PICKENS, S. C. :

THURSDAY, APRIL 1, 1909

Liberty Township S. S. Convention

The Liberty Township Sunday School Association met, March 12th '09, at the Liberty Presbyterian church. The meeting was called to order by the president, L. E. Prince. After the song service, the exercises were conducted by Rev. J. C. Bailey Jr. An appropriate address of welcome was made by Mr. J. L. Blair, Superintendent. The twelve Sunday Schools were represented with the exception of Enon and Golden Grove. While the attendance was fairly good; but owing to the inclemency of the weather, was not as good as anticipated. An instructive discourse was given, by the Rev. R. S. Truesdale of Spartanburg, S. C. on "How the Organized Sunday School Movement helps the Denominations"; also "How to make your schools grow", and "The Department".

These subjects were handled in the most edifying manner; and no doubt but that much and lasting good will result. Rev. W. S. Henry, gave an interesting discourse on "The Pastor's place in the Sunday School". Rev. D. W. Hiott, made an interesting address on "The Importance of Teacher's Training Class". A very interesting report, of the State S. S. Convention held at Orangeburg, S. C. was given by J. M. Garrett, delegate from the Liberty Baptist church. The following committee was appointed by the president to organize a Sunday School at Roanoke school house: J. J. Garrett, R. T. Stewart and W. T. O'Dell. Each Sunday School in the Township was assessed \$1.00 for the expenses of the association. The election of officers for the ensuing year was as follows: L. E. Prince, Pres., J. J. Garrett, Vice-Pres., A. L. Johnson, Sec. and Treas. Executive Committee: M. A. Boggs, J. M. Garrett and C. T. Hutchins. A sumptuous dinner was served at the church. The next meeting will be held with Zion Methodist church.

A. L. JOHNSON, Liberty, S. C. Sec. & Treas.

Six Mile

On Friday Feb. 26th '09, the home of Mr. and Mrs. John L. Dillard, was thrown in excitement when it was made known to the parents that Ressie Dillard their little three year old daughter had swallowed a no. 2 safety pin. Dr. Woodruff, of Catechee was called in, and found the pin in her throat, and trying to extract it from her throat she swallowed it from his reach, and thinking the pin was in her stomach she was faithfully treated 17 days under the skillful management of Dr. Woodruff with hopes that she would get all right. But instead of improving, she gradually grew worse, and on the 15th of March Dr. Woodruff and Ressie, accompanied by her parents and several neighbors, boarded train No. 12 for Greenville, to undergo a surgical operation, several doctors was called in and Dr. Carpenter with an instrument thoroughly examined her and found the pin to be open in her windpipe, but thought it impossible to be gotten out without an operation, but after carrying the child to the hospital to perform the operation, but decided one more time to try with his instrument to get it out, and in a few minutes the pin was brought out and was carried to the heart broken father and mother with the glad news that their child was not hurt and ready to go back home as well as she ever

was, and the whole community extends gladness to the fond parents, as little Ressie is a sweet child and the idol of her home which is now full of light and sunshine after being made dark for so many long and dreary days.

Words To Freeze The Soul.

"Your son has Consumption. His case is hopeless." These appalling words were spoken to Geo. E. Blevens, a leading merchant of Springfield, N. C. by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Blevens, "he was as well as ever, I would not take all the money in the world for what it did for my boy." Infallible for Coughs and Colds, its the safest, surest cure of desperate Lung diseases on earth. 50c and \$1.00 at all Druggists. Guarantee satisfaction. Trial bottle free.

Poplar Springs Dots.

Everything is quiet on this side. The farmers have the blues.

We urge the farmers to plant more feed stuff this year than ever before. Raise more hog and hominy at home.

S. A. S. Porter visited in this section last week. Sam is one of Pickens hustling carpenters. G. A. Lynch is well pleased with his new home in Oconee county.

Mrs. G. A. Lynch visited her mother on Colenoy recently.

We had a heavy wind and rain on the night of the 24th but no serious damage that we have heard of.

Mr. R. L. Gilstrap is wearing a big smile. He is called grand pap.

Owl

More Chicken Dope.

And still they come, and each one with a breed that he claims is the best of all.

