

"I wish that land in this country was worth \$100 an acre so people would take better care of it," remarked a well known farmer in presence of the writer yesterday. The fact is that most land in this country is worth \$100 an acre or more, and if people would only take better care of it, it would bring that price and better.

Owners of the new Brooklyn tunnel are much disappointed. Not every strap on every train was in use the first day. Still they should give such staid persons as Brooklynites at least a week to get the tunnel habit.

Automobile scorchers are to be put in jail. That is treatment more nearly fitting the disease. Some scorchers would rather pay a fine than eat peanuts. It makes them feel heroic without crippling them financially.

A publisher's catalogue divides books into three lists: "Famous Books," "Readable Books," "Gift Books." No book appears in more than one list. This is an amusing comment on "the present state of literature."

Laura Jean Libbey has copyrighted \$1 new plays in one fell swoop. Evidently the pleasant fiction that working girls are always persecuted and then marry fabulously wealthy young men with large, dark eyes is considered good for many more encores.

New York hotel keepers will learn after awhile. Henceforth when a man signs his name "Duke de Deadbeat" or something quite as noble and impressive it will be to the street for him unless he has a few tons of baggage along as an evidence of good faith.

Catherine Waugh McCulloch says that women do not get a show before a jury unless they are pretty, and then they get too much of a show. The idea that any one should slander the girls that way! Our understanding of it was that they were all pretty.

Science is about to prove that animal energy is developed by electricity and that the human body is a battery for generating the subtle fluid from the pure-food products the person absorbs at a banquet, a free-lunch counter or elsewhere. After the subject has been developed more thoroughly perhaps when we are sick we shall send for the electrician instead of for the physician, as in the present transitory stage.

Dry Goods, Shoes, Underwear, etc.
To the readers of the Sentinel-Journal:

You are hearing of HIGHER prices. I am glad to say that I believe Cotton will be higher. I am also glad to say that I have bought one of the largest and best selected stocks of goods—piece goods, men's and women's underwear, blankets, shoes—in a word, a stock of goods suited to the needs of the general public, that I have ever had, and I say to you MOST POSITIVELY that my prices are NO HIGHER, and on some goods LOWER than last season.

I do not advertise to give away goods—to sell a 10c article for 5c—I can't do that. But compare MY GOODS and PRICES with the "give aways" and if I do not give better values, I will not ask you to buy. I want your trade and will do all I can, LEGITIMATELY, to get it. I promise you

Short Crops. Long Dollars—When You Spend Them With Us. There are Reasons.

We buy everything for Cash—and Sell for Cash!

Here you don't have to help pay the other fellow's debt—the debt he made and moved to North Carolina or Georgia and left unpaid. We have no big rents or city taxes and many other expenses that a man doing business in the town or city has.

You take no chances in buying your goods from us, as anything we sell that does not prove as represented will be taken back and your money refunded. Don't that sound good? Well; it is true. If you are from Missouri let us show you.

We will sell you first-class merchandise as close as any conservative merchant can sell them, and taking the whole line through you will find us a little lower in price—a little higher in quality—than most stores.

We buy and sell most anything in the produce line and pay the top of the market prices.

We mention just a few prices for your consideration and will appreciate any business you can give us.
