

Lands.

Use of the public grazing lands... regulated in such ways as to improve and conserve their value...

President Roosevelt, Friday transmitted to Congress the following bearing on the conservation of our natural resources.

I transmit herewith a report of the national conservation commission, together with the accompanying papers. This report, which is the outgrowth of the conference of Governors last May...

The facts set forth in this report constitute an imperative call to action. The situation they disclose demands that we neglecting for a time, if need be, smaller and less vital questions, shall concentrate an effective part of our attention upon the great material foundations of national existence, progress and prosperity.

A part of the action of the joint conference says: We also especially urge on the Congress of the United States the high desirability of maintaining a national commission on the conservation of the resources of the country empowered to co-operate with State commissions to the end that every sovereign Commonwealth and every section of the country may attain the high degree of prosperity and the sureness of perpetuity naturally arising in the abundant resources and the vigor, intelligence, and patriotism of our people.

In this recommendation I most heartily concur, and I urge that an appropriation of at least \$50,000 be made to cover the expenses of the national conservation commission for necessary rent, assistance and traveling expenses. This is a very small sum. I know of no other way in which the appropriation of so small a sum would result in so large a benefit to the whole nation.

THEODORE ROOSEVELT.

VETOES STATE-WIDE BILL

Tennessee Senate Hears the Chief Executive's Official Disapproval of the State-Wide Prohibition Bill—Opponents of the Bill See a Ray of Hope—Governor Patterson States His Reasons.

Nashville, Tenn., Special. Governor Patterson today vetoed the bill for the prohibition of the sale of intoxicating liquors throughout the State.

The bill, which was passed by the House of Representatives last week, provided for the prohibition of the sale of intoxicating liquors throughout the State.

The Governor's veto was based on the ground that the bill was unconstitutional. He stated that the bill violated the rights of the people to sell and consume liquor.

Opponents of the bill were disappointed by the Governor's action. They felt that the bill was a necessary measure to curb the liquor traffic.

The Governor's veto was a surprise to many. They had expected the bill to pass. The veto was based on the ground that the bill was unconstitutional.

ANSEL INAUGURATED

Together With Lieut. Governor McLeod.

BOTH BEGIN SECOND TERMS

Governor M. F. Ansel and Lieutenant Governor Thos. G. McLeod Assumed Duties for Another Two Years—Conservation of Resources and the Building of Good Roads the Burden of the Inaugural Address.

Columbia, Special.—With impressive ceremonies in joint assembly of the Legislature Wednesday with crowded galleries and side aisles looking on, Governor M. F. Ansel and Lieutenant Governor Thomas G. McLeod were inaugurated upon their second terms as Governor and Lieutenant Governor, respectively, after which the other State officials were duly sworn in as follows: Secretary of State B. M. McCown, Attorney General J. Fraser Lyon, Comptroller General A. W. Jones, Adjutant General J. C. Boyd, State Treasurer R. H. Jennings and Railroad Commissioner B. L. Caughman.

Governor Ansel's inaugural address was brief and devoted almost entirely to the development of the State's natural resources. He advocated paying more attention to the conservation of our lands and forests and the development and protection of the State's water powers, pointing out that what was being done in this direction by other States and advertising to the fact that there is now being utilized in this State 175,000 horse-power with that much more yet undeveloped. He specially stressed the importance of drainage, recommending the creating of a State drainage commission to investigate and report on the best plan to re-claim over three million acres now lying useless for want of drainage. He also dwelt on the importance of immediate action toward securing better roads throughout the State, and recommended that the State

claim over three million acres now lying useless for want of drainage. He also dwelt on the importance of immediate action toward securing better roads throughout the State, and recommended that the State

BABY'S SKIN ERUPTION CURED.

Was So Sore, Irritating and Painful That Little Sufferer Could Not Sleep—Scratched Constantly—Cuticura's Efficacy Proven.

"When about two and a half years old my daughter broke out on her hips and the upper parts of her legs with a very irritating and painful eruption. It began in October; the first I noticed was a little red surface and a constant desire on her part to scratch her limbs. She could not sleep and the eruptions got sore, and yellow water came out of them. I had two doctors treat her, but she grew worse under their treatment. Then I bought the Cuticura Remedies and only used them two weeks when she was entirely well. This was in February. She has never had another rough place on her skin, and she is now fourteen years old. Mrs. R. R. Whitaker, Winchester, Tenn., Sept. 22, 1908."
