirt of Camden, assistant clerk, Rev. Z. B. Stradford of Camden Treasurer. The meeting was a perfect success. The good people of the Mt. Zion church spared no pains in taking care of the delegates, and the whole people, irrespective of denomination, liberally responded to the assistance of the pastor in taking care of the delegates and ministers. The financial and spiritual success was good.

S. A. Boyd, Pastor.

Apples and Salt.

Eat fresh apples and salt after every meal, advises a physician who has made a specialty of stomach and intestinal troubles. They aid digestion more effectively than many drugs, and people who make them a part of the daily diet rarely have indigestion.

"Take apples, cooked or fresh, with salt while dining or immediately after and eat them between times when hungry, he says. Cultivate the apple habit, and instead of eating bonbons and pastry serve them in some form for light lunches in the morning. Eat them in the summer even more than during the winter months, for nothing is better or more nourishing for the entire system than this fruit, especially as it is not heating. 'The skin, if properly masticated, is not injurious, but the best plan is to cut it off, for it is usually tough, as is the outer coat of most fruits. Apples are an aid to digestion despite the crust that is ordinarily considered hard to assimilate. The best time to eat apples is after meals, when all the fluids necessary have been taken into the stomach; for if milk, coffee, or water are drunk after taking this fruit they lessen its powers to help digestion.

For Over Sixty Years.

Mrs. Winslow's Soothing Syrup has been used for over 60 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain; cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

An Awful Cough Cured.

"Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing and got stout and fat," writes Mrs. Ora Bussard, Brubaker, Ill. This remedy is for sale by Obeur Drug Co. and all medicine dealers.