D. F. Hendricks, of the Peerless Poultry Farm, is breeding a mighty fine chicken in his Buff and Brown Leghorn. They are beauties, and he is getting lots of orders for eggs and stock. Mr. Hendricks is also raising Indian Runner ducks.

B. F. Freeman, breeder of Buff Leghorns and Barred Rocks, has two fine breeds of fowls that make a pretty show in his yards, and he is getting orders for eggs and stock faster than he can fill them.

C. L. Cureton has an ideal poultry farm and he is breeding the finest strain of Pit Games, Black Minorcas and Bronze turkeys that he could buy, and he has as pretty a lot of fowls as you can find anywhere and he is getting orders galore.

B. F. Robertson, of Clemson College, is originally a Pickens county boy, who is breeding fine White Wyandottes that win in every show. He has a mighty good strain of birds that are commanding a good deal of attention from fanciers, and he cannot supply the demand for chickens and eggs.

Prof. J. W. Swittenburg is working himself into a first-class poultry crank, who now has a pretty yard of Anconas. This is a good fowl, excellent layers and non-setters. By next season the Prof. will have as fine a yard of chicks as anybody.

W. A. Thompson is one of the youngest and best-posted poultry cranks in town. He is breeding R. I. Reds and American Dominiques. The Dominique is an old breed that had a great run in the North 60 years ago, and which was then the only all-purpose fowl and the fancier's friend. The Plymouth Rock breed of chickens has been developed from the Dominiques, and now this breed is coming back into popular favor. His chickens are from New York state, where for all these years the strain has been kept in all of its purity.

George Williams, of Pickens, R. F. D., is breeding white and brown Leghorns and R. I. Reds, and is meeting with good success in his matings. He has some fine birds and no doubt he will find ready sale for his eggs and stock.

Swept Over Niagara. This terrible calamity often happens because a careless boatman ignores the river's warnings—growing ripples and faster current—Nature's warnings a kind. That dull pain or ache in the back warns you that Kidneys need attention if you would escape fatal maladies—Dropsy, Diabetes or Bright's disease. Take Electric Bitters at once and see Backache fly and all your best feelings return. "After long suffering from weak kidneys and lame back, one \$1.00 bottle wholly cured me," writes J. R. Blankenship, of Belk, Tenn. Only 50c at all Druggists.

The Old Red Hills I Once Loved SO Well.

Far away beyond the glamour of the city In a little home that was ever dear to me, There is where I spent the golden days of manhood, The days that were so happy and so free. But the years have come and gone and told their story, The very sad tale that time alone can tell, And no doubt there has been many, many changes Back among the hills I loved so well.

I know the grass is green upon the hillside, That the violets still are blooming in the dell, That the bluebirds are singing so gay Around the dear old home far away.

Often times I dream I wander around the homestead, And see the girls playing all about the door; And I seem to hear them sweetly singing The songs we used to sing in the days of yore. But all may now be silent and deserted No voices may now echo thro' the dell; And the ones I loved, no doubt, they too, are missing, From among the red hills I loved so well.

Could I only call them back,— those happy days so bright And listen to the sweet songs we used to sing, As we met together, almost every Sunday night, Sweet thoughts of those lovely times to me bring— Oh, happy were those days, so full of fun and glee, When every hour passed with a joyous swell— They will never return, those bright sunny days to me Among the old red hills I once loved so well.

FIFTY YEARS LATER. I'm getting old and gray, can't can't live much more, My mind is wandering, dreaming of dear old Pickens, And the many ups and downs, but downs the more, Where I was born, raised and scuffled to beat the very dickens To keep the sheriff and the wolf from my door. And now dear friends and playmates, if any left? Don't forget a friend because he's old and poor; Please write me a line some day and kindly tell Me of yourselves and what has become of the rest, From the old red hills I once loved so well.

—S. A. JAMES. Saint Jo, Texas, March 21st.

PARKER'S HAIR BALSAM. Cleanses and beautifies the hair. Promotes a luxuriant growth. Never fails to restore Gray Hair to its youthful color. Cures scalp diseases & hair falling. 50c and \$1.00 at Druggists.

A Great Fascination clings to the jeweler's windows. All the fair sex top to see the exhibit, and many of the masculine element who have the time. It is argued by all. That This Jewelry Store gets the prizes for the finest stock of handsome ornaments and sterling silver novelties. Our watches are celebrated as good timepieces, and our tableware is warranted not to tarnish. Inspection of all lines cordially invited. H. SNIDER.

