THE STANDARD OF THE WORLD

#### Educational Value of a Doll.

Sir Lauder Brunton's delightful dissertation on dolls at the meeting of the British association should be read, marked, learned and put into practice by all mothers. Every little girl, said Sir Lauder Brunton, should not only possess a doll, but should be taught how to wash it, make cloths for it, how to exercise it, and prepare food for it. Dolly should be a real being to its little owner, and to this end should be a washable, unbreakable and movable piece of mechanism, with hair that will comb and limbs that will not come off. Nowadays one so frequently—to frequently—hears "my little girl does not like dolls." But every wee girl should be taught to love her dolly and care for it. In this way maternal love is fostered, and what is more, every girl would grow up with as perfect a knowledge of the management of children as she has in the ordinary way of drawing, music or needlework.

#### A Good Housekeeper.

The successful housekeeper is not essentially the one who has a spotlessly-kept house, always in order, but the one who manages the affairs of the house so that every one is made comfortable and the home is always cheery and bright. A good housekeeper does not worry over every little detail that goes wrong, but sets to work to put it in order again. She can always tell you where everything is to be found, as she always has a certain place for certain articles, and sees that they are kept there. The meals are always just on time and well cooked, and the children look neat and happy. This can not be done without good management, says Woman's Life, and the methodical housekeeper will have the day divided out for the different duties that are to be done and she will see that her system of arranging the work does not cause discomfort in the house.

#### The World's Railroads.

A year and a half ago, according to a German statistician, the railroad mileage of the world was 563,771 miles, or 13,026 miles more than in the preceding year. Of the world's mileage the United States had 216,713 miles and Europe 192,247 miles. The world's capital in railways is estimated at over \$43,000,000,000, and the average cost per mile, with equipment, etc., is \$76,350. In the United States the average cost per mile was \$68,038; in England, \$305,000 per mile. If the reflective person considers what facilities for transportation the various countries have in their rivers and canals, the cost of their railways will appear to mark the extent of the deficiency of water transportation.

#### Tortured On A Horse.

"For ten years I couldn't ride a horse without being in torture from piles," writes L. S. Napier, of Rutgers, Ky., "when all doctors and other remedies failed, Bucklen's Arnica Salve Cured me." Infallible for Piles, Burns, Scalds, Cuts, Boils, Fever-sores, Eczema, Salt Rheum, Corns. 25c. Guaranteed by all Druggists.

#### Fertilizers Pay.

No farmer should lose sight of the fact that all fertilizers have great value, and not a pound of fertilizer should be allowed to go to waste. On general principles a farmer should be always working into his soil the materials that will make plant food. An abundance of plant food is required in the soil, if farming is to be carried on profitably. It should be remembered that every particle of vegetable matter makes fertility when it decays, and should be worked into the soil. The non-appreciation of this fact leads to the loss of large quantities of barnyard manure, which is allowed to go to waste in various ways.

#### The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive and so sudden in its onset. Many sudden deaths are caused by its heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment. #### Withdraw Into Thyself.

Dost thou too shrink within, withdraw into thyself, into thy memories, and there, deep down, in the very depths of the soul turned inward on itself, thy old life, to which thou alone hast the key, will be bright again for thee, in all the fragrance, all the fresh green, and the grace and power of its spring!—Ivan Turgenev.

#### When Husbands Tire of Kissing.

When a wife discovers that her husband is tired of having her kiss him she never after that neglects it. She thinks it a sign that she is a lovely character because she often kisses her husband when he doesn't like it. Men are such cowards that they never confess that they are tired of kissing their own wives.—Aitchison Globe.

#### Life 100,000 Years Ago.

Scientists have found in a cave in Switzerland bones of man, who lived 100,000 years ago, when life was in constant danger from wild beasts. To-day the danger is shown by A. W. Brown of Alexander, Me., is largely from deadly disease. "If it had not been for Dr. King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough." To cure Sore Throats, Colds, Croup, Whooping Cough, and prevent pneumonia, it is the best medicine on earth. 50c and \$1.00. Guaranteed by all Druggists. Trial bottle free.

#### The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherry bark are extracted and preserved by the use of chemically pure, triple refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in "wasting diseases" where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and through them the whole system. Thus all skin affections, blotches, pimples and eruptions, as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalide's Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

#### Time for Memory's Help.

And now, when the clouds gather and the rain impends over our forest and our house, permit us not to be cast down; let us not lose the savor of past mercies and past pleasures; but like the voice of a bird singing in the rain, let grateful memory survive in the hours of darkness.—Robert Louis Stevenson.

#### Value of Work.

Work is the true friend and counselor of man, raises him above all his weakness, purifies and ennobles him, saves him from temptation and helps him to bear his burden through days of sadness, and before which even the deepest griefs give way for a time.

