

fail to read the ad of ... & Co., in this issue ... there by.

Miss Bessie Partridge, of Fairburn, Ga., is visiting her brother, J. T. Partridge, in Pickens.

Dr. A. C. Spain is in Pickens this week doing dental work. He will leave Friday evening.

Miss Myra Lewis, of Adairsville, Ga., is visiting her relative, Mrs. J. J. Lewis, in Pickens.

Master Louie Thornley, of Pickens, visited his cousin, Master Hill, in Walhalla, last week.

Mr. and Mrs. J. W. Roberts, and children, of Greenville, S. C., visited the family of W. L. Jenkins, in Pickens last week.

Mr. and Mrs. A. J. Boggs, of Pickens, spent a portion of this week with friends and relatives at Calhoun.

Sam Weiner, the eye specialist, leaves Wednesday for a week's stay in Walhalla, fitting glasses at the Walhalla Drug Co.'s place of business.

Photographer N. D. Taylor will be in his studio in Pickens next Tuesday, the 2d of February. Don't fail to pay him a visit if you want some nice work.

We are sorry to learn that Lee McHugh, who lives near Clemson College, is very low with pneumonia and not expected to live. His many friends hope that he may yet recover.

L. Bolt, in Pickens.

For Rent:—One corn and wheat mill and cotton gin. I want a first-class miller. B. P. Kelley, R. 3, Central, S. C.

W. E. Freeman & Co. have just received a carload of Piedmont flour. Also handling the famous "Obelisk."

Lost, in Pickens, on Cedar Rock street, between Garvin street and the depot, one black neck fer. Finder please return to this office.

Ex-County Commissioner J. P. Smith has a job now that just suits him. He is county agent for the International Gas Buggy, a mighty good machine for country roads, and the price is reasonable. He and his son, J. W. Smith, who is the traveling representative of the company, were in Pickens, Tuesday, displaying one of these machines, which worked to perfection.

Norris.

Health good, but news distressingly scarce.

Mrs. Perry Smith, of Six Mile, visited Mrs. Maddox last Saturday; also Miss Katie visited her sister, Miss Mattie Maddox, of Norris.

We are glad to say that Mrs. T. C. McWhorter's baby is improving.

Mr. ...

if here if the wind don't rise.

Cotton is going upward by degrees, and it is being brought in a little more lively, as some of the farmers seem to think it may go on up to 10c, and seem in a considerable hurry for fear it gets to 10c before they get it off their hands. The bulk of the cotton is out of the farmers' hands now, and the speculators are apt to try to bull the market pretty lively soon, and if the old farmer, who has had sense enough to keep back at least a part of his cotton, can succeed in getting in the boat "alongside" the bulls, he may get a few more dollars on his cotton, by his holding. It is in order now for cotton to go up to stimulate the planting of another bumper crop, to get beat of as usual.

S. D. Stewart and wife have returned from an extended trip to their son, who lives near Pittsburgh, Pa. They had a fine trip, but its pleasure was marred by Mr. Stewart being laid up by a severe attack of la grippe, from the effects of which he is still very weak.

The Much-Abused Mule.

To tell a farmer that he doesn't know how to gear a mule, and hold a plow to do the best plowing in the way that will be easiest on him and the mule, and he is ready to give you a "licking" without parleying or delay.

farmers make plowing ... while it is (properly

FREE VALUE GIVE

Granulated and br

... of Liberty, and ... in this section last week.

Dock Newton, of Norris, has gone on a visit to Alabama. We hope him a good time.

Clyde, the youngest son of Bud Gilstrap, is very low with brain fever. Dr. Long, of Liberty, is treating him. We wish for him a speedy recovery.

Liberty.

The month of January is at a close and very little plowing has been done.

Rev. Bailey and Rev. Lander, of Easley, exchanged pulpits Sunday.

The small grain crop is looking unusually fine so far, the fair weather being favorable for its growth.