Come and See Us!

In view of making a change in our business we will sell for 30 days, beginning on April 10th our entire stock of Dry Goods, Notions, Shoes, Glass, Crockery and Tinware, etc. In fact, everything we have except Groceries, will be sold at cost.

We have just opened a line of up-to-date spring shoes in all styles and at prices from \$1.00 to \$3.00. Men, women and children's shoes at cost and when we say cost we mean COST.

All we want is for you to come and give us a chance to show you and we will be sure to sell you.

Any one wishing to buy a small stock and open business, can buy ours at a bargain, and we will rent you a store-room cheap. It is near the depot and a good stand.

We also have a 5-room cottage house and lot for sale.

Don't fail to call and see us.

Yours for business,

J. H. Brown & son Liberty, S. C.

To the Farmers

We want to talk to you a little now about our ammoniated fertilizers. The acid and meal season is about over. Those who use acid and meal haul it home early in the season so that they can mix it. The season for ammoniated goods commence later, and in fact, is about started now. There is not much difference in acids; one acid is about as good as another. It is all made of phosphate rock, (bone phosphate line), crushed and treated with sulphuric acid phosphate and one fertilizer company turns out about as good quality of this goods as another. The difference in fertilizer is in ammoniated goods. Ammoniated goods are made by taking this same acid phosphate and mixing it with ammoniates, blood tankage, nitrate of soda, cotton seed meal, sulphate of ammonia, garbage. Now; some of these ammoniates do their work and exhaust more quickly than others and so by properly mixing and manipulating our ammoniates, we have gotten a fertilizer that will nourish the plant from the time it sprouts all during the growing season, during the laying-by season and up to the time the plant is matured and ready to be gathered. Take for instance nitrate of soda. It acts quickly and exhausts. Cotton seed meal will come in next; it will dissolve and assimilate with the soil before it becomes a plant food, just as when you plant a grain of corn it has to germinate before it comes up. Tankage come in next and then blood; which lasts until the crop is matured and ready to be gathered. So by taking the different kinds of ammoniates in the proper proportion, one coming in as one exhausts, we have a fertilizer that will feed and nourish the plant from the time it sprouts until it is ready to be gathered. That is a complete fertilizer and unless it does that it is not a complete fertilizer. It does not matter where you get it, it is not a complete fertilizer unless it feeds and nourishes the plant from the time it sprouts until the crop is ready to be gathered. These ammoniates are very expensive, that is why ammoniated goods cost more than acids. Take sulphate of ammonia; it costs \$64 per ton laid down at the factory. We have bought quite a lot of this and are using it in fertilizers that will sell for less than \$30 per ton, just because we want to make the right kind of goods; goods that will make the crop grow and keep growing and will make a man take a pride in his crop. Our ammoniated goods used on lands that are prepared and cultivated, as the farmers in this section usually prepare and cultivate their lands, will get all out of the land that there is in it and a farmer should not be satisfied with making the land do less than that. The trouble about using a cheap fertilizer is just this: by the time you find out it is no account you have lost a crop and you have lost a year's work and the only thing you can do is to wait until next year and try again to fertilize right.

Every sample of our goods that has been analyzed at Clemson College ran way above our analysis which shows that we are making the right kind of goods. There is absolutely no adulteration in the fertilizers we are making. They are made of bone phosphate of lime ammoniates and nothing else. There is nothing better made. Our goods will feed and nourish the plant from the time it sprouts until it is ready to be gathered and that is the kind of goods your land needs; that is the kind of goods your land must have to make first class crops. If you want goods of this sort, we have them and they are for sale. They are home-made and they are made right; they are dry and well pulverized and we want you to try them. See our agents.

Anderson Phosphate and Oil Company

YOU can always tell where FARMERS' BONE has been used, the plant looks strong, vigorous & well-fruited. It's because the fish acts as a tonic. EACH BAG OF THE GENUINE FARMERS' BONE BEARS OUR TRADE MARK. F.S.A. NITRATE SUBSTITUTES. U.S. ROYSTER GUANO CO. WASHINGTON, D.C. MCGON, GA.