#### Deafness Cannot Be Cured

by local applications, as they cannot reach diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. And unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

### NEWEST IN STEEL CARS.

Union Pacific Man's Invention May Have Solved Railway Problem.

Representing the highest form of passenger coach construction, the new Union Pacific steel car, which was on exhibition in front of the headquarters recently, attracted a large crowd of spectators and many scientific men who were interested in the possibilities it holds out for the future.

It is built on the very latest model, with round windows—which offer far greater resistance in case of accident, and side entrances, which also lessen the danger of telescoping. It has ventilators on the roof which carry an air stream around underneath the car and distribute it evenly over the entire surface. There is scarcely a stick of wood in the whole car and

The Perfect Steel Car.

#### Conflagration in case of a wreck will be practically impossible.

The car is the work of Superintendent of Motive Power McKee of the Union Pacific and is greatly admired by those who make a specialty of railroad construction. It has a large seating capacity. The car will soon be placed in active service and other will be immediately turned out of the shops in case it proves successful.

#### Growth of Canadian Town.

As an example of the increasing railroad facilities for the west, comes the report of the marvelous growth of Nokomis, Canada, a center, caused by the increase of the wheat industry of that section of the country. Two lines have already been established in the town and the rich country lying between the Quill Plains and the famous Redia district is to be tapped with a line running direct from Regina, crossing the main line at this point, and running in a northeasterly direction to the fertile Swan river valley.

Government support has been given to the part of the new transcontinental lines that connect Winnipeg with the great lakes, and the Grand Trunk Pacific company, which builds the section to run from Winnipeg, is doing its utmost to get the rails down as far west as Edmonton before the ground freezes.

Already the line has been completed and is opened for freight as far as Minnesota, 136 miles west of Winnipeg.

The increased railroad facilities have made Nokomis the junction point with the Canadian Pacific and have also made it the most promising and the liveliest town in that part of the domain.

Despite the fact the town is but six months old, it has 30 buildings, two banks and three hotels. Two great transcontinental lines run through the town, the Grand Trunk Pacific and the Canadian Pacific.

#### A Cheerful Disposition.

It is well to be cheerful of disposition, to wear a bright face, to speak in a happy tone, to be lively in action—it "doeth good like a medicine," is a tonic to others as well as a benefit to one's self. It is as infectious as disease, encouraging good spirits in those about one, as well as stimulating healthy views of life in one's own mind.

The question of a national flower has been a matter of discussion for a long time, but the golden rod grows in every state of the Union, and as its color suggests "sound money" what better emblem could be found for the party which has taken that issue as a part of its political faith? With the general election every four years, with no prime minister whose tenure extends indefinitely, we lose the pretty custom which obtains in England, where "Primmise Day" is celebrated by wearing primroses and by decking Peacock's field's grave with the bright-eyed flower of spring. That, no doubt, would save the woman who may choose to inaugurate a league such as described the reproach of the Anglo-phobists—that we are becoming un-American, and even that awful thing, imperial, by sharing the old honor with old England of maintaining a floral and political society.

## 70 Bales on

### IS WHAT WADE LEAF?

ED LAST YEAR

Editor Daily Mail:

Dear Sir—The following notice will explain itself. Kindly fish it and very much oblige us.

Yours truly,  
Anderson Phos. & Oil Co.

Mr. J. Wade Drake, Anderson, S. C.

Dear Sir—We have heard that by a liberal use of fertilizer, principally in side dressing, you made 70 bales of cotton on sixty acres of land last year. We will appreciate if you will give us your method of preparation, fertilization and cultivation which resulted in this crop. We wish to give the public the benefit of your experience as we think it will be an inducement to farmers to side dress their crops.

Thanking you in advance for the favor of an early reply, we are,

Yours truly,  
Anderson Phos. & Oil Co.,

Anderson Phosphate & Oil Co., Anderson, S. C.

Gentlemen—Answering your favor of the 7th will say that after preparing the land well I got two hundred pounds of fertilizer to the acre before planting. At the second plowing I applied four hundred and fifty pounds more of fertilizer to the acre and when the first cotton blooms appeared I applied seventy pounds of nitrate of soda to the acre. I did this on sixty acres of land which I planted in cotton and on the sixty acres I gathered sixty-eight eight bales of cotton, averaging 511 pounds to the bale. And then, when I thought I had gathered the crop after Christmas, I picked enough cotton to make 712 pounds of net cotton so it will be seen that altogether I made more than seventy 50-pound bales of cotton on the sixty acres. I cultivated this cotton as I usually cultivate my cotton except that it was fertilized better than usual. A good part of this fertilizer was Anderson Phosphate and Oil company fertilizer, the balance was other standard brands. I was never able to see any difference in the cotton fertilized by Anderson Phosphate and the other goods.

Yours truly,  
J. Wade Drake.

Anderson, S. C. June 4, 1909.

Mr. J. E. Stevenson.

Dear Sir: We have heard that you
