A Thrilling Rescue.

How Bert L. Lean, of Chevy, Wash. was saved from a frightful death is a story to thrill the world. "A hard cold," he writes, "brought on a desperate lung trouble that baffled an expert doctor here. Then I paid \$10 to \$15 a visit to a lung specialist in Spokane, who did not help me. Then I went to California, but without benefit. At last I used Dr. King's New Discovery, which completely cured me and now I am as well as ever."

We had another fine rain last night, and the grass as well as the crops are getting a move on them, and the farmer just scratches his head and takes a new hold and goes right on.

Crops, generally, look well, and after several of the farmers, planted over their cotton, there is a pretty good stand, and thinning is well advanced, with a few done, thinning.

Wheat harvest will be on in a few days, as we notice some is pretty yellow, and the heads seem well filled out where nearly ripe.

Several went to Atlanta, from here last week, on the Excursion, and report a fine time.

The good roads fever has fairly broken out in this little neck of woods, and we hope much good will result, and that we can soon have such roads, as Atlanta and Charlotte has through their counties. Why not? We have an abundance of stone, and sand in plenty, and clay is still more abundant. The clay is a good foundation to build upon, but makes a poor road bed in wet, freezing, weather, but when the ballast has once been put on and properly rolled in with a road packing machine, the thing is done, and just let it rain and freeze but the road will be all right, and you can haul as heavy load as your wagon will bear up. This is what we want and what we will eventually have.

The infant child of Mr. H. Watkins, died on the 23th and was buried at the Liberty Cemetery, the 27th, also infant of Mr. Boom, died here the 27th, and was buried the 28th at the Liberty Cemetery. Each had been sick for some time.

The convict camp, was moved this morning to near the rocc quarry, where they are working out and widening some of the very narrow roads, between here and Easley. We understand they have been doing some good work.

Peaches are still dropping off badly, and we notice some of their cheeks are turning red, Cherries, apples, and pears are not plentiful this year; the trees did not bloom much at the start.

Now, Mr. Bud farmer, we have fairly started out with a pretty fair prospect of another good crop, but what assurance have you as to the price, and who is to fix it on your products? Again, is your mortgagee everything in sight, thus giving the other fellow a lever to press down prices with, thus placing yourself at the mercy of the other fellow? If you are doing this, don't grunt if you get well mashed, and remember you deserve it every bit. The man that has his corn, and other supplies raised at home, can wag his head at your folly and "whistle up a merry tune" for you, selling your cotton below cost of production, while he don't have to sell if prices does not suit him.

Actually 20 bales of cotton were sold here last week at 11c. a lb.

Women Who Are Envid.

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney troubles show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at all Druggists.

The health of this section is very good at this writing.

The farmers are progressing nicely with their crops. Miss Mary Garrett, who was attending the Greenville Female College, is spending her vacation with her parents, Mr. and Mrs. J. C. Garrett. Miss Mary is a jolly girl and she has infused a new life into the social set at Norris.

Mr. Wade Williams, a handsome and prominent young man of Aberdeen, Wash., is visiting his mother, Mrs. A. B. Williams, of Norris.

Wonder what has become of Pansy? I haven't seen anything from her lately. Wonder if her and John A. is going to get married? Wake up and give us the news.

There was an ice cream supper given at the home of Mr. and Mrs. E. C. McWhorter on last Saturday night. There were several present and an enjoyable time was had.

Mrs. Mattie Mosher and children, of Clifton, S. C., is visiting her brother, L. P. Moser, of Norris.

Misses Ada and Ila Woodson, two charming young ladies of Liberty, also Mr. Oscar Woodson, visited in Norris recently.

There will be an all day singing at the Norris Baptist church on the fourth Sunday in June. Every body is cordially invited to come.

Mrs. A. B. Williams and son, Mr. Wade, is visiting relatives at Cross Roads this week, as is also Mr. John Williams, and Florence Whitmire. Mr. Will Williams, the old bachelor, is keeping house for his mother while she is gone. Girls you ought to see how things are done there—they are sure nice and clean.

Mr. Joe Newton, of Norris, is moving his family to his farm on Pea Ridge. We hate to give them up.

Hester On Prohibition Election.