We noticed D. J. Greer, of Alabama, circulating on the streets here last week, and understand he has sold his farm to J. F. Banister.

Lovely spring weather is the order of the day. The frogs are croaking these nights, but the probability is that we'll have the pleasure of looking through frosted windows before old winter has passed.

Sullivan & Co. are opening up new stores here, goods being rushed in at a lively rate, and in great quantities. They will occupy the new stores recently erected between the postoffice and J. F. Banister's store.

W. O. Willard is back from Tennessee. He reports a fine country over there. They have the cotton mill started up, and he is president of it. He also says hands are plentiful over there. The country does not seem to have been as badly worsted by the panic as this.

The newspapers report peach ... in Atlanta, but that need ... anybody, as the ...

... poor plow ... I have sh ... gray hair and ... as stated above, ... me that I had taught ... how to do good plow ... than they had learned in a lifetime of experience.

Lean the plow-stock slightly the way you want to throw the dirt—to or from the corn. Have the gear and plow so arranged that you need not labor, bear down or push the plow to do good plowing, or your plowing will be as hard on you as pulling a crosscut saw or grubbing.

In turning your mule at the end of the row turn to the left, unless it would be turning the mule down the hill where the land lies slanting. Bear the plow-handles down in turning so the swingletree will swing clear, and the mule will not step out of the traces. Speak to your mule in a natural tone of voice, just as you would in conversation with a person. Never say "Whoa, gee!" or "Whoa, haw!" on the farm. Just tell your brute what you want him to do—"Gee" or "Haw"—leave off the "Whoa" until you want him to stop.

If you get mad at your mule for not doing what it hasn't got the sense to do, don't curse or abuse him. You might stand and curse him until you dropped dead and it would do no good. But go to the shade and cool off, and when you get so you can act the man and let the mule act the mule, hitch up and go ahead and you'll get there all right.

Remember that your mule don't know anything but to go ahead without rest, food or water until he drops dead in his tracks. So be kind and humane to all dumb brutes. Feed, curry, salt and water them. They cannot tell you when they are sick or hungry, thirsty or need rest.

Next will tell you some ... farming, ... to all n

IMITATIONS ... IS ON EVERY

Mary Garrett has returned to her school at Greenville, after an extended visit among relatives and friends at Norris. We are glad to see you, Mary, at any time.

Hello! "Old Bachelor," what has become of you? Are you asleep, or are you going to get married, and won't ask any of us to the wedding?

Oscar Woodson, one of Liberty's highest and respected boys, was visiting friends here last week. Lookout, girls.

What has become of "Old Riddle" of Central? We miss you, "Old R." Come again. You must not forsake us that way.

H. L. Hucklebee and family have moved to their new residence in Norris. We are glad to have them with us in our little town.

Norris is coming to the front, and fast growing out of her swaddling clothes.

Mrs. S. H. Maddox is very sick, also Mrs. E. W. T. and family.

Chas. T. Hughes has rented the upstairs of the new Freeman building in Pickens, and will run it as a public hall. Last Monday night he gave a dance which was well attended and greatly enjoyed by our town people. As a public dance hall, Mr. Hughes will furnish the hall with chairs, lights and music and give the dancing a popular character.

Many hard work (done) as light and easy as any farm work—just the walking—that's all. If the mule is not geared right and the plow not straight and held right then it is hard work on both man and mule. The back band must be regulated according to the height of the mule and the shape or set of the plow.

The plow-point should go as straight forward as the mule, and should be so shaped and set on the stock as to suck the ground without any labor or effort by the plowman. Then the man should walk in the furrow between the plow-handles, his body erect, his arms hanging perfectly natural by his sides. The walking is the hardest part of the plowing on both man and mule. A man walking at armslength behind the plow-stock and calling it plowing needs to be butted on the back-side by a billygoat and made to walk between the plow-handles. That kind of plowing is on man and mule, and is done when done.
