MOSSY DALE ITEMS.

There is nothing encouraging to the farmers in this section, but much to discourage them. We have been visited with an unusual amount of rain this season, and for the past two weeks have only done a few day's ploughing, and that with heavy land. We are at least several weeks benin! with our work, and I see no possible chance to catch up with the work is time to plant an early crop. This time list year rearly all were through lapping for cotton and had a good deal of land ready to plant. If it keeps on which was purchased a short time ago raining we will be forced to the necessity of planting on the lap and throwing out the middles afterwards, which I have done previously and with fair

Some have commenced planting upland corn, and if the weather stays dry for a week there will be a considerable quantity in the ground. Farmers, plant corn; more corn; corn enough for home consumption; for I think the present price of corn is enough to stimulate us all to double our energies in that direction. The duty is imperative and needs or should need no aranment on that line, for it is clear to my mind that if we make a good crop of was there last, which was about filteen cotton this year we will get a very