It seems there is a campaign started among the prohibitionists for the election on August 24th and I write to ask what for? It

seems to me that the non-drinking man has all to gain and nothing to lose by the manufacture and sale of whiskey as it brings and keeps money here (hundreds of thousands of dollars) and he don't have to spend a cent for whiskey. It looks like I ought to be the one who ought to urge and advocate prohibition because I will buy and drink it and the handier it is, the I more spend and drink, which is detrimental to my health and purse. But I am not willing, nor do I think it right for me to act according to my individuality, when I see so many that would be helped by this great necessary evil. So many people in debt, with their noses to the grindstone, and other wage earners who can barely butter one side of their bread.

Now, I would like to call the attention of the people to the tenor of what I told them from the stump in the campaign of 1906. I told them then that provisions would go out of their reach, and what do they lack now? What they lack will soon be on. Some are kicking out of their breeches now and everything is cheap compared to what it will be 12 months hence.

The estimation is that this wheat crop is sixty-five million bushels short of last year's crop. Hogs, too, are scarcer.

If what I advocated had passed the legislature, I, myself, would now be putting on the near markets, \$4,000 worth of meat and \$18,000 worth of whiskey and brandy from my own products; but in place of that I am putting on the market about 50 bales of cotton and the seed back on my land and buying corn at \$1.10 per bushel and expect to pay \$1.50 next year, and laugh at the fool that will raise, gather and shuck it for that.

I answer the religious part of this in the following verse. The man who does not drink, Chew, smoke, or tell lies is Paralyzed. The man who does nothing but Right and his wife knows Where he is morning, noon And night—he's dead. M. W. Hester.

Trouble Makers Ousted.

When a sufferer from stomach trouble asks Dr. King's New Life Pills he's mighty glad to see his Dyspepsia and Indigestion fly, but more—he's tickled over his new, fine appetite, strong nerves, healthy vigor, all because stomach, liver and kidneys now work right. 25c at all Druggists.

A Friend to Old People

The human family has a feeling for any one in pain and will do anything to alleviate suffering. On this principle we extend our sympathy to suffering humanity, especially old people, and tell them that their pains and aches and miseries can be alleviated. Old people, who by strains or over-work, suffer with back-ache, weak back, or Kidney or bladder troubles can be permanently relieved, and, we believe, finally, cured, by using Hallum's Backache and Kidney Pills, the greatest remedy known for these ills. If your druggist does not keep them, they can be procured from the Pickens Drug Co., distributors.

WESTON, Ocean-to-Ocean Walker.

Said recently: When you feel down and out, feel there is no use living, just take your ball thoughts with you and walk them off. Before you have walked a mile things will look rosier. Just try it." Have you noticed the increase in walking of late in every community? Many attribute it to the comfort when Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes, gives to the millions now using it. As Weston has said, "It has real merit."

SHOES:—I have recently put in a line of shoes, not the largest in town but all new, clean, stylish stuff; fit any foot, from the infant's (at a quarter a pair) on up to the boys, misses, men's and women's. Look through this line as I can save you some money. Some specials for ladies in soft sole shoes, as comfortable as a kid glove. Modest price. How about the bleached and lonsdale underwear. Cheaper than buying the material and saves all the worry of making. I won't tell how cheap I will sell pants, especially in 30 to 32 waist sizes. If this happens to be your size—something good is coming to you. Come and see. I have all sizes. T. D. HARRIS.

ARE YOU HARD TO PLEASE?

Let us array you in one of our many new styles handled by us of some of the most famous manufacturers, and lead you to a mirror. You look at your reflection—and the hard-to-please disappears at ONCE. We have dealt with lots of men who came to us skeptical of our ability to satisfy them with ready-made clothes. They are regular customers now; once you wear our clothes, is enough to kill all prejudice. The spring styles are very sensible and attractive. We have tried to consult all tastes in making our selections, and we believe we have succeeded.

Be you easy or hard to please, we stand ready to give you our best service.

Look into our show win lows, you will see there a display of new models from some of the foremost makers, they represent the latest fashions, and you will spot them at once as winners.

L. ROTHCHILD'S, GREENVILLE, S. C.

It Will Soon be Time to Side Dress Your Crops.

