## HOROSCOPES

**ARIES** The next four weeks are favorable for making money. Good service is well-rewarded.  
**TAURUS** You're the one most likely to see the error in the proposal. Look it over carefully before agreeing to anything.  
**GEMINI** Proceed with caution if you must proceed at all. Better yet, hide out somewhere and finish up old business.  
**CANCER** Encourage your friends to develop their own source of revenue. Don't let them tap into yours.

**LEO** You're a good leader. Today, you'll become even better by showing the utmost respect to an older person.  
**VIRGO** Work interferes with travel, but you can still make plans. The more you earn, the farther you can go.  
**LIBRA** As you sort and file, put things into stacks to sell as well as recycle. Find out what it's really worth before you let it go.  
**SCORPIO** Your adversaries are more assertive now, but that's OK. It helps you pinpoint their

exact location and position.  
**SAGITTARIUS** The job is tedious but needs to be done quickly. Do it for love, not money.  
**CAPRICORN** True love beckons, and there's no point in resisting. Don't throw money at it, either.  
**AQUARIUS** You can find the funds to strengthen your infrastructure. Build it to last.  
**PISCES** Keep asking questions, and don't be dismayed if you're not getting all the right answers. It's all part of the inquiry.
