

# Two Join WIS Football Radio Team

BY BOB ODOM  
Sports Writer

Bob Fulton, better-known around the Southeast as the "Voice of the Gamecocks," will be joined by two announcers beginning their first

season with the USC broadcasts on WIS Radio when Carolina meets Georgia Tech Saturday night.

Joining Fulton on the Gamecock network will be Tommy Suggs, former USC standout quarterback, and Bill Drake, well-known disc

jockey for WIS radio.

Homer Fesperman will begin his 12th year as technical director, while Cliff Terry and John Terry will again handle the spotting.

Fulton, who is a veteran broadcaster will be beginning his 20th

year as play-by-play announcer for the Gamecocks.

During his stay in the state, Fulton has had the honor of being named South Carolina Broadcaster of the year on eight different occasions.

coming to WIS, Drake served as an announcer for WEMP in Milwaukee.

During the early part of his 15 years in broadcasting, Drake did play-by-play for football as well as basketball. Drake expressed extreme pleasure to be returning to football broadcasting. At WIS Drake has an afternoon show.

Suggs set numerous offensive records while at Carolina. He

holds the career mark for total offense, 5,025, and most touchdowns thrown, 34. He also has game records for most yards passing, 324, most pass completions, 24, and most touchdowns thrown, 5.

WIS radio will again act as the flag station over 30 stations that will be bringing Carolina football to its many fans across the Southeast.

According to Fulton, the same general format as last year's broadcasts will be followed. There will be a regular pre-game interview with Head Coach Paul Dietzel, a pre-game show, halftime interviews, the wrap-up, and finally the post-game show with Dietzel.

Bob Fulton  
... new crew  
for '73

Before coming to the USC network back in 1951, Fulton served eight years as play-by-play announcer for Arkansas. Fulton has also had the opportunity of doing the play-by-play for many college football post season bowl games.

Suggs, who is no stranger to this area, will primarily be responsible for analyzing the game. Drake will handle the pre-game show, half-time interview and the wrap-up.

Drake, a newcomer to the Columbia area, joined WIS radio back in April of 1972. Before