The farmers of Anderson county are going to do more top dressing this year than they have ever done. Top dressing or side dressing has been on the increase in this county for the last few years and it has paid so well that nearly every progressive farmer is going to do more or less of it this year. We hear of one man who put in very little fertilizer last year before planting his crop. He side dressed liberally and made 70 bales of cotton on 60 acres of ground. That is the kind of farming that pays. Farming is a poor business when you work two and three acres to make a bale of cotton but it is a very profitable business when you can make a bale of cotton or more to the acre. We have about four thousand tons of handsome high grade ammoniated goods suitable for side dressing. It will take more than this for the farmers of Anderson county if they use it as liberal as they will find it profitable to do, and then, we are selling this fertilizer in Abbeville, Greenwood, Greenville, Pickens and Oconee counties. The farmers in these counties do not side dress to the extent that farmers in Anderson county side dress, but they are coming to it and will do more of it than ever this year as they are finding out that it is very profitable. When the fertilizer is put in the ground before the crop is planted or even when it is planted, the spring rains come along before the plant germinate and take root, and the fertiliz r goes down in the ground so fast that the root of the plant cannot catch much of it; it has too long a lead. When you wait until the cotton comes up and is thinned to a stand and worked out and then side dress it with first-class high grade ammoniated goods such as we manufacture, the roots of the plant are just surrounded with food and nourishment for the plant. Every particle of the fertiliz r used in the side dressing goes to the growing crop; that is the object of fertilizing, you want the growing crop to get the fertilizer. You will see the effect of this in the growing and in the gathering. The man who side dresses liberally is the man who will have the big crop; you can put that down. It may be that you cannot side dress your whole crop but you can side dress a good part of it and that will enable you to see whether it pays or not. We are manufacturing a specially hand-some goods this year for side dressing which we call "Vandiver's Side Dresser," analyzing 8-5-6 and we recommend it to you with absolute confidence. We certainly would not put our name on it if we did not feel that it would prove satisfactory to all who use it. It is the best grade of goods that has ever been manufactured in this country. It analyzes higher and we confidently believe it will give better results than anything you have ever tried in the way of ammoniated fertilizer. It is the best goods because it is made of the best material, and try it liberally.

the best acid phosphate, the best blood, tankage and garbage and the most of it to the ton. There is a great difference in ammoniated goods. The ammoniates are the expensive part of fertilizer. That is where fertilizers are skimped when they are skimped, but they are not all skimped. There are other fertilizer manufacturers who make very good goods, but we are not advertising them at the present writing. We are advertising our own goods and there is nothing better and mighty little as good. They are all right because we put the ingredients: blood, tankage, etc., in them to make them all right. We will have quite a lot of Nitrate of Soda on hand too, for side dressing; and just in passing, will say that we understand it pays as well to side dress corn as it does any crop you grow. The corn contest this year promises to be very interesting. A great many farmers will contest for the prizes. The man who wins will be a man who fertilizes heavily. The corn that wins will be corn that has been side dressed, and probably more than once. You will not stand the ghost of a chance of winning any of the prizes unless you fertilize heavily and side dress also.

In the old blue back spelling book which we all thumbed in pursuit of that knowledge which some to have eluded the most of us we find the doctrine laid down that "the best is the cheapest." If that doctrine applies to spelling books, and we suppose it does, at least we are not going to step to contest or discuss that question now, we are selling fertilizer now not spelling books; if that doctrine applies to spelling books it certainly applies to fertilizers. If a spelling book is weak in certain points and you find it out you can discard it and get another. If your fertilizer turns out to be weak you will find that out all right enough and you will discard it and get another, but the trouble is you have lost your crop and a year's work and every hand and mule on your place has lost a year's work before you find it out. The only thing you will carry over from that year will be your good debts. So, it will pay you to get a good fertilizer at the start, one that is shown on analysis to be all that a fertilizer should be and in this connection we call your attention to the analysis of our fertilizers made at Clemson College this year. They have all stood up on the analysis and analyze better than we guarantee them to be. We knew they would do it for we put the stuff in them to make them do it. We are willing to pin our faith to and rest our case on the fertilizers that we have manufactured this year. The analysis at Clemson College show that they are just exactly right.

Now we have got th is side dresser it is for side and it will be to you interest as well as ours for you to try it and try it liberally.
